# ELECTRO-MAN

## Coloring Book

A band of strange Robots descends to the Earth and starts wrecking cities. Electro-Man and Flicker, who live far away on the planet Venus, are called upon for help.

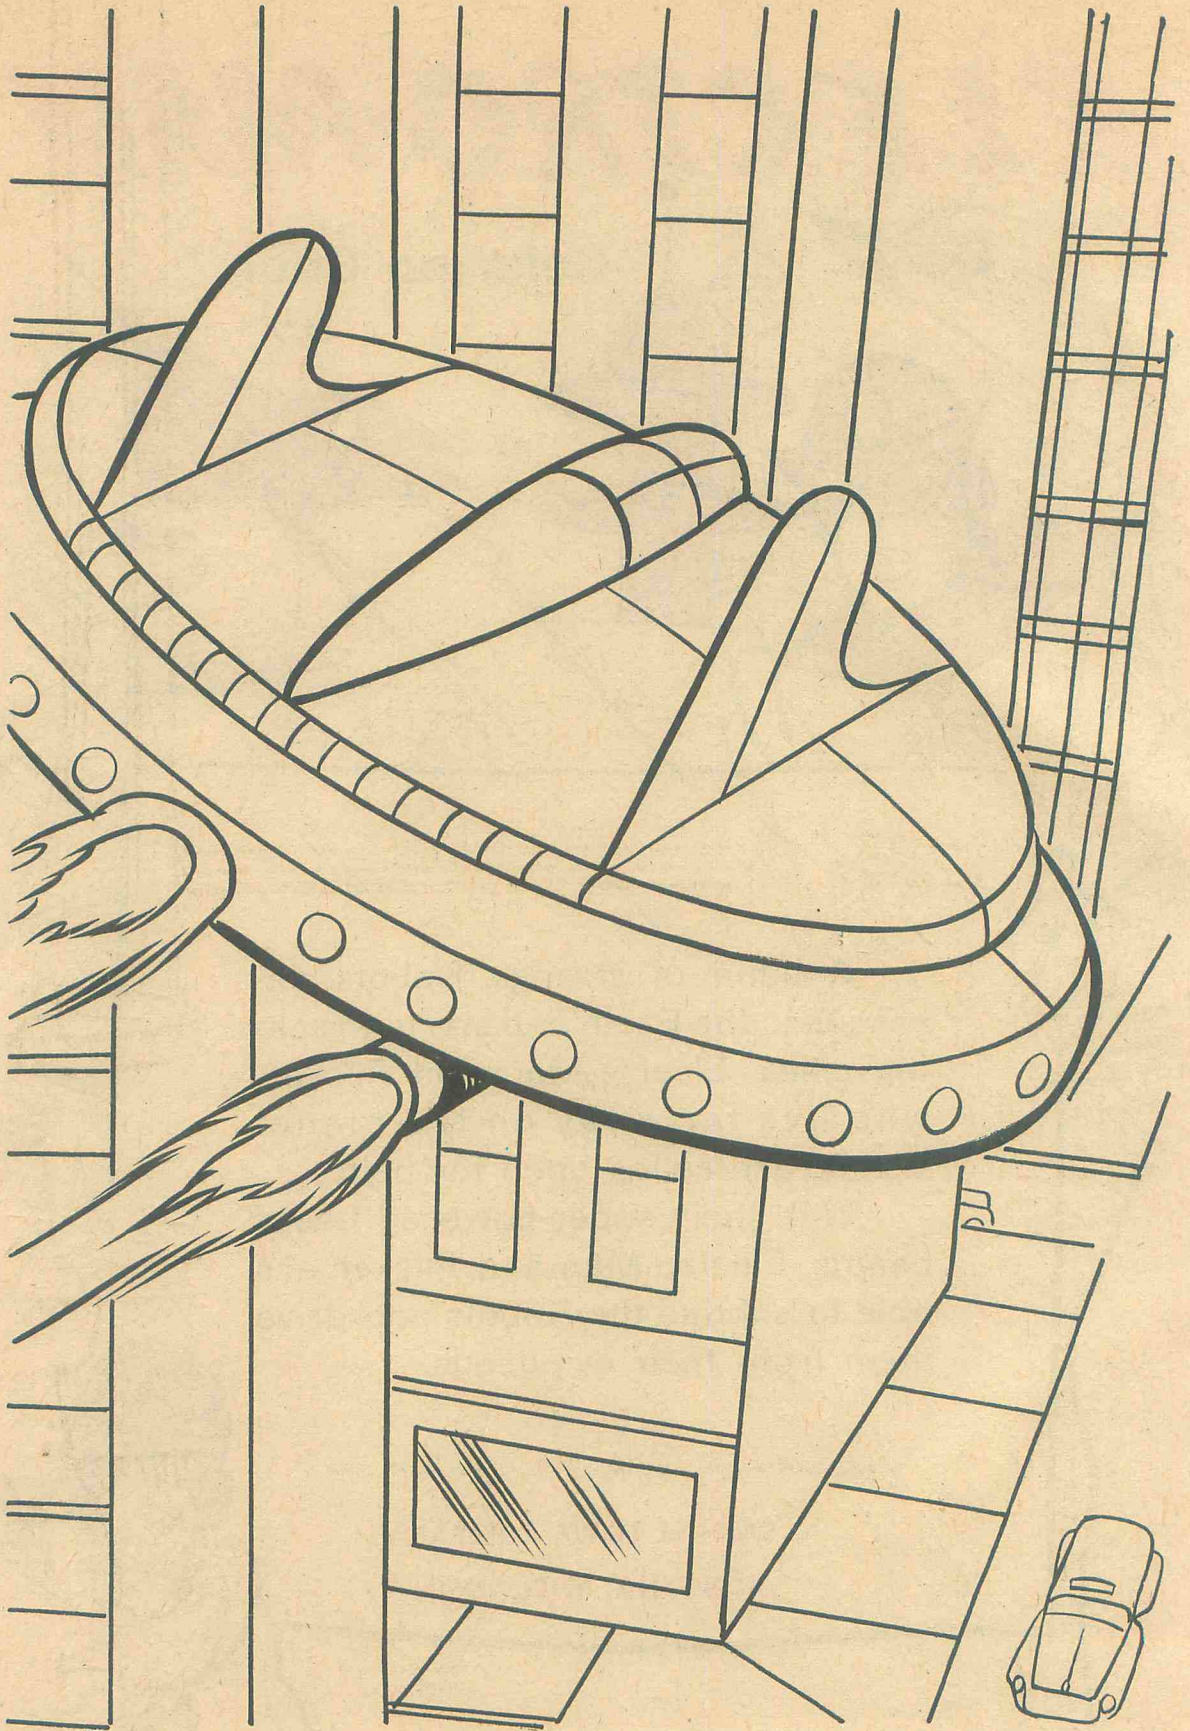

With their super-powered Laser beams, Electro-Man and Flicker are able to subdue the Robots and drive them from their evil deeds.

An alien Spacecraft hovers over the city.

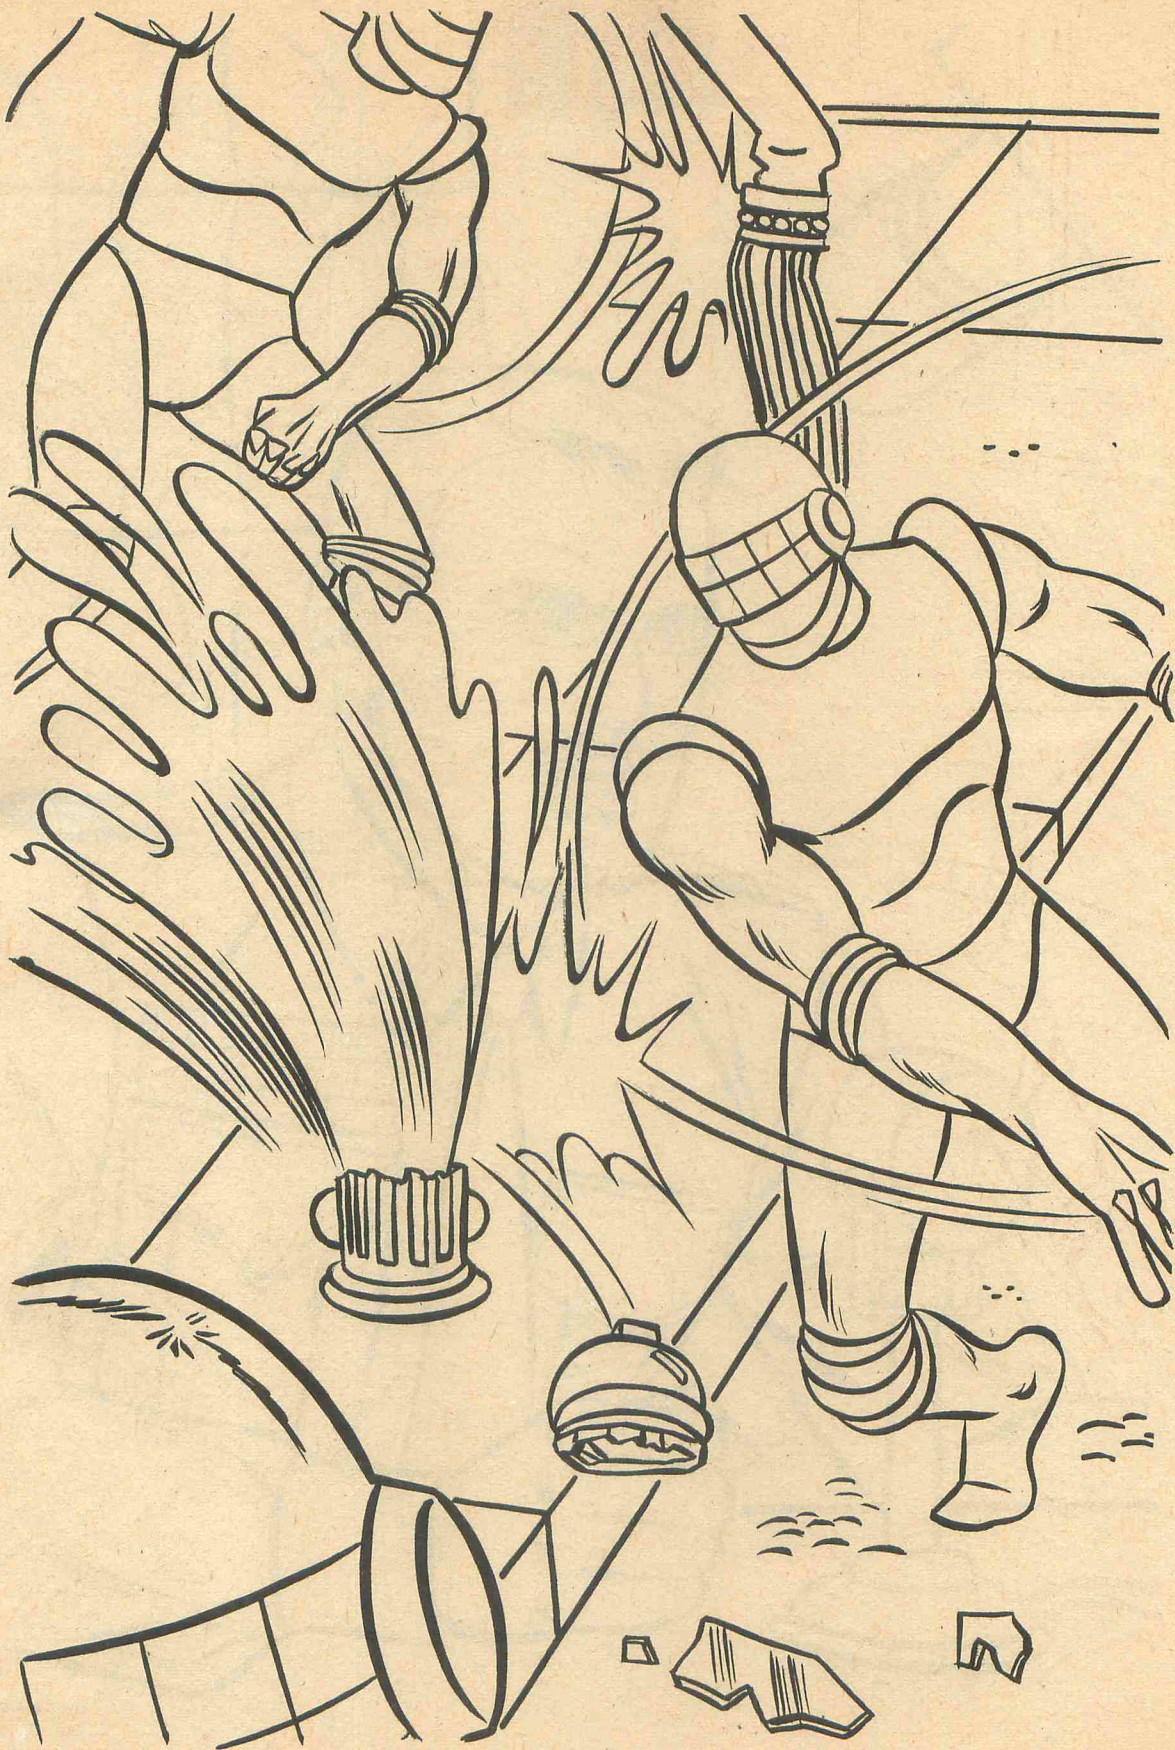

The Spacecraft lands on Main Street.

Strange Robots leave the ship.

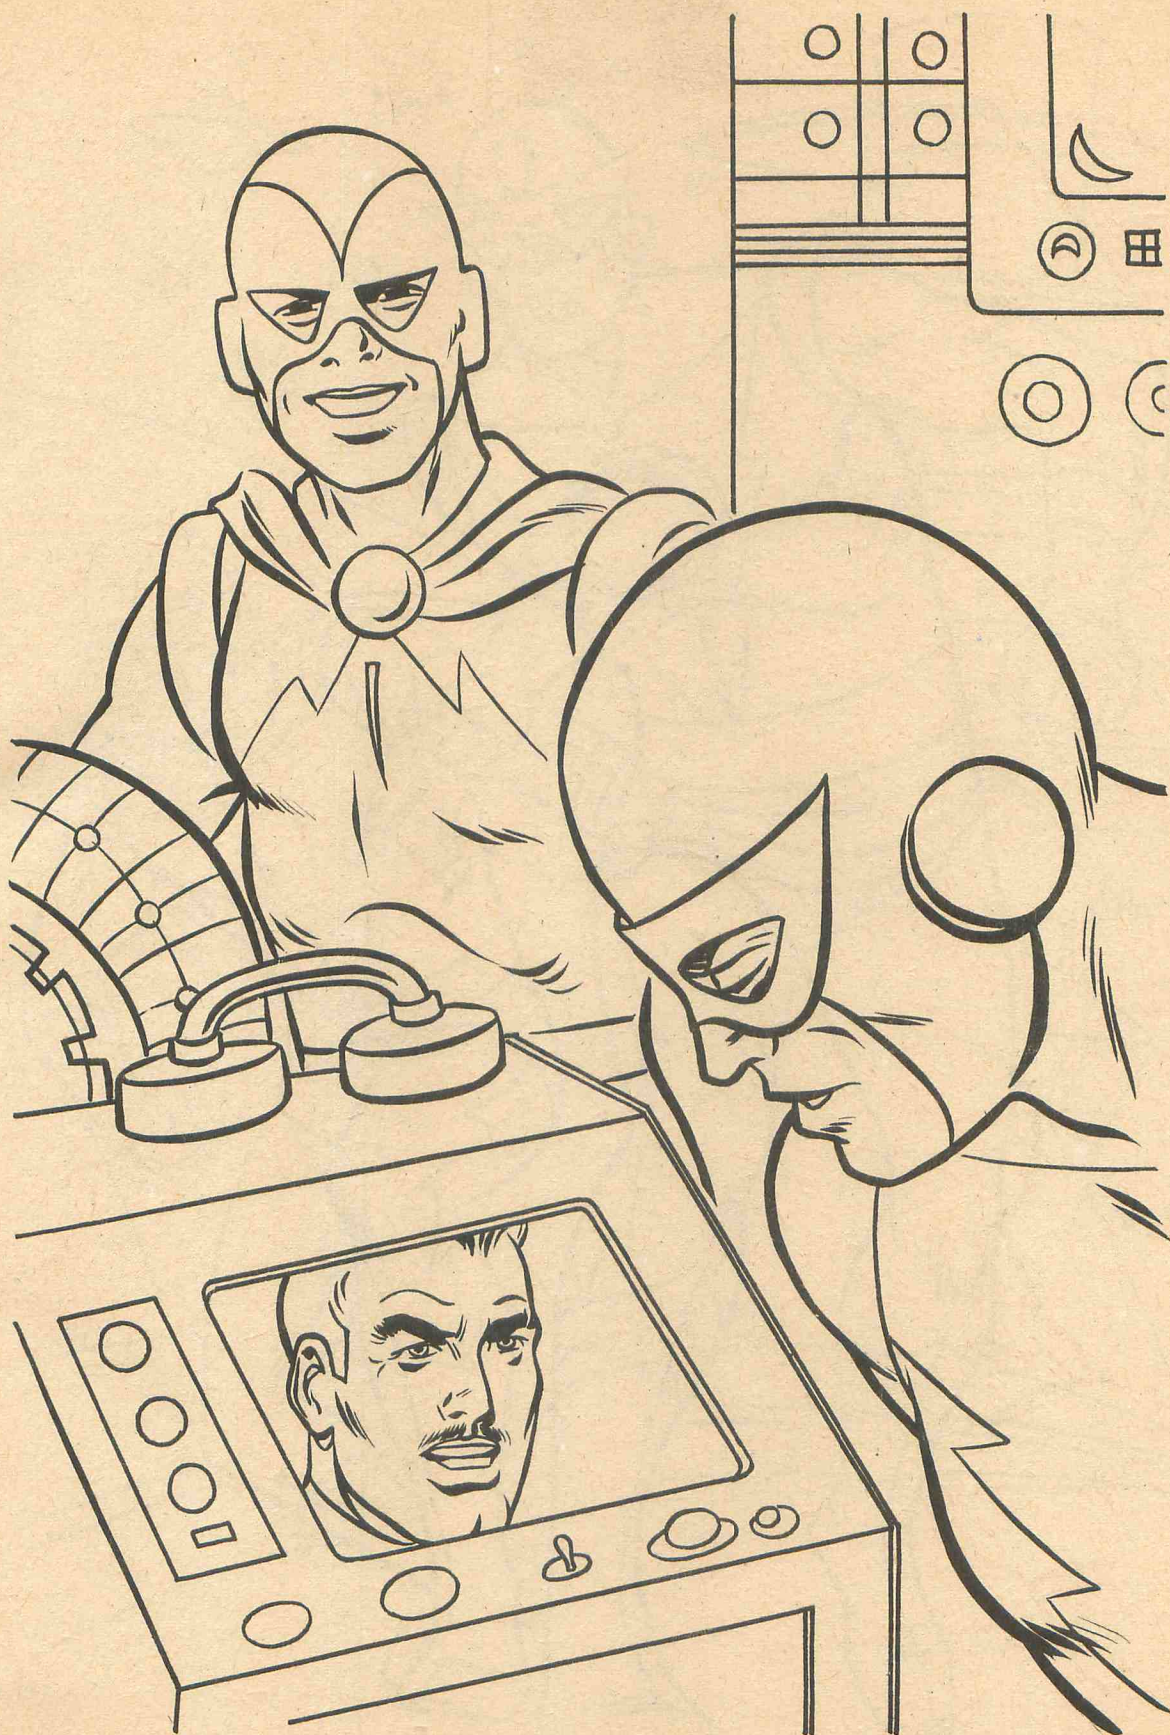

They destroy everything in sight.

The Army sends out a call for help.

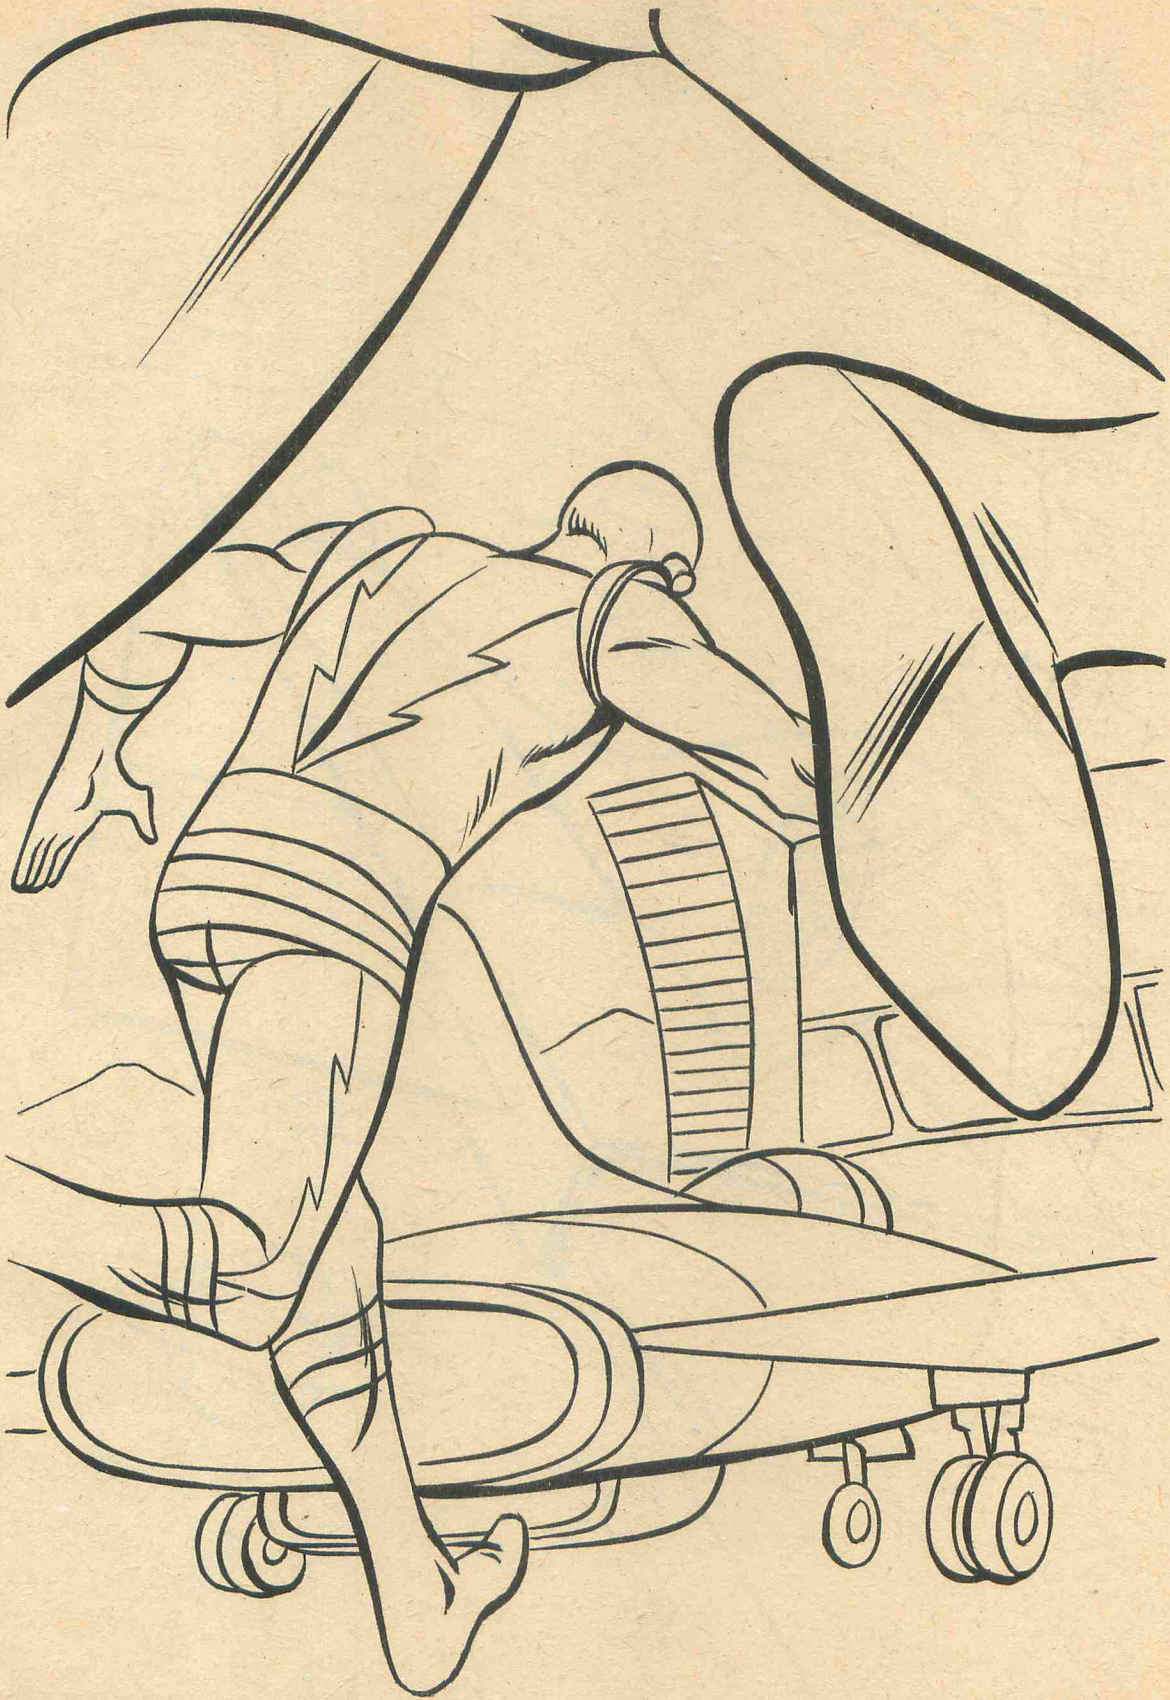

On the planet Venus, Electro-Man gets the call.

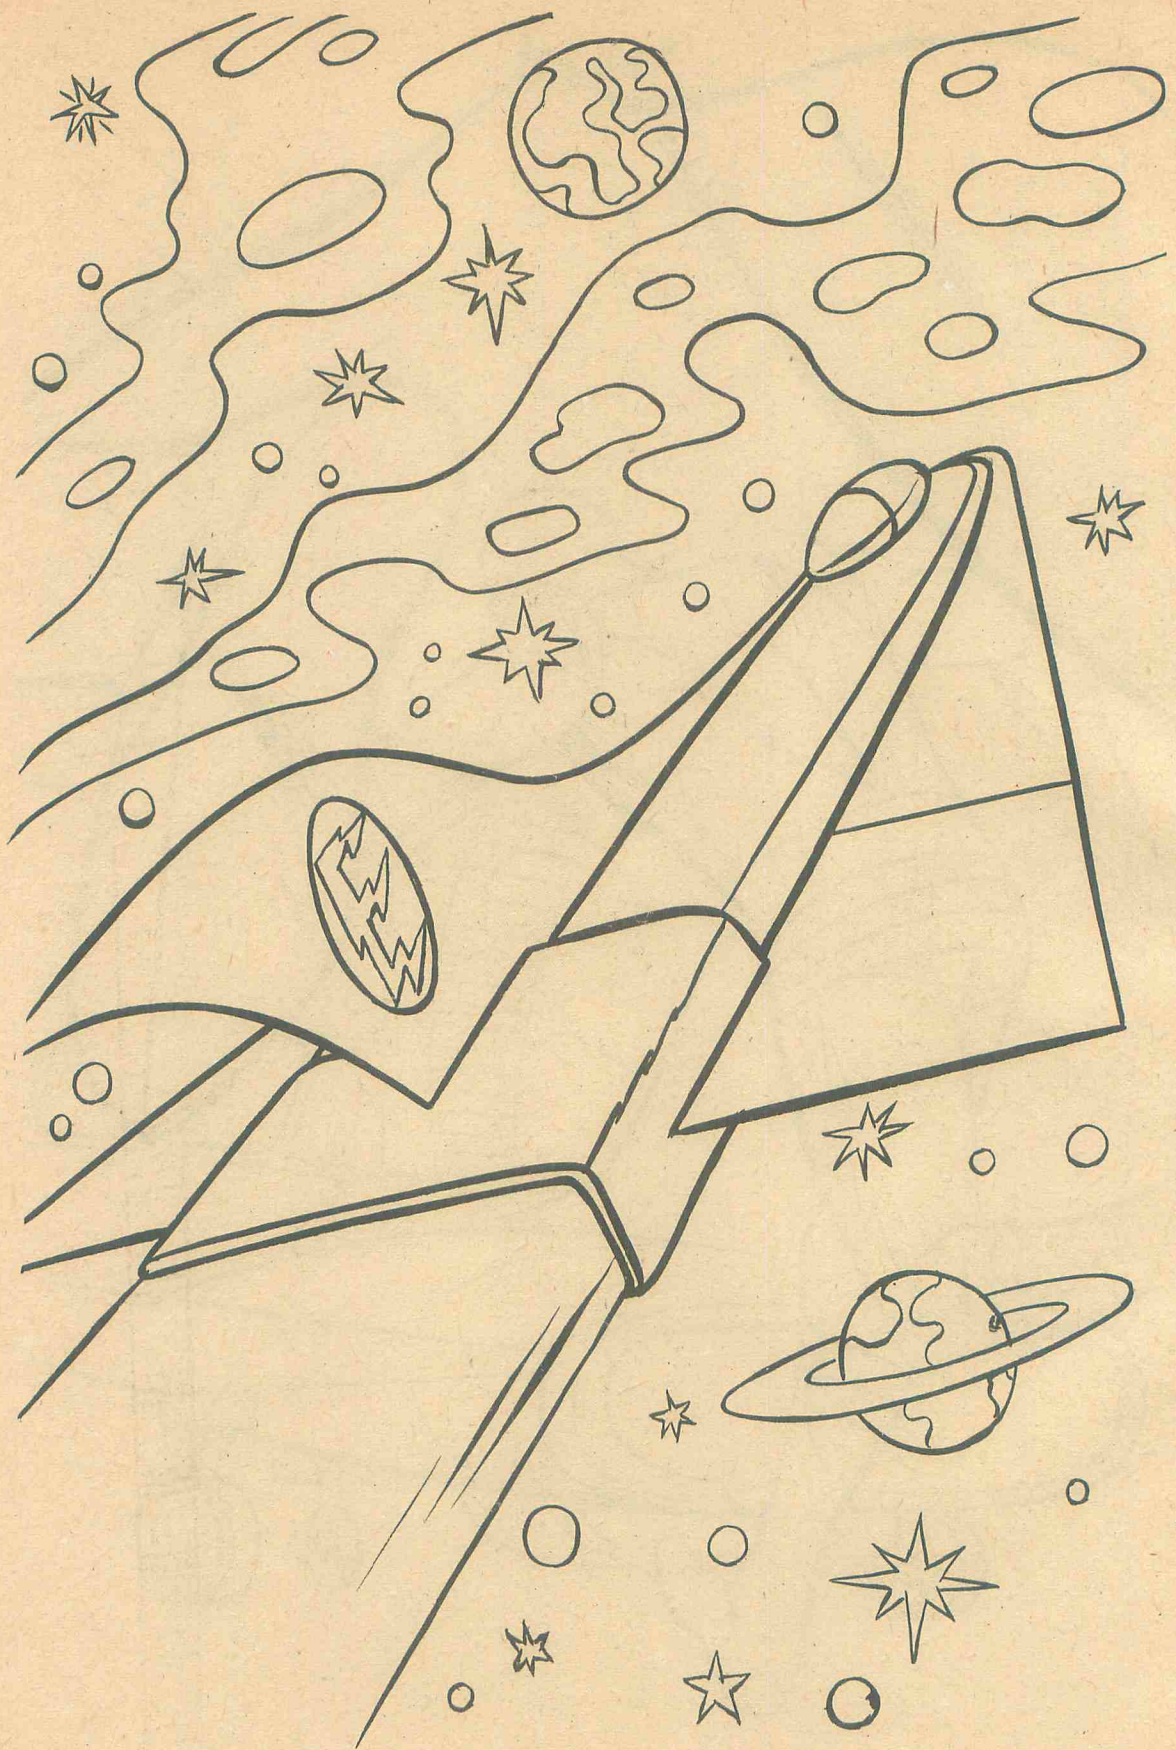

Electro-Man and Flicker set off to help.

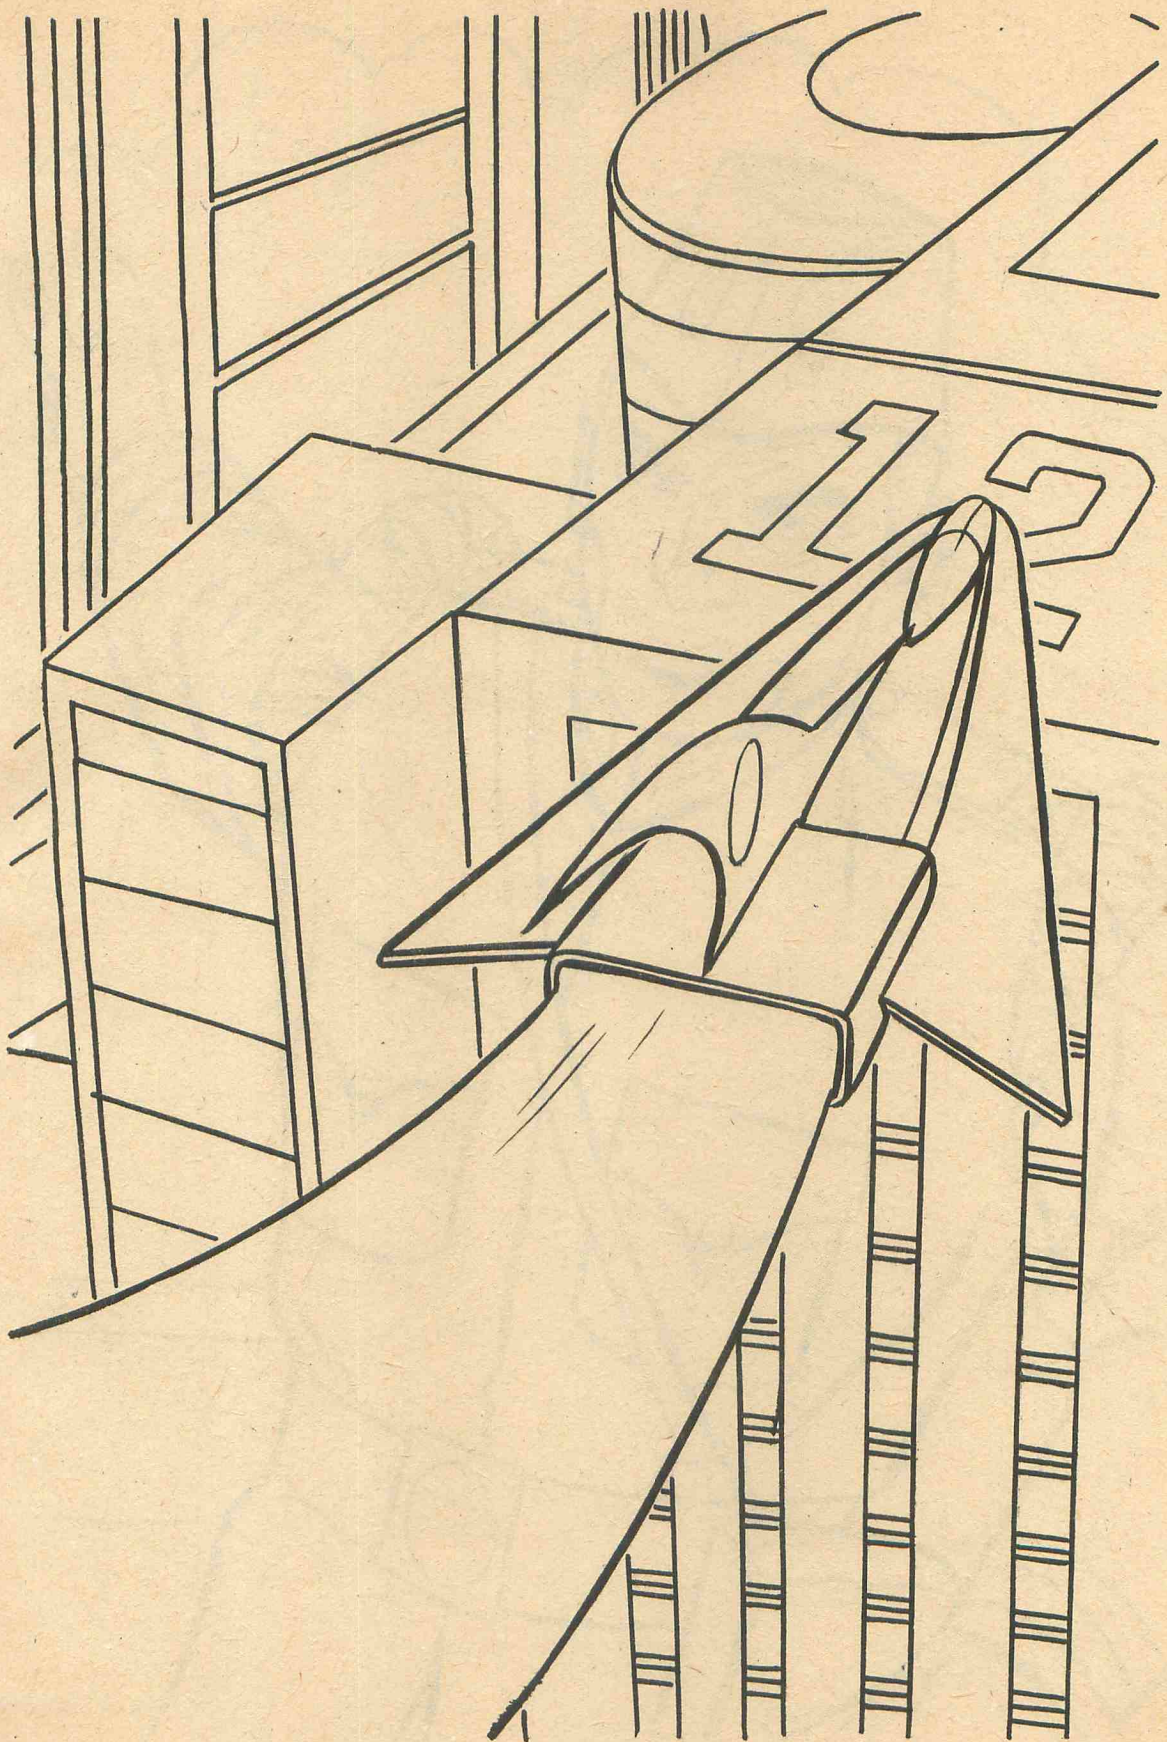

They board their spaceship.

And are on their way to Earth.

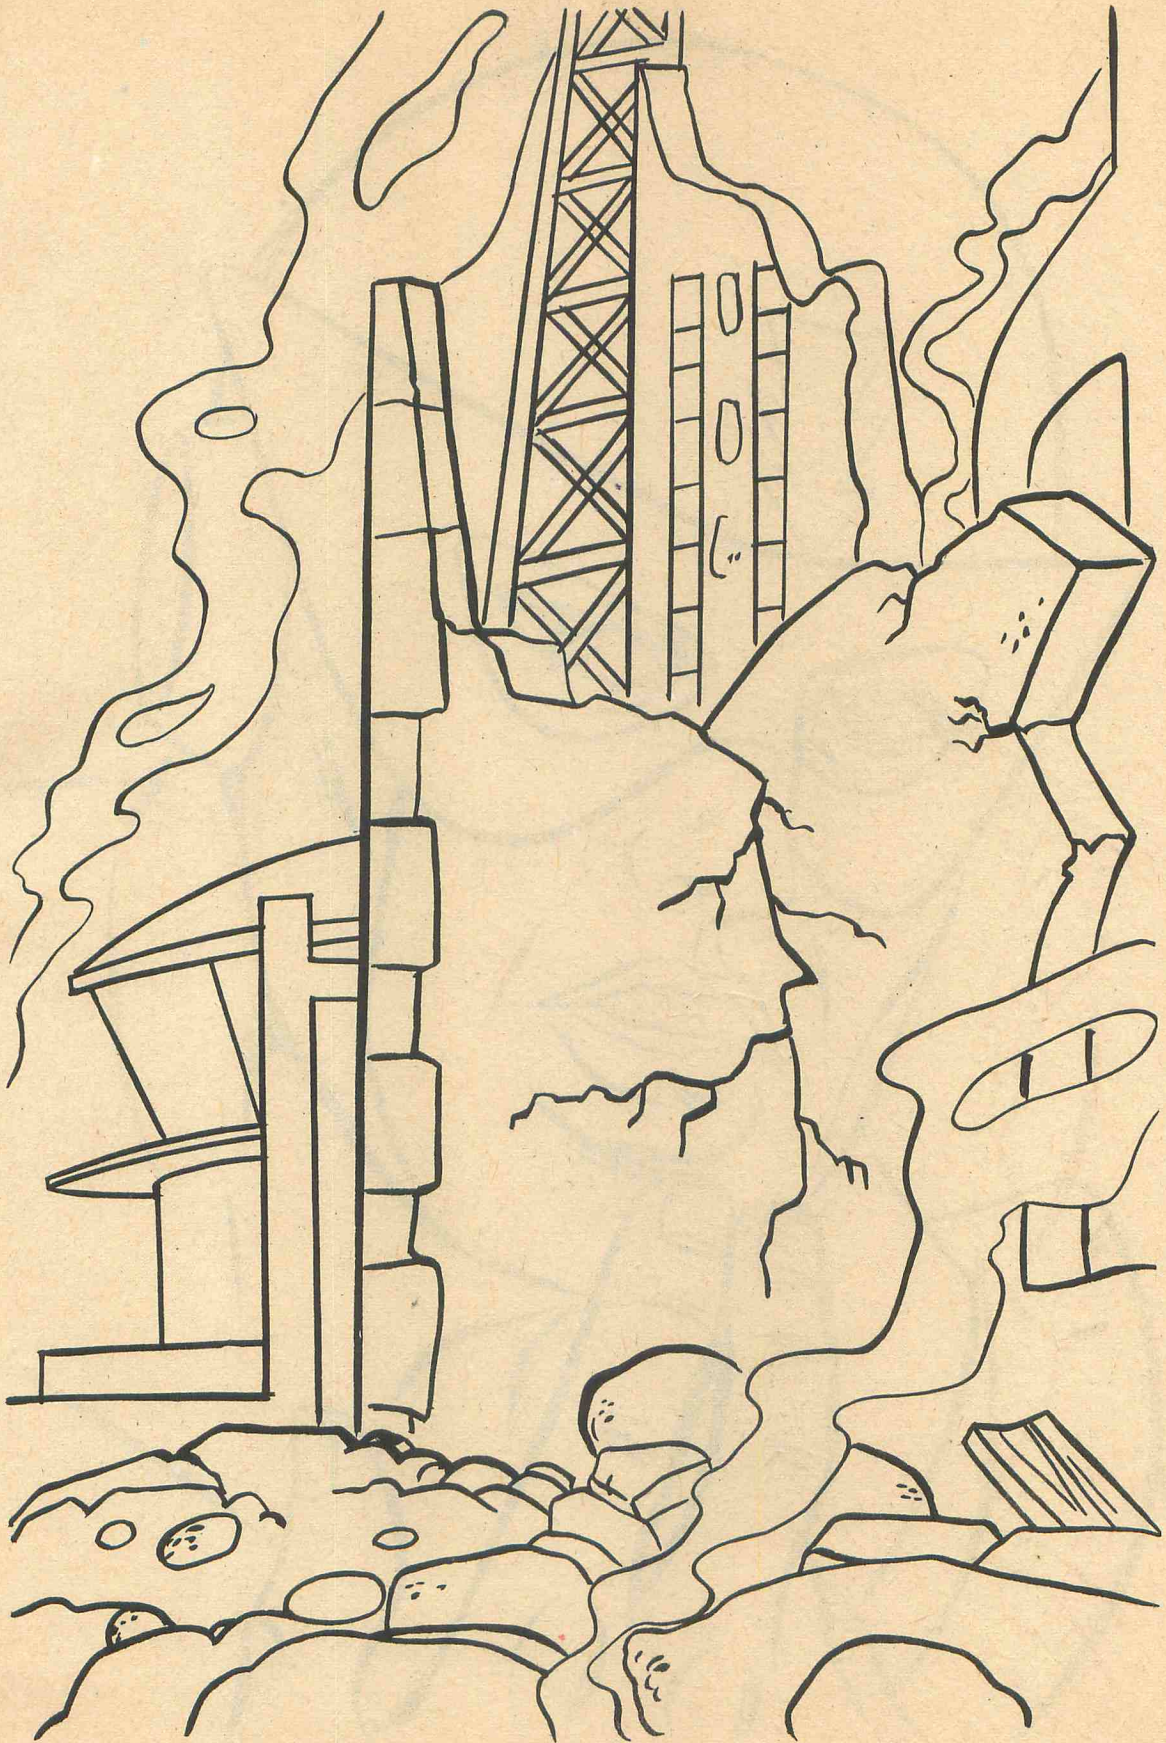

In a flash they arrive at Metro-City.

An officer tells them about the Robots.

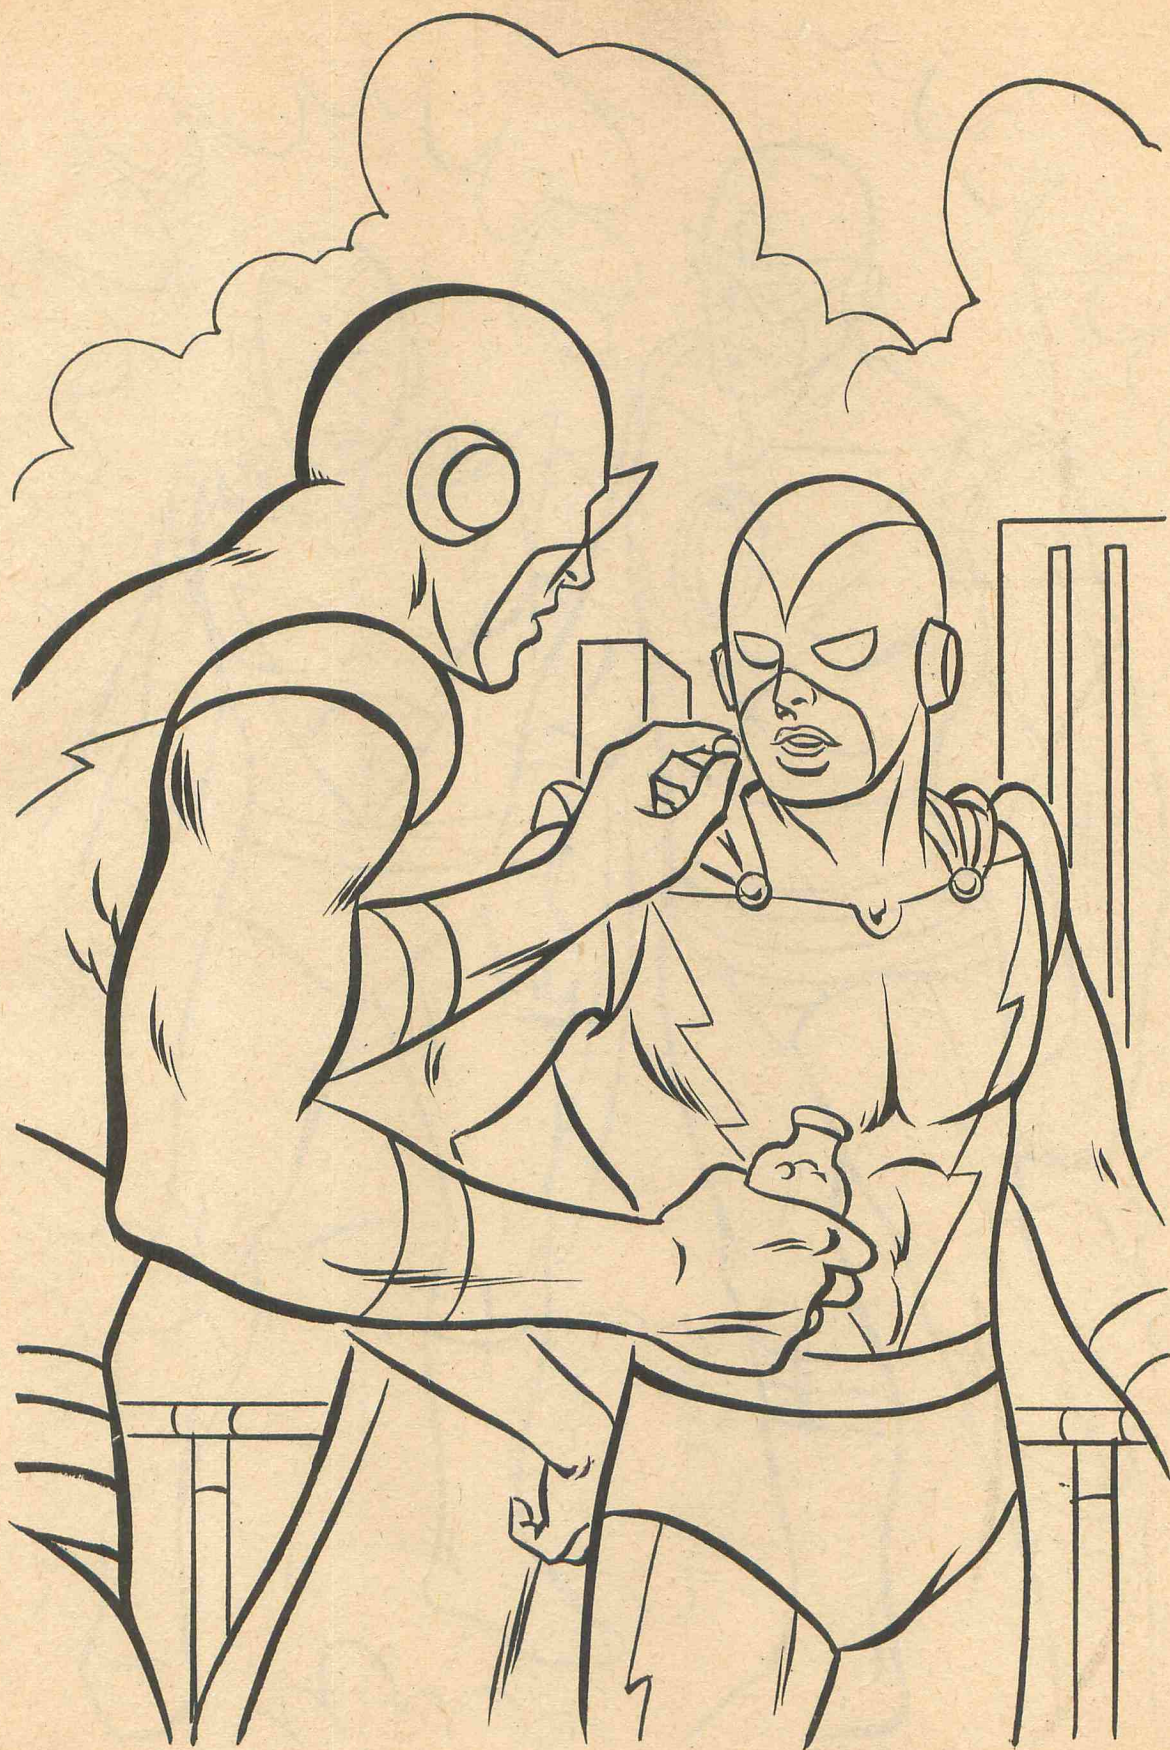

He shows them how huge buildings have been destroyed.

Electro-Man swallows a power pill.

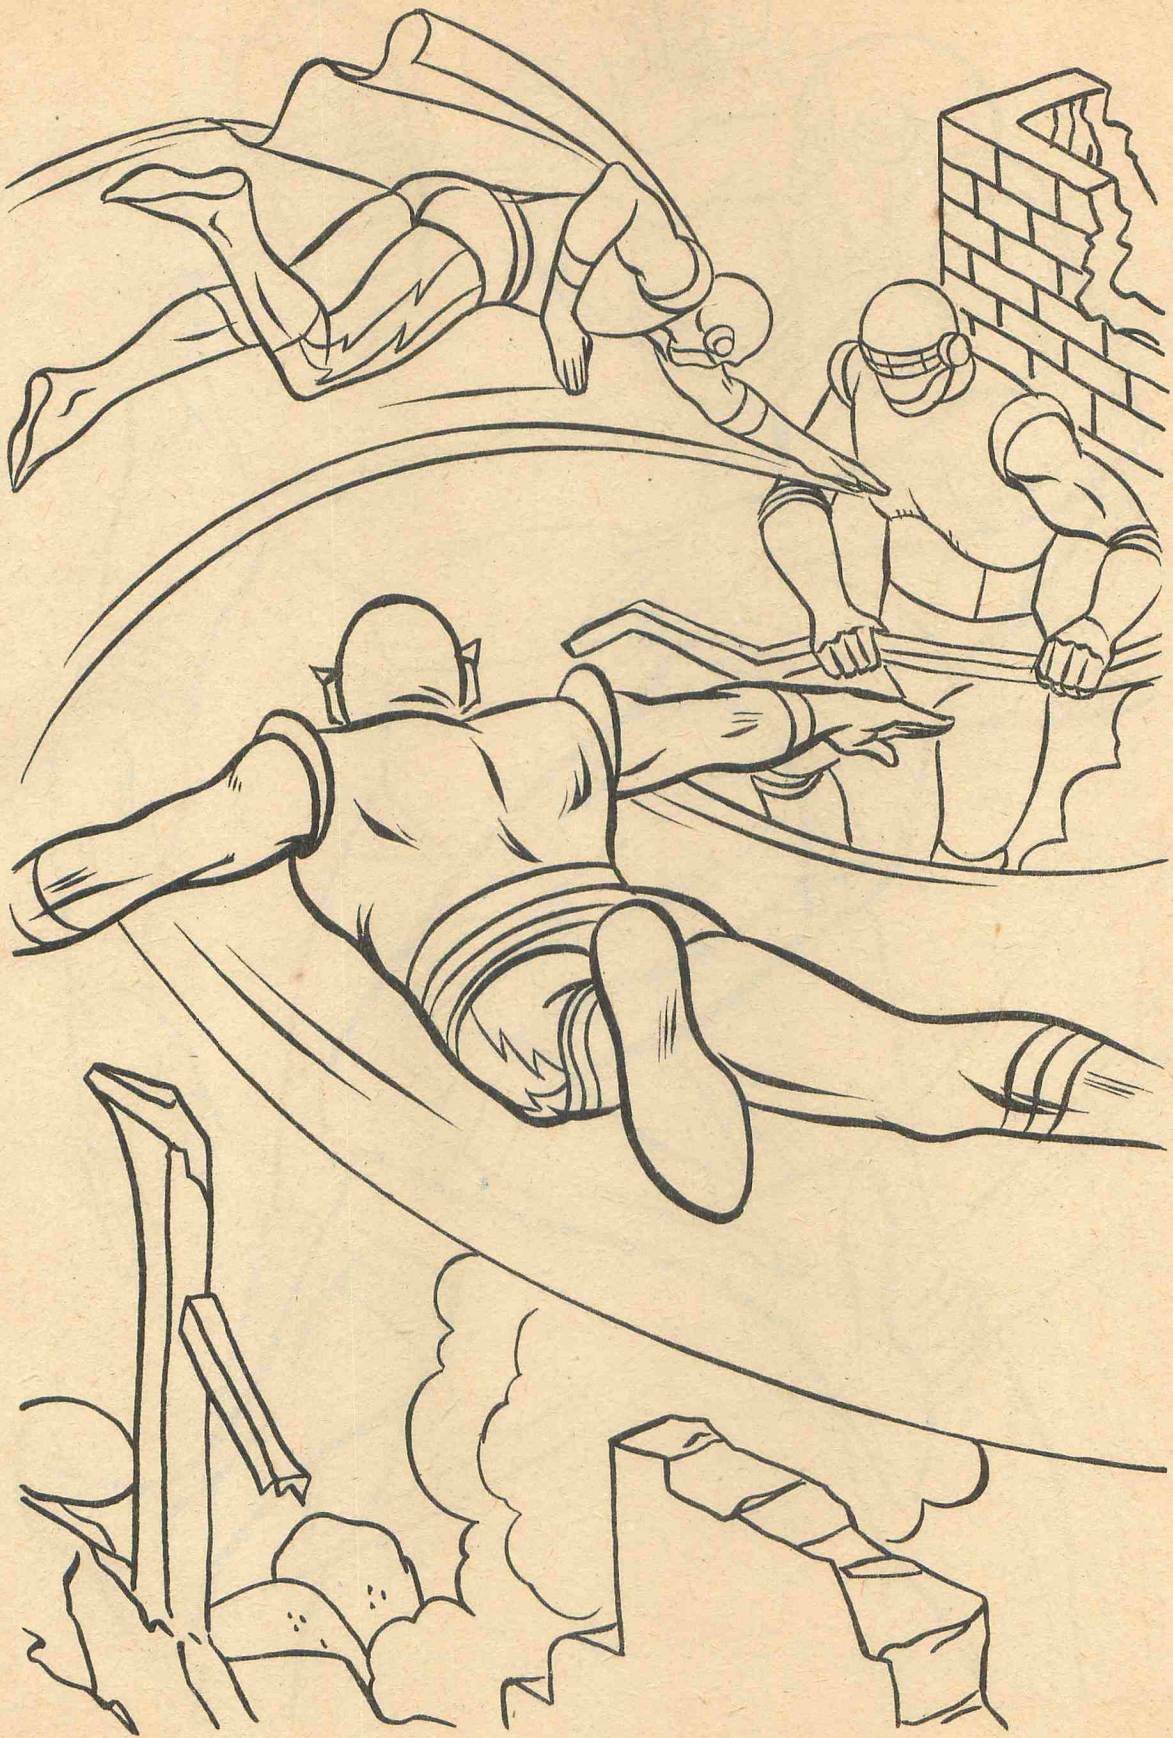

He gives one to Flicker.

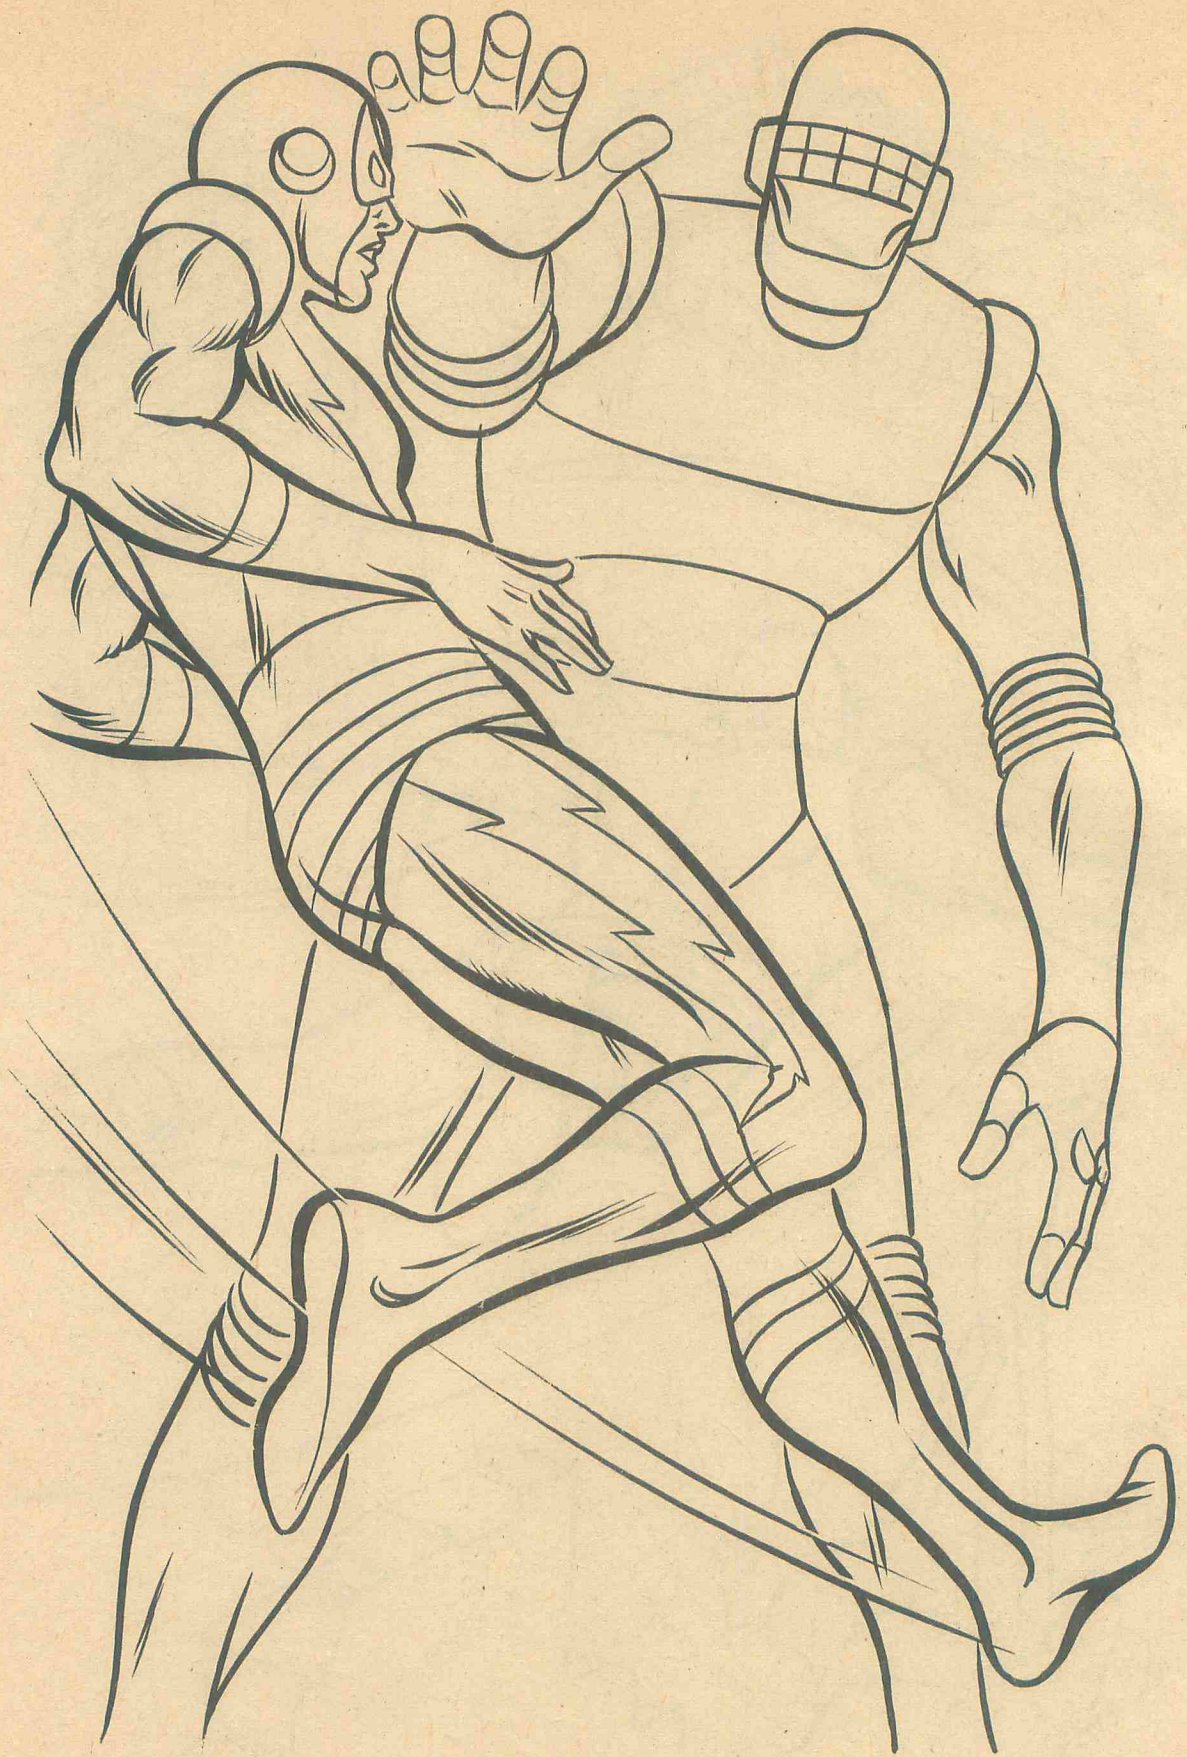

Electro-Man and Flicker light up and glow.

They fly into action.

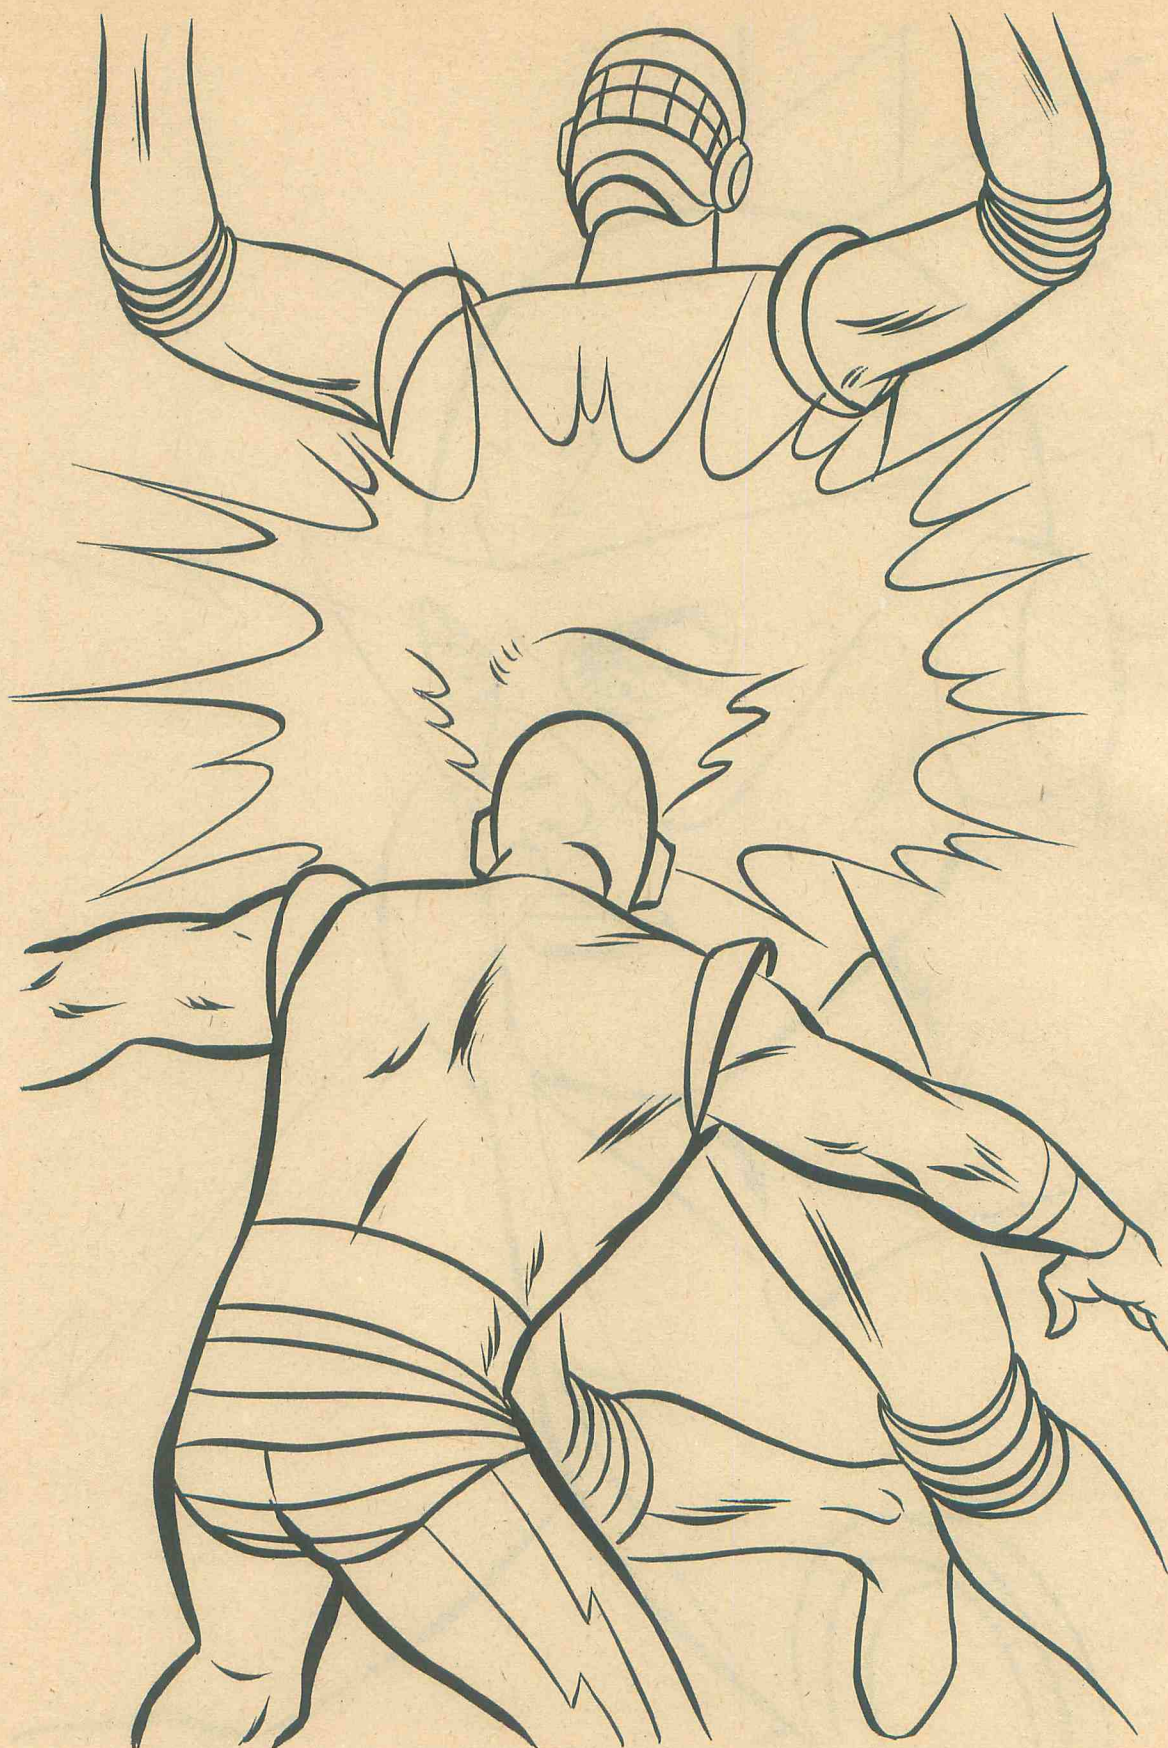

And are stopped by a Robot.

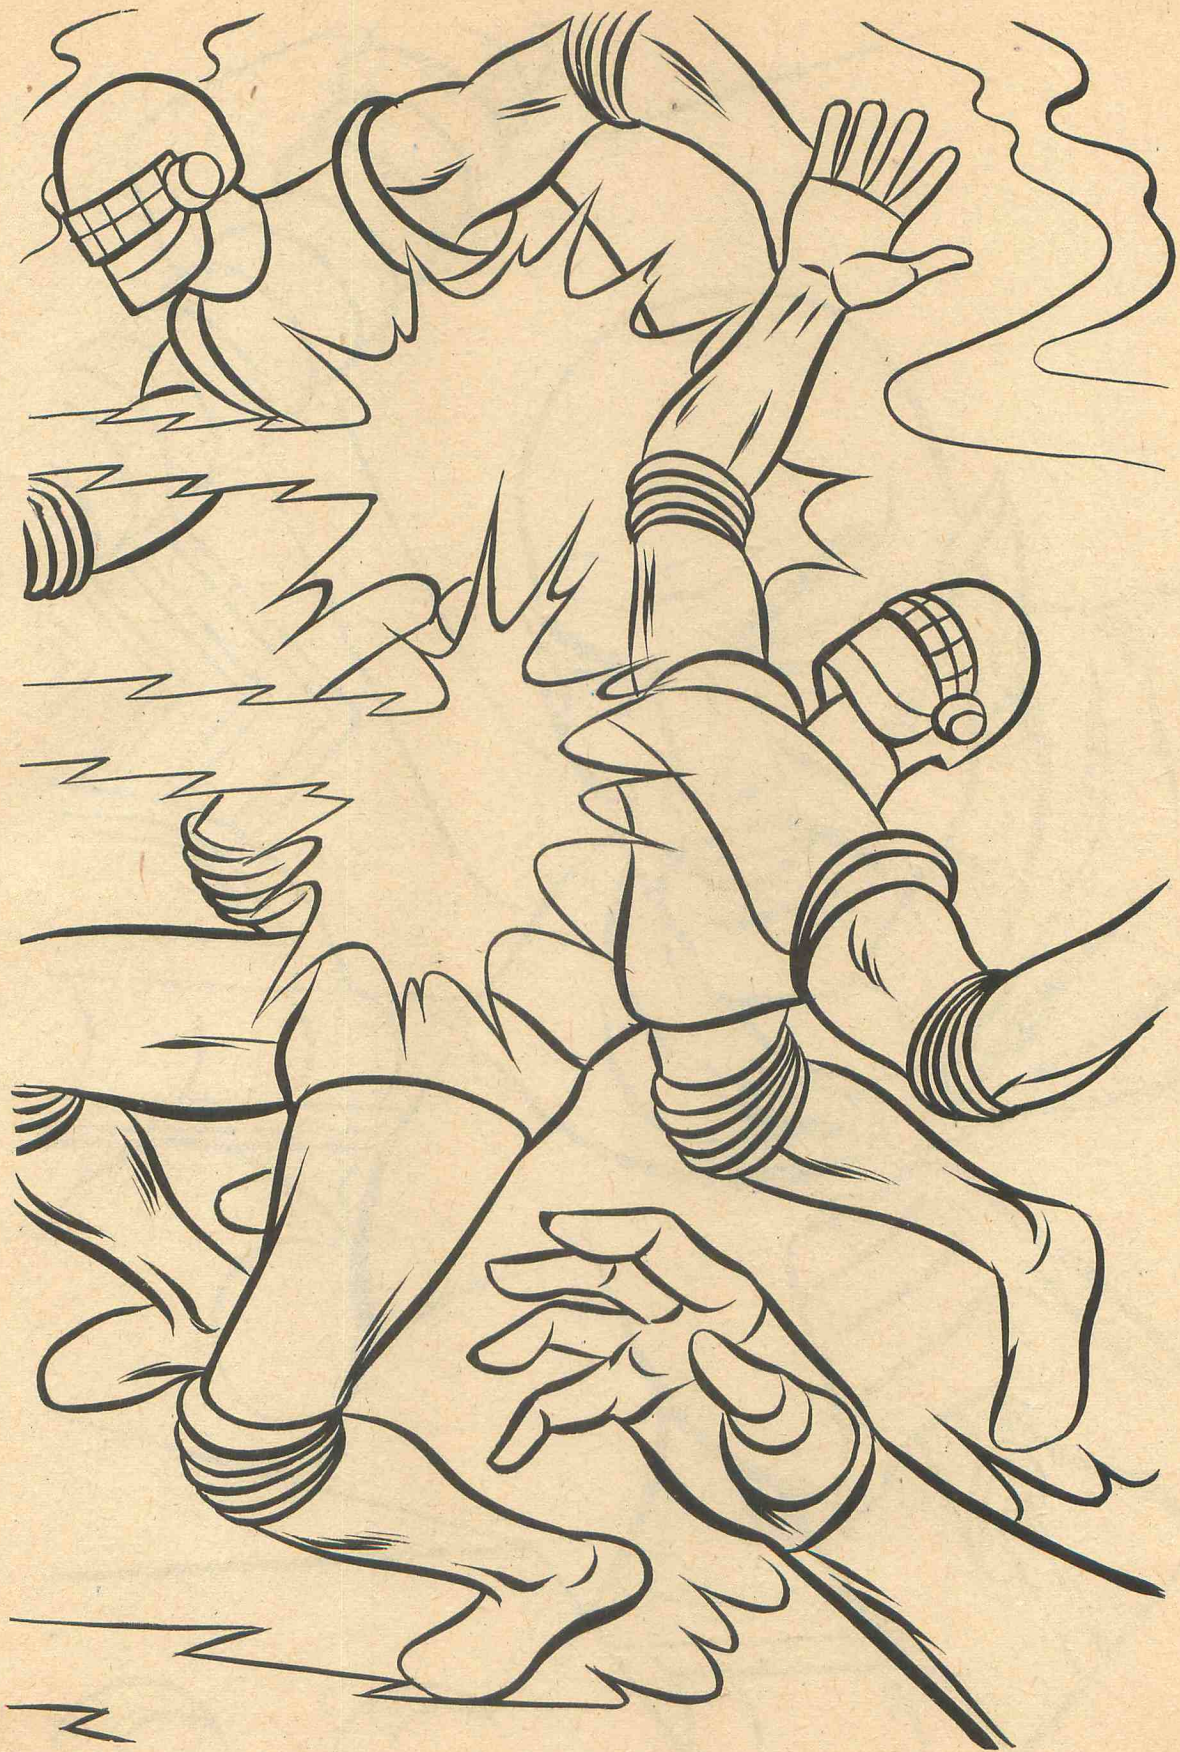

Electro-Man's eyes are powered.

His eye beam stuns the Robot.

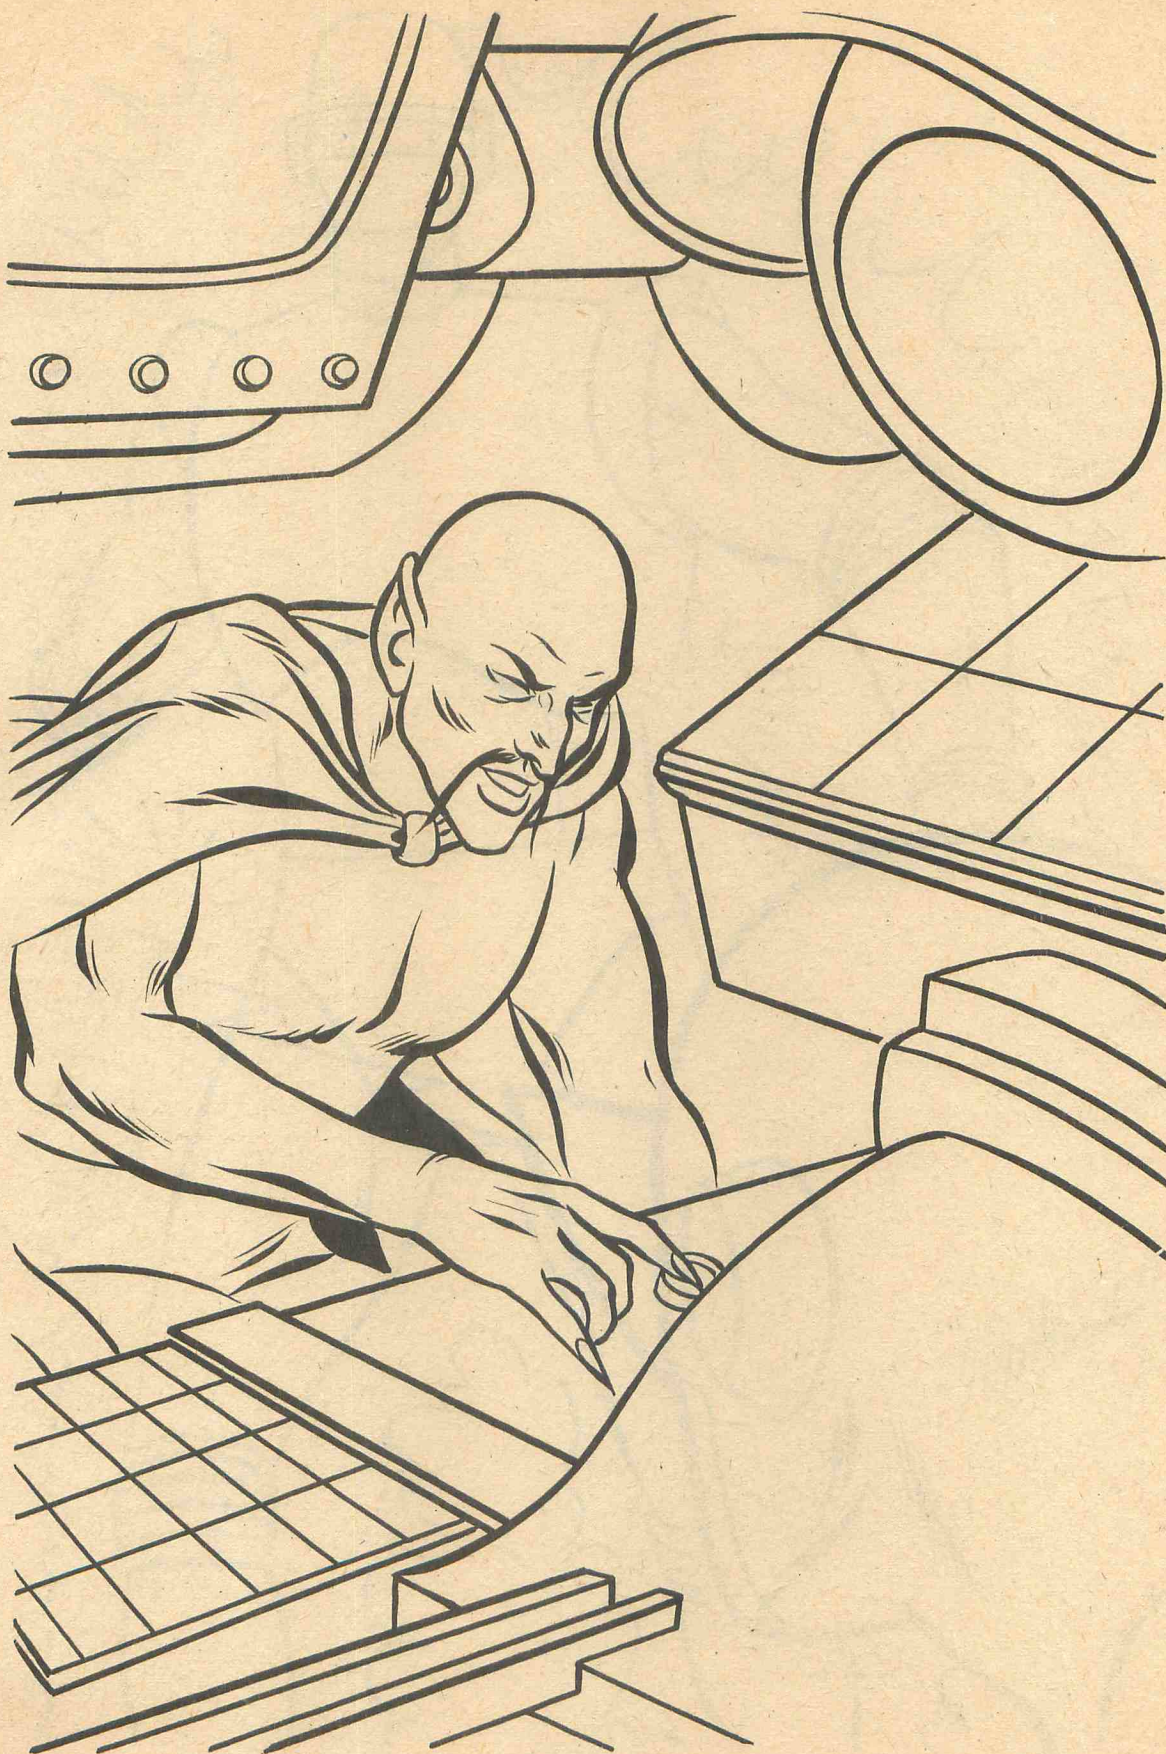

Other Robots are destroyed by the powerful eye beam.

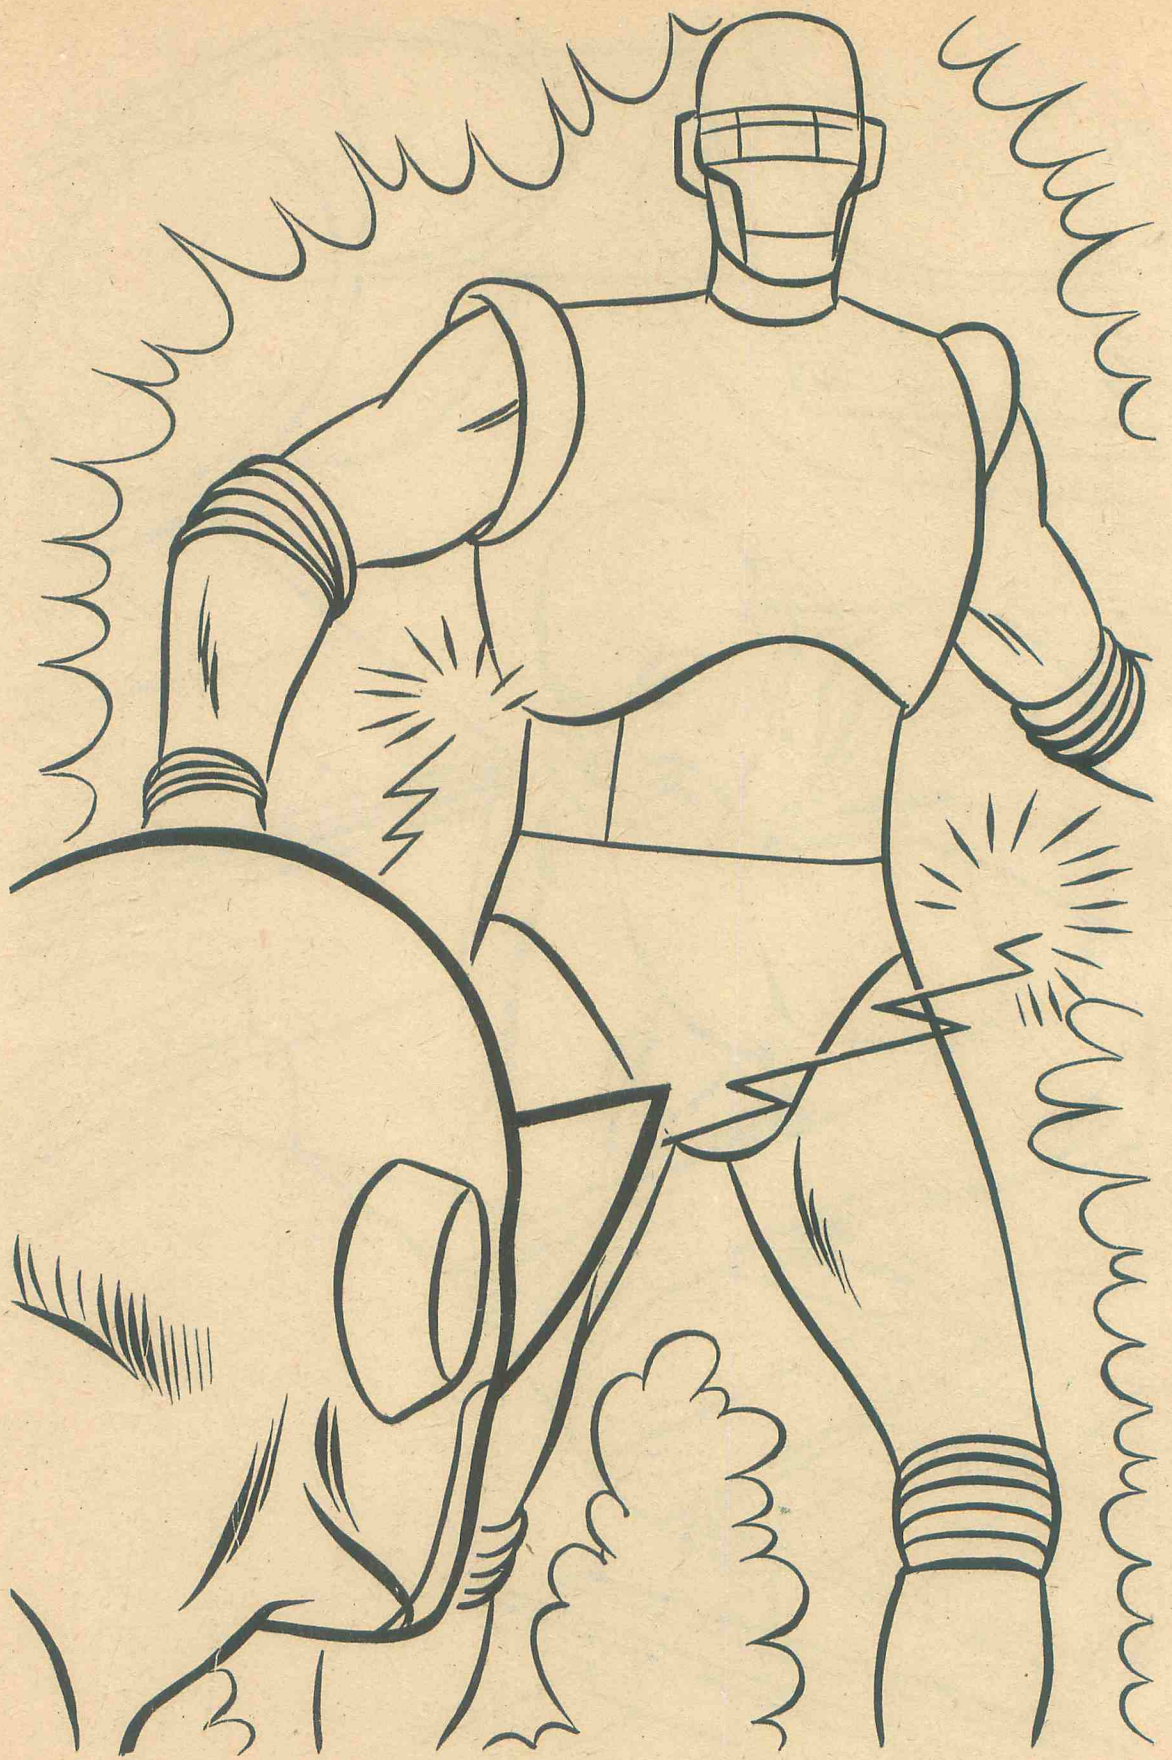

The leader of the Robots learns of the battle.

The Robot leader pushes a button.

Suddenly one of the Robots resists the Laser beam.

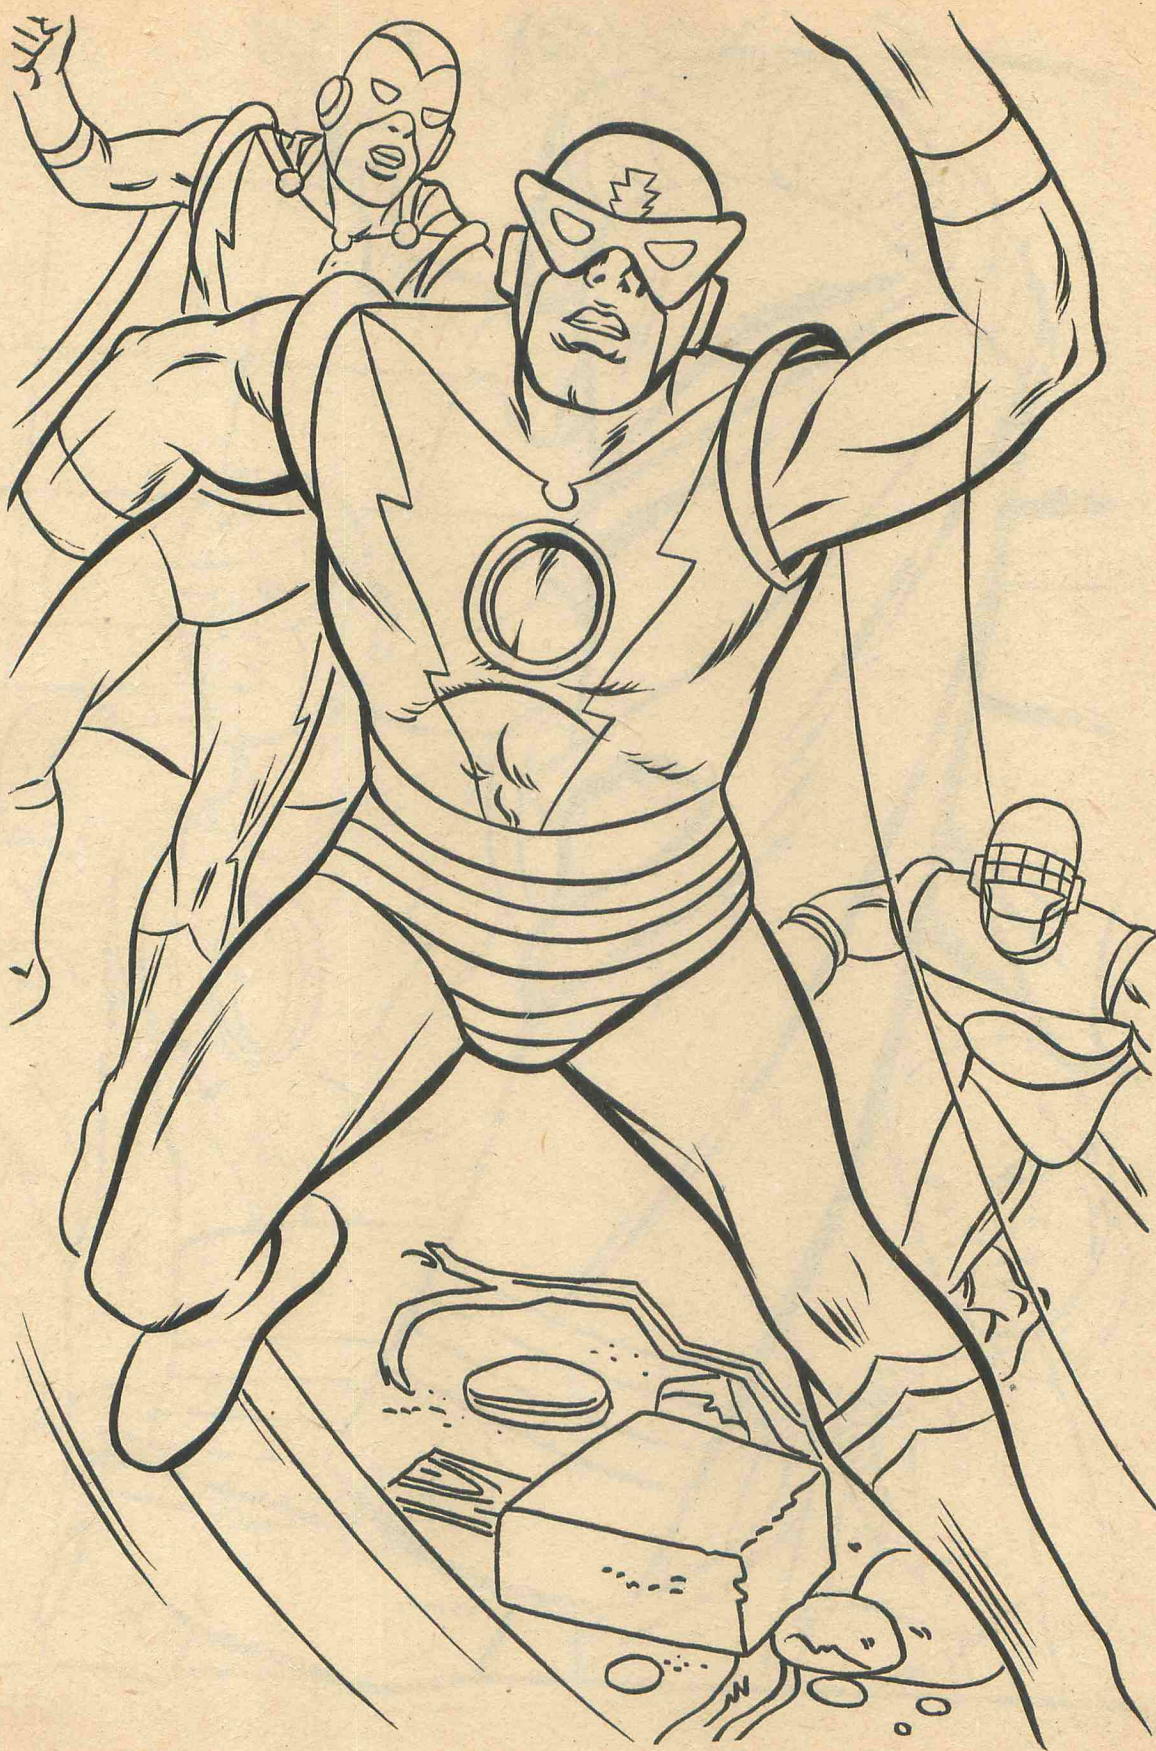

Flicker bounces off the Robot.

The powerful eye beam is not working!

Flicker and Electro-Man fly away from the Robots.

And hold a big conference with the Army.

Electro-Man has an idea.

They fly out of the window.

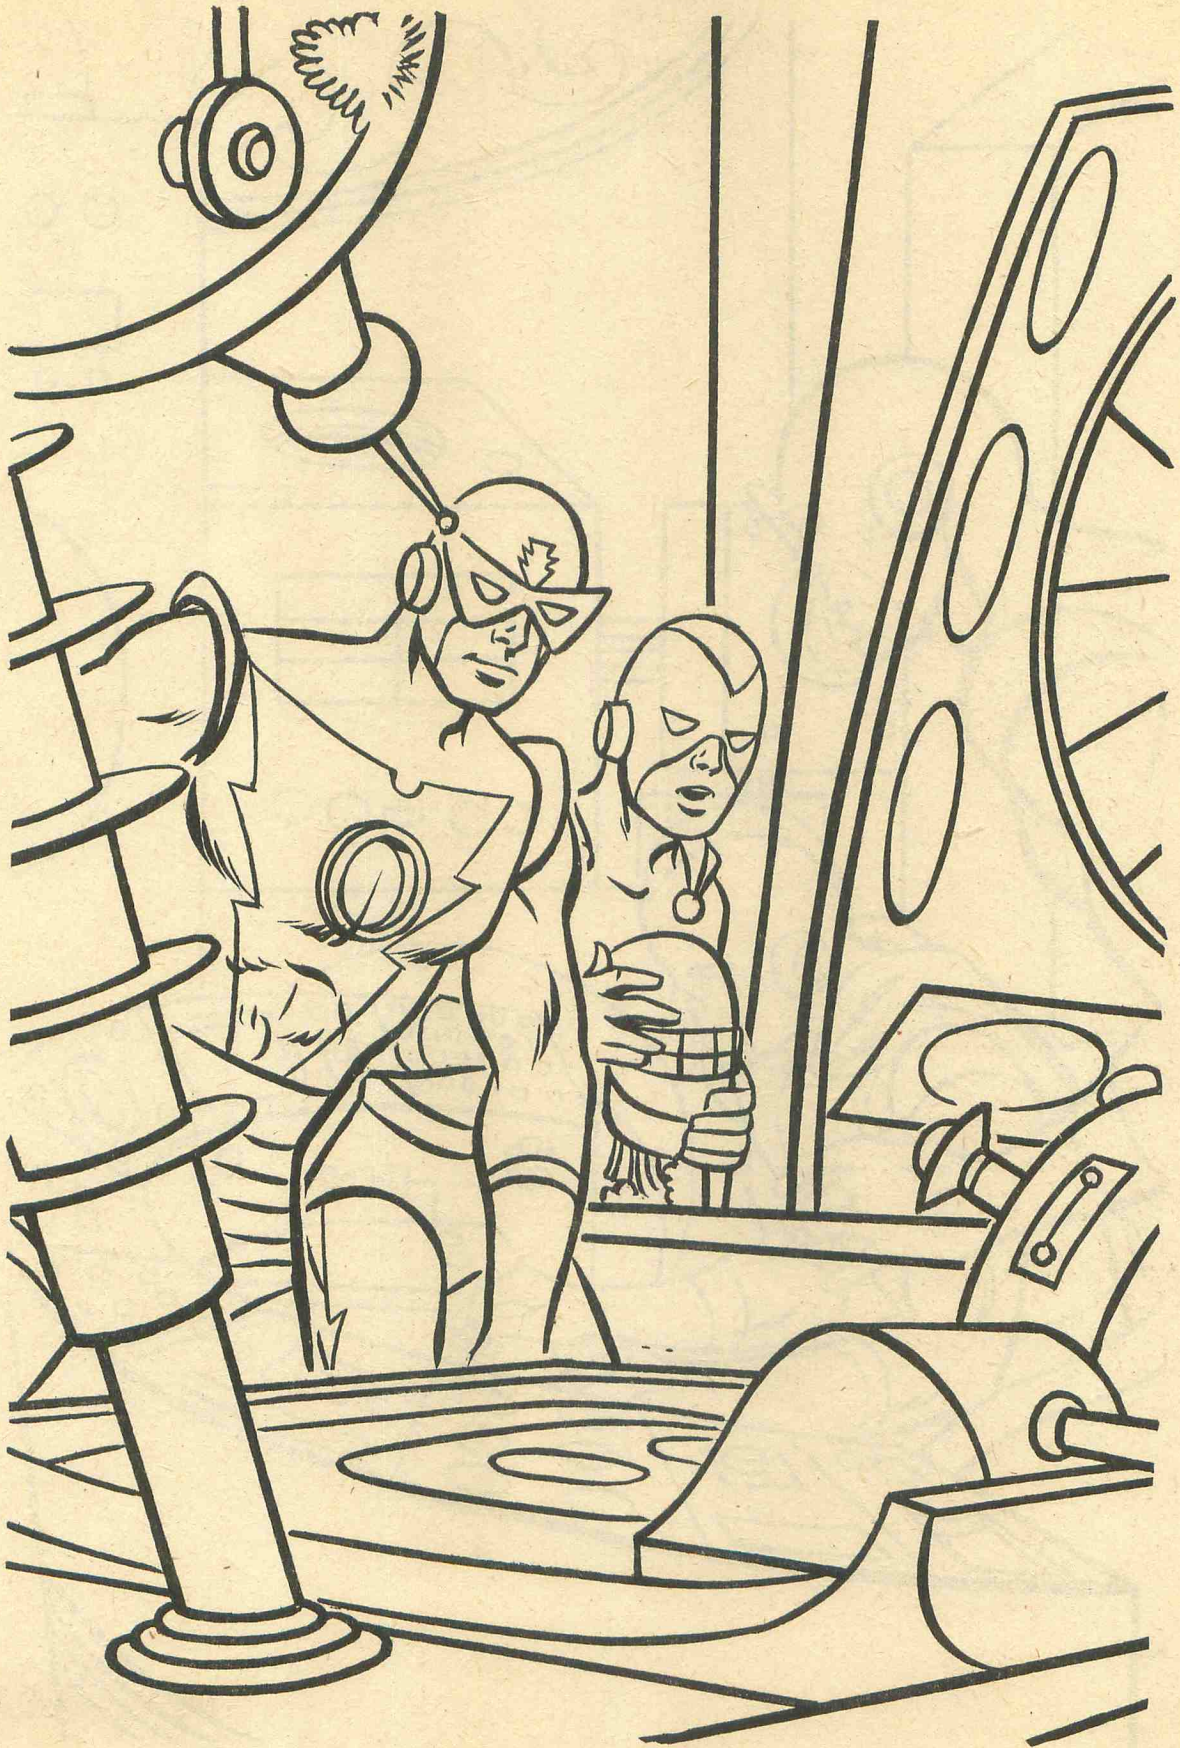

They point down at a destroyed Robot.

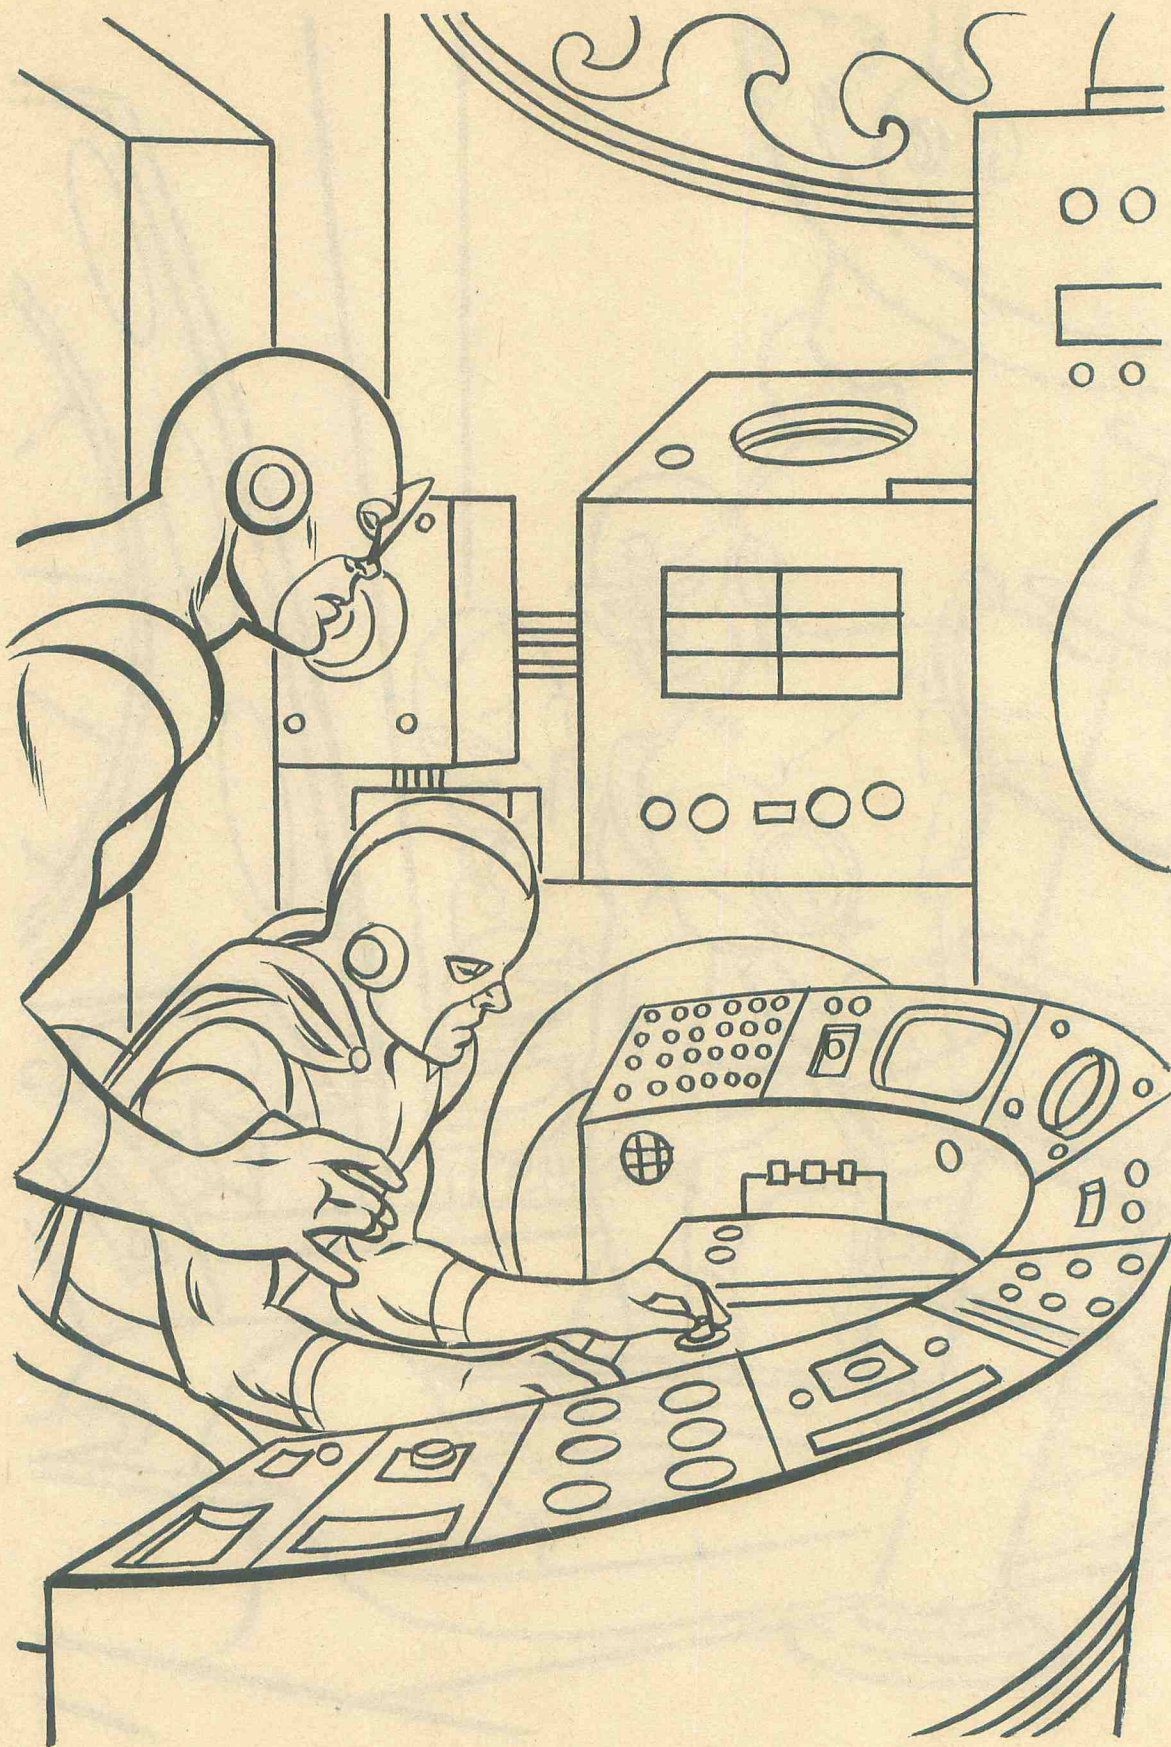

Flicker removes the head from the Robot.

They enter the space lab.

Electro-Man and Flicker test parts of the Robot.

"I've got it!"

(Inside the Robot's head)

"We'll have to build a device to combat it!"

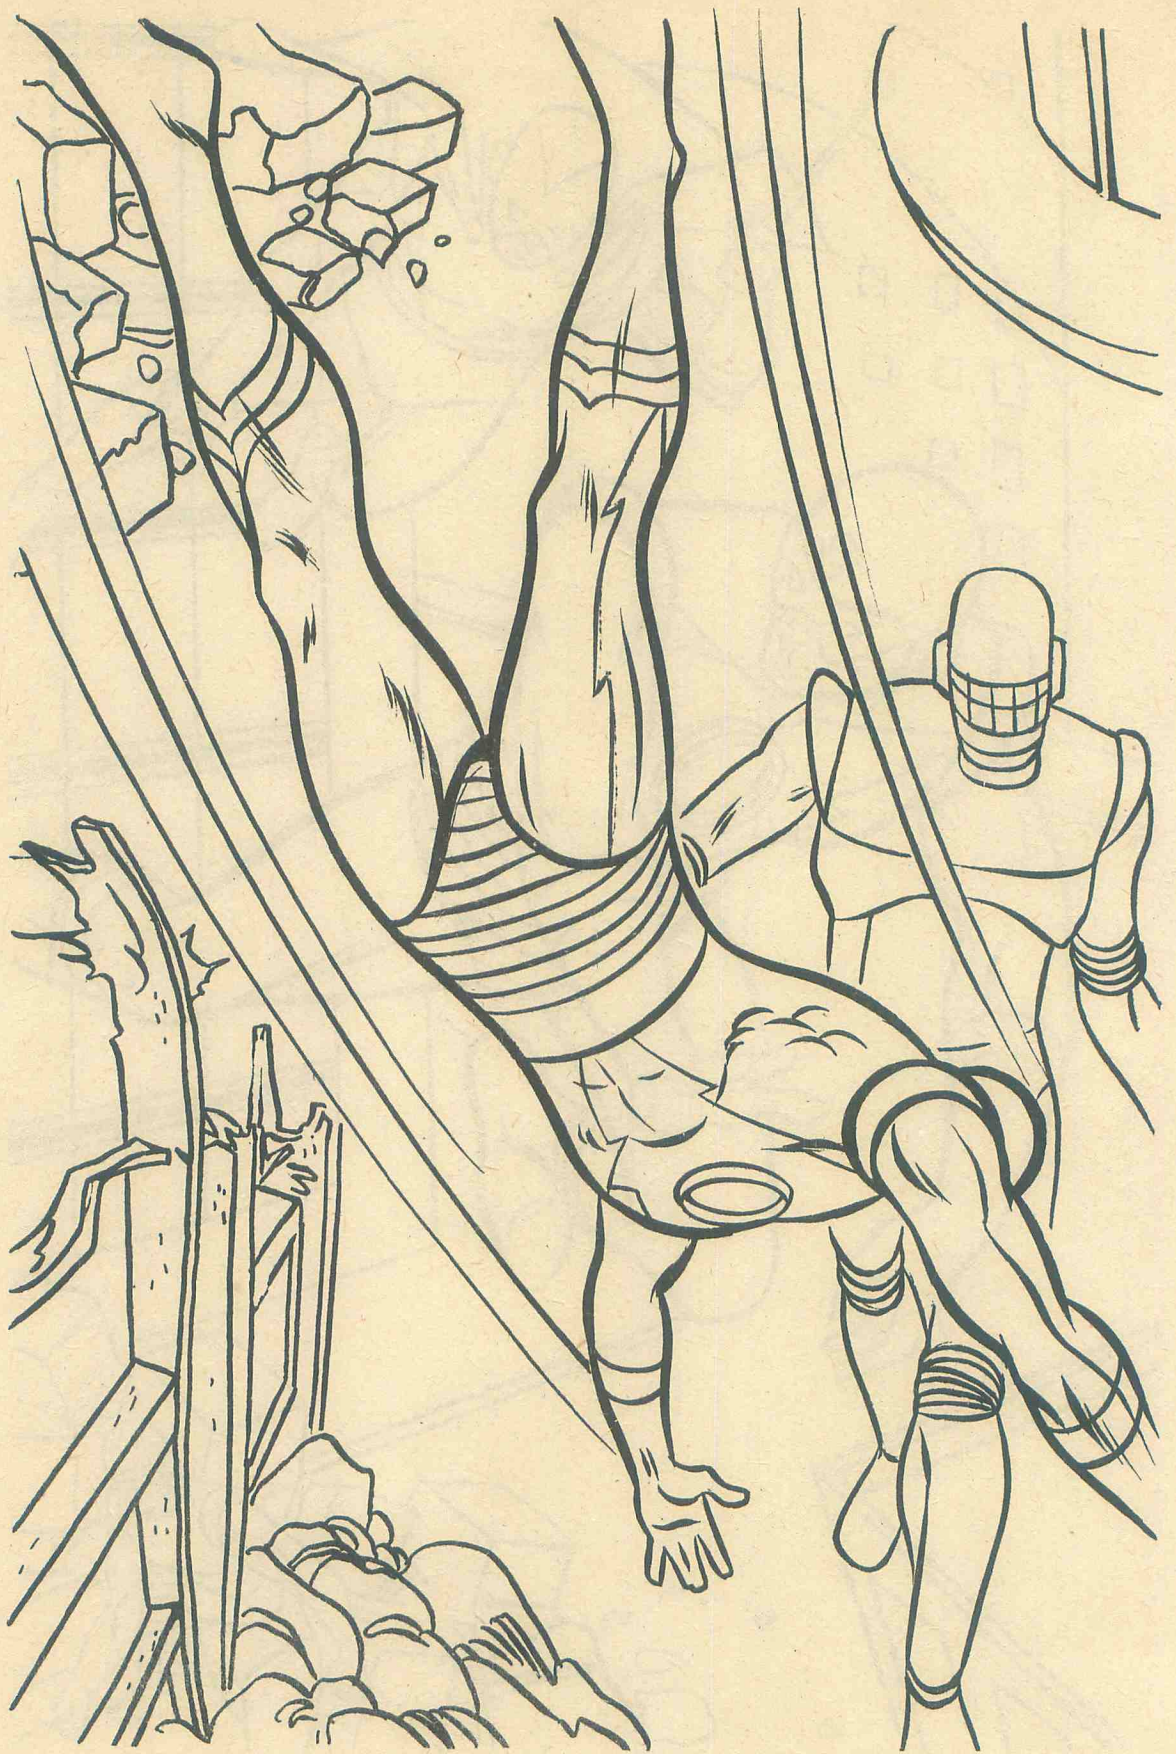

Flicker holds the new device in his hand.

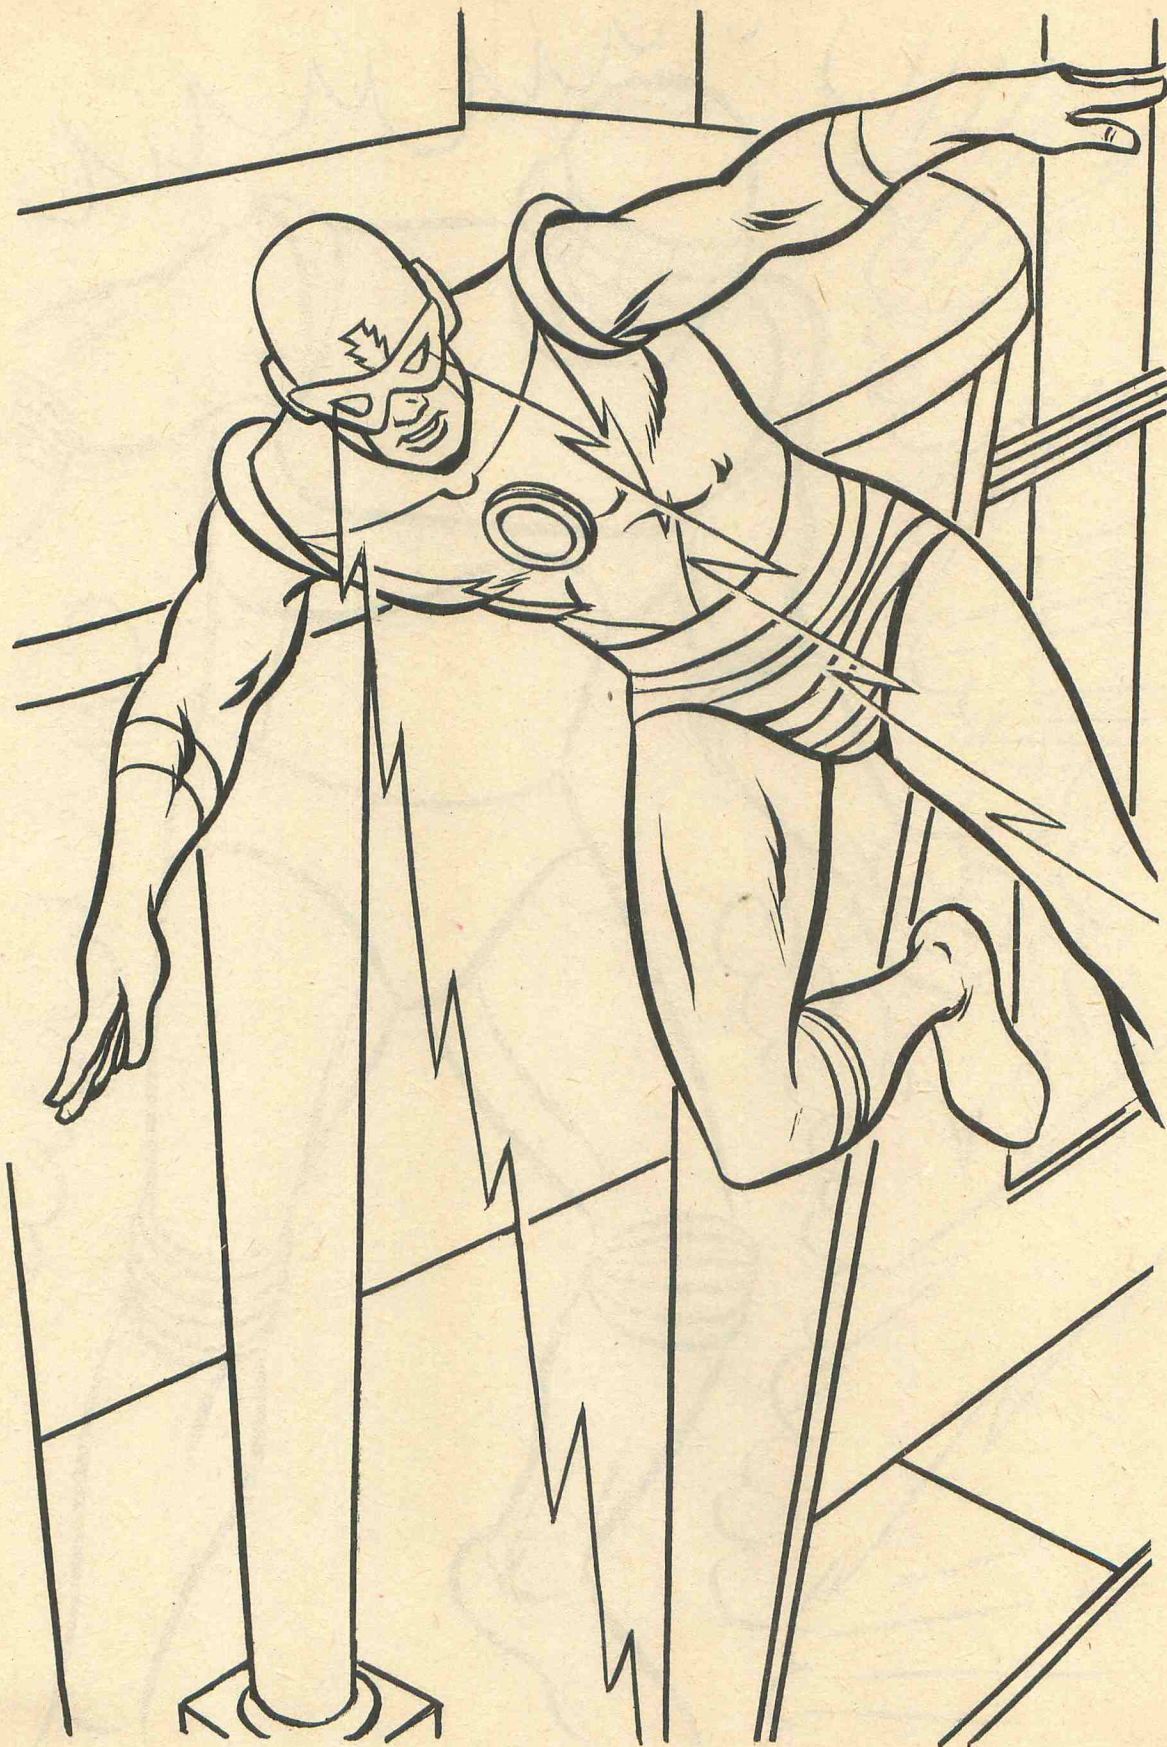

They fly toward the Robots with the device.

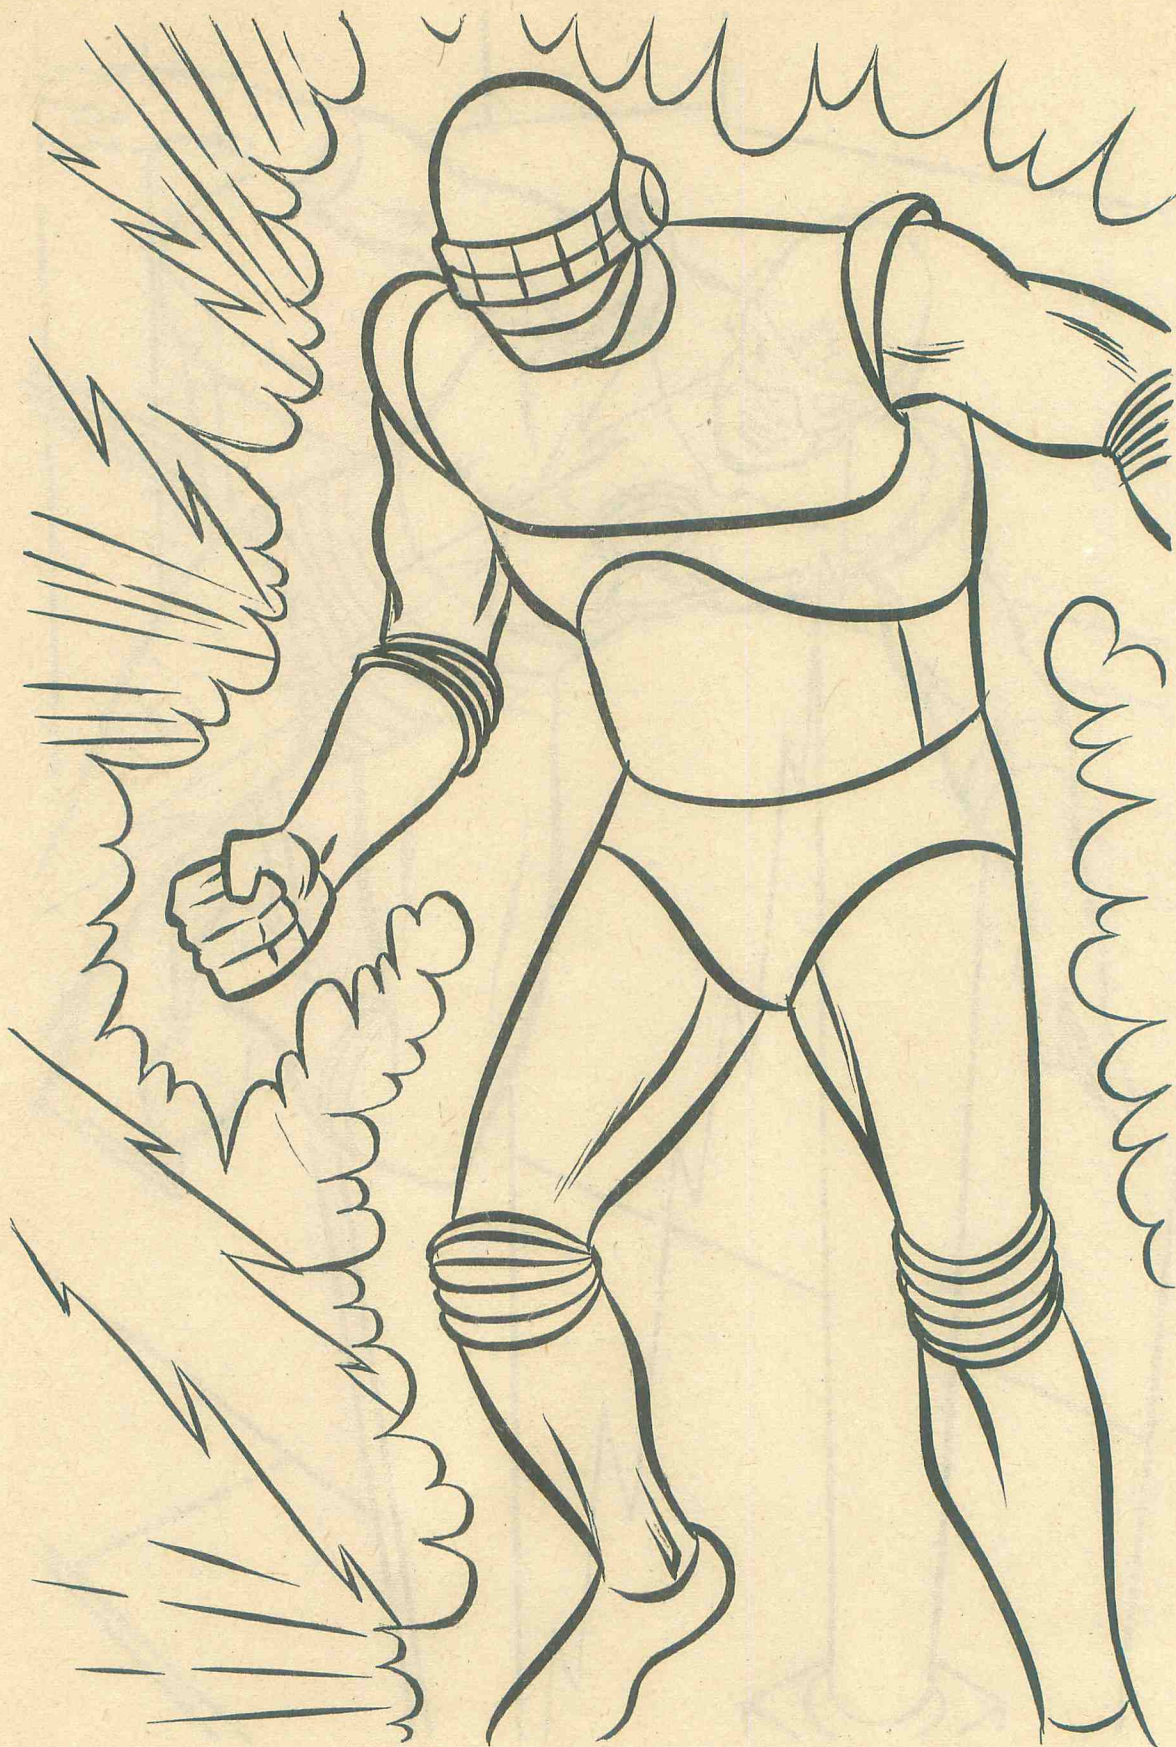

"I'll try the Laser first."

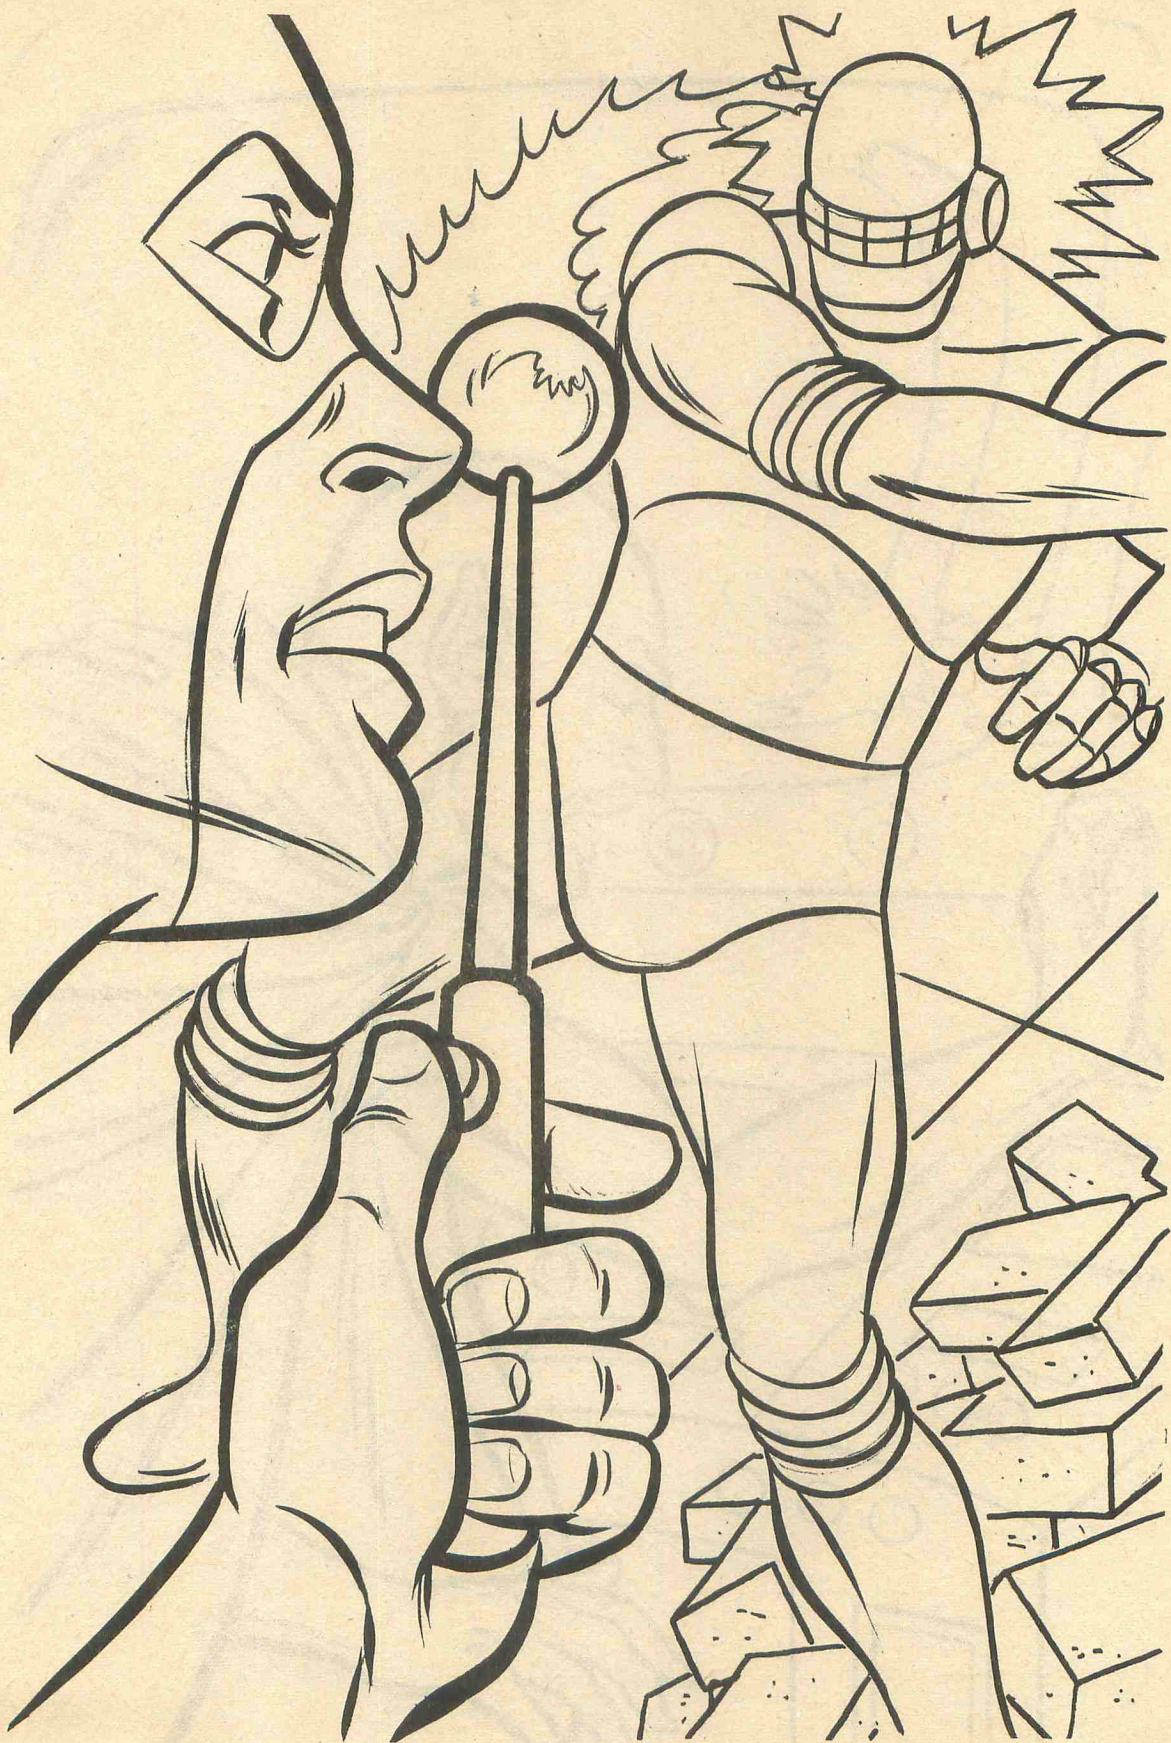

Electro-Man shoots Laser eye beam.

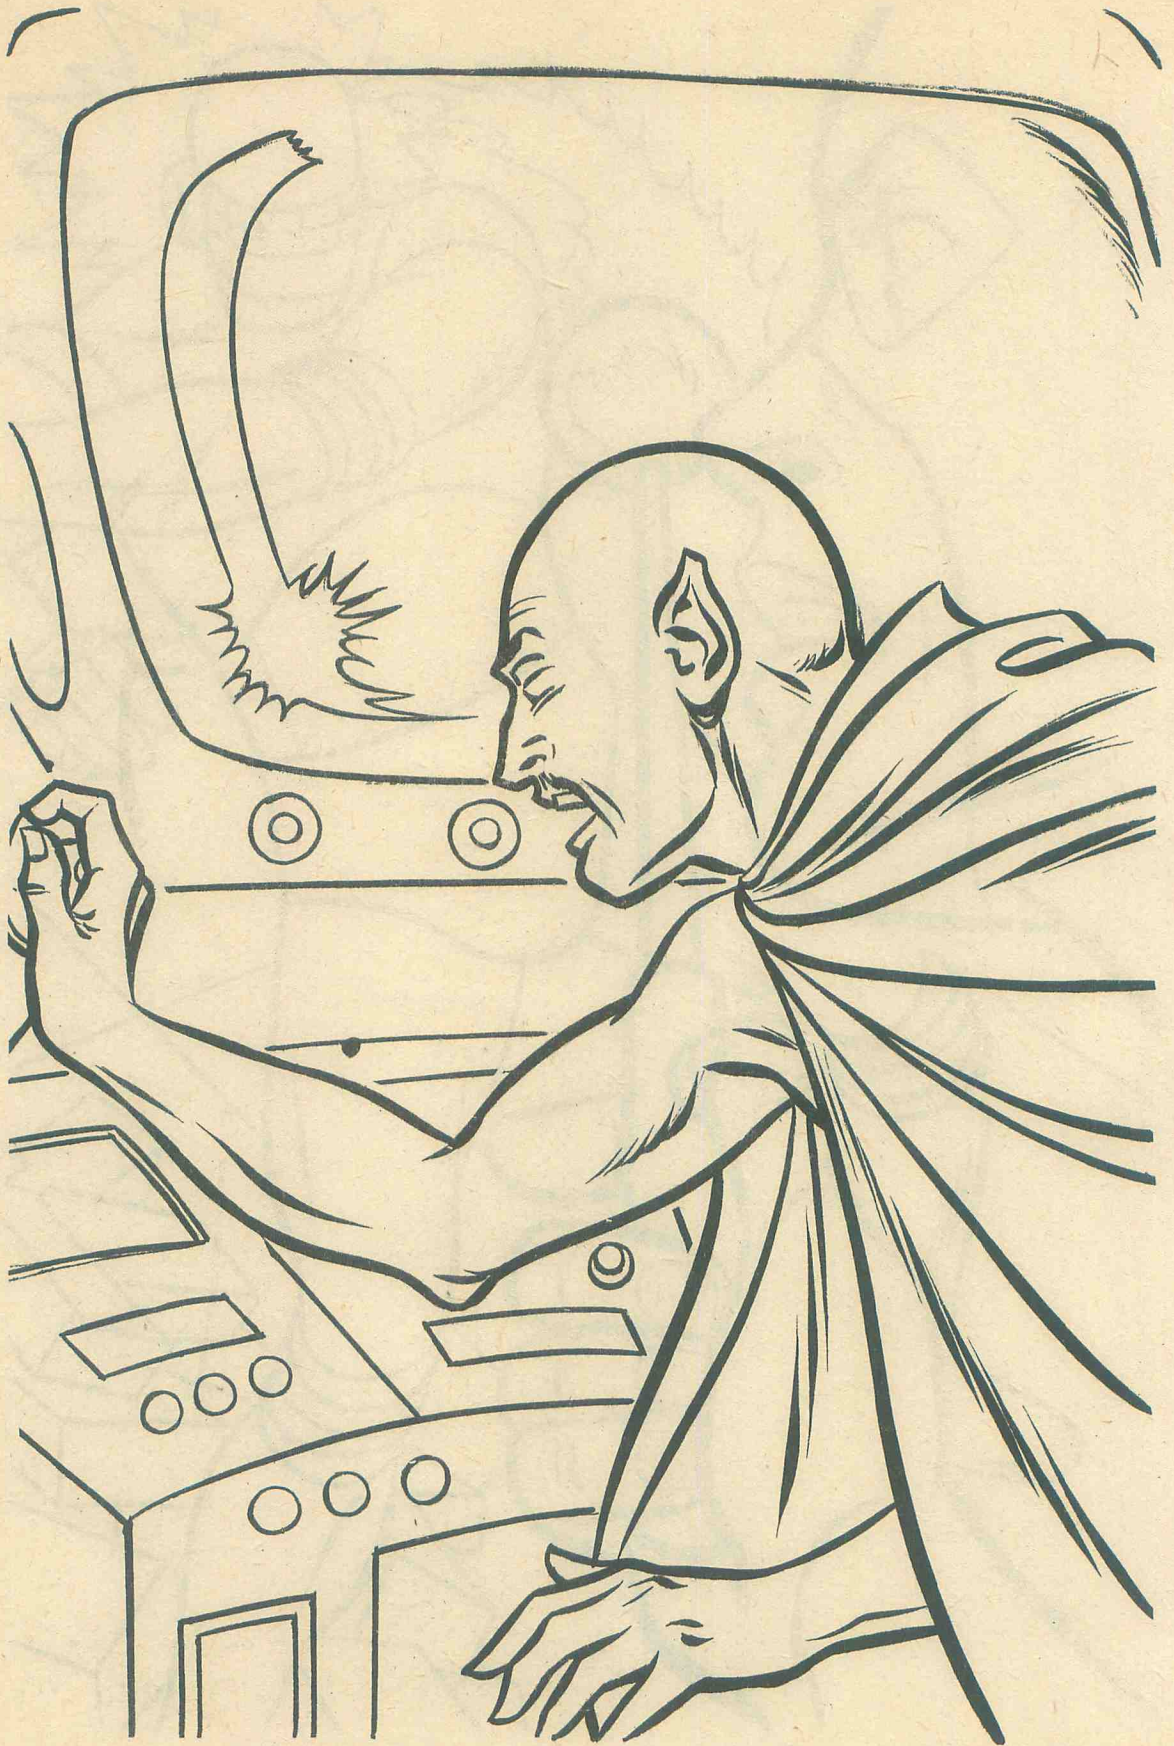

The Robots re-act with force field.

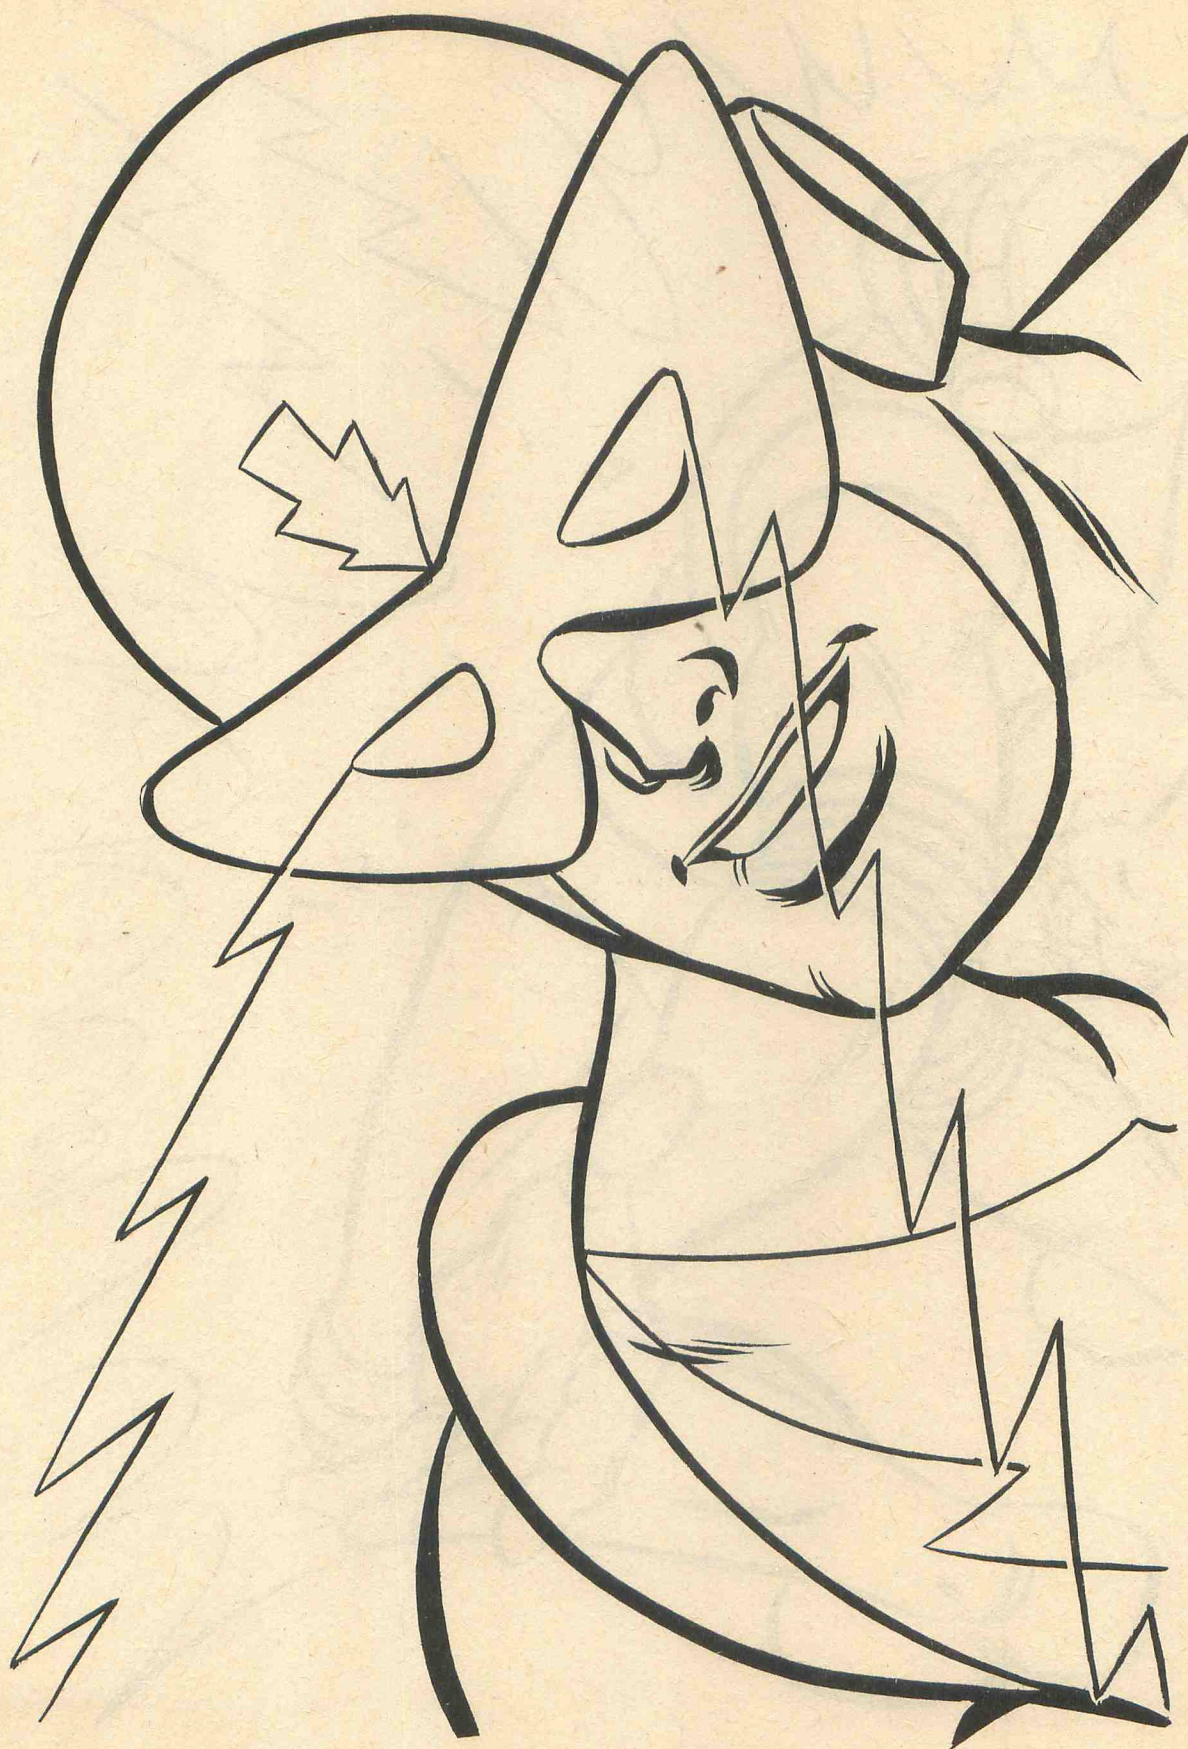

Flicker activates the device.

It jams the signal from Robot Headquarters.

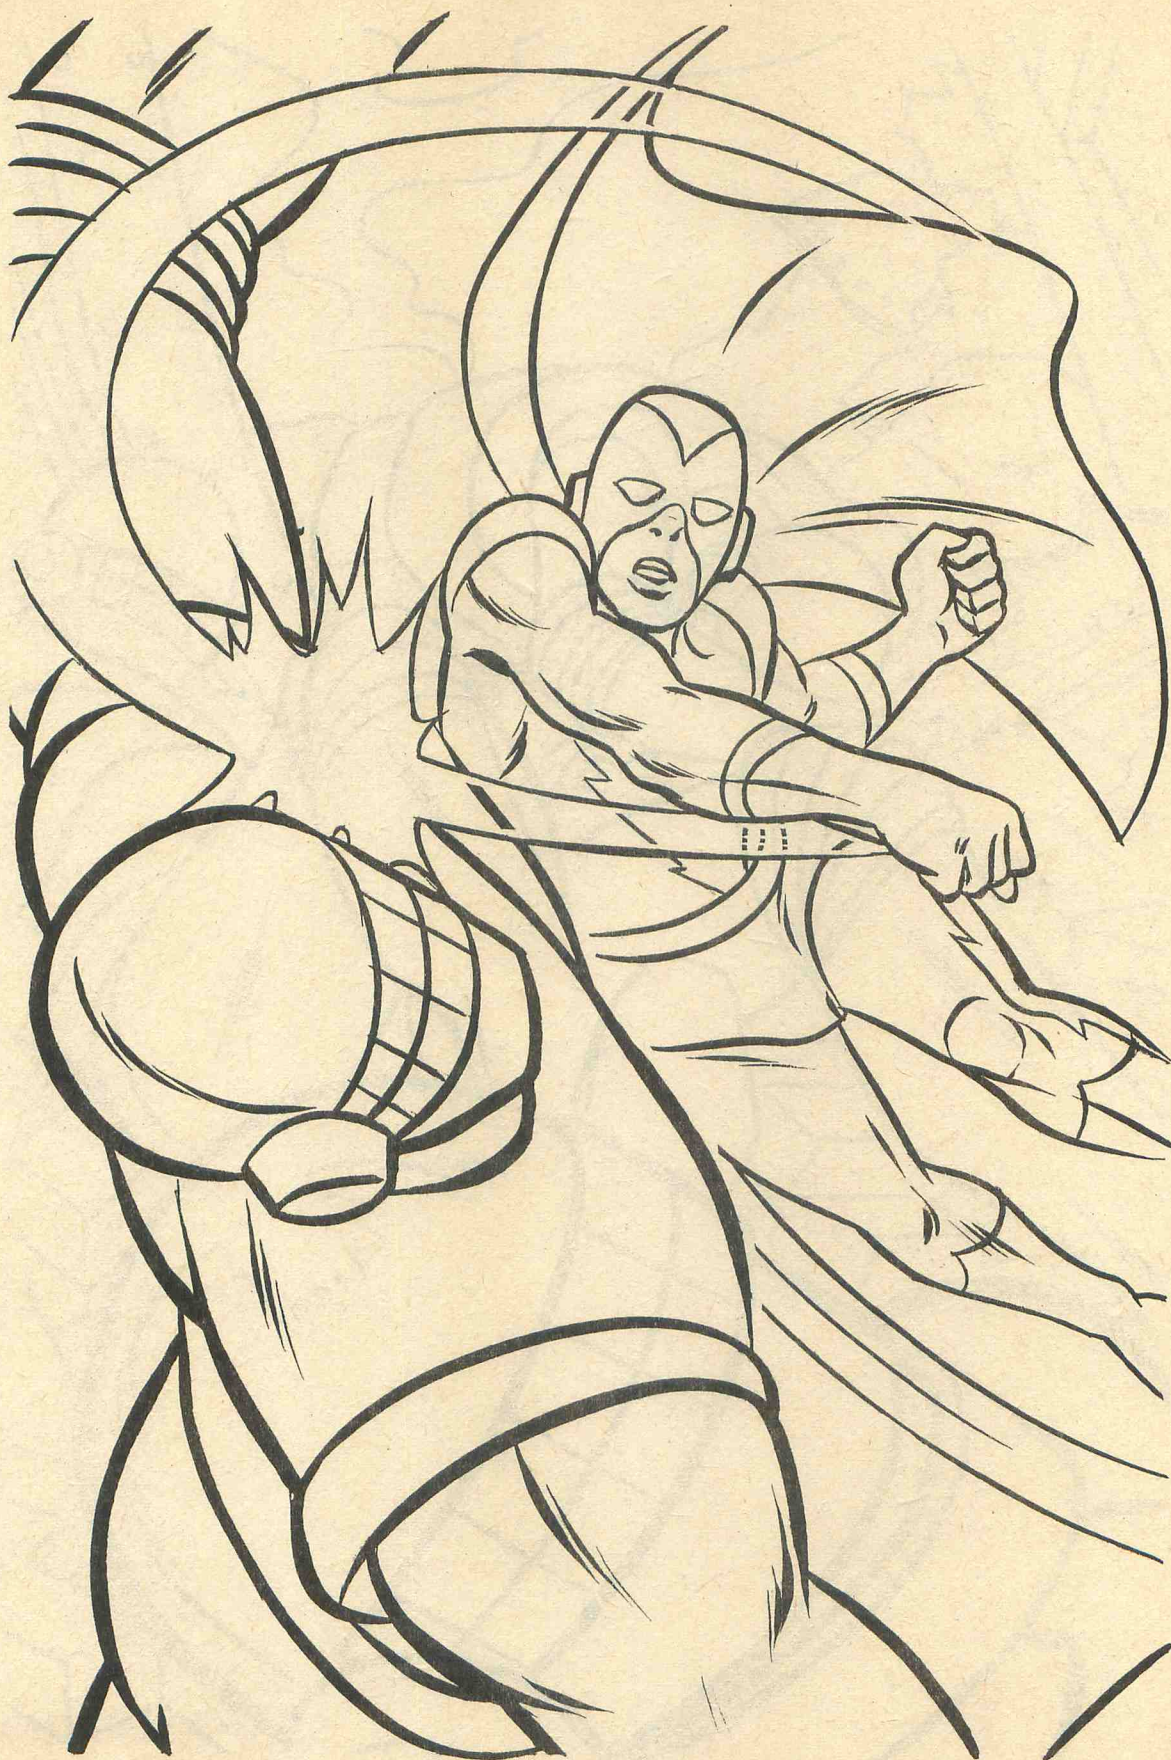

"Now the Laser will work."

And it does!

But there are fist fights too.

The Robots are losing the battle.

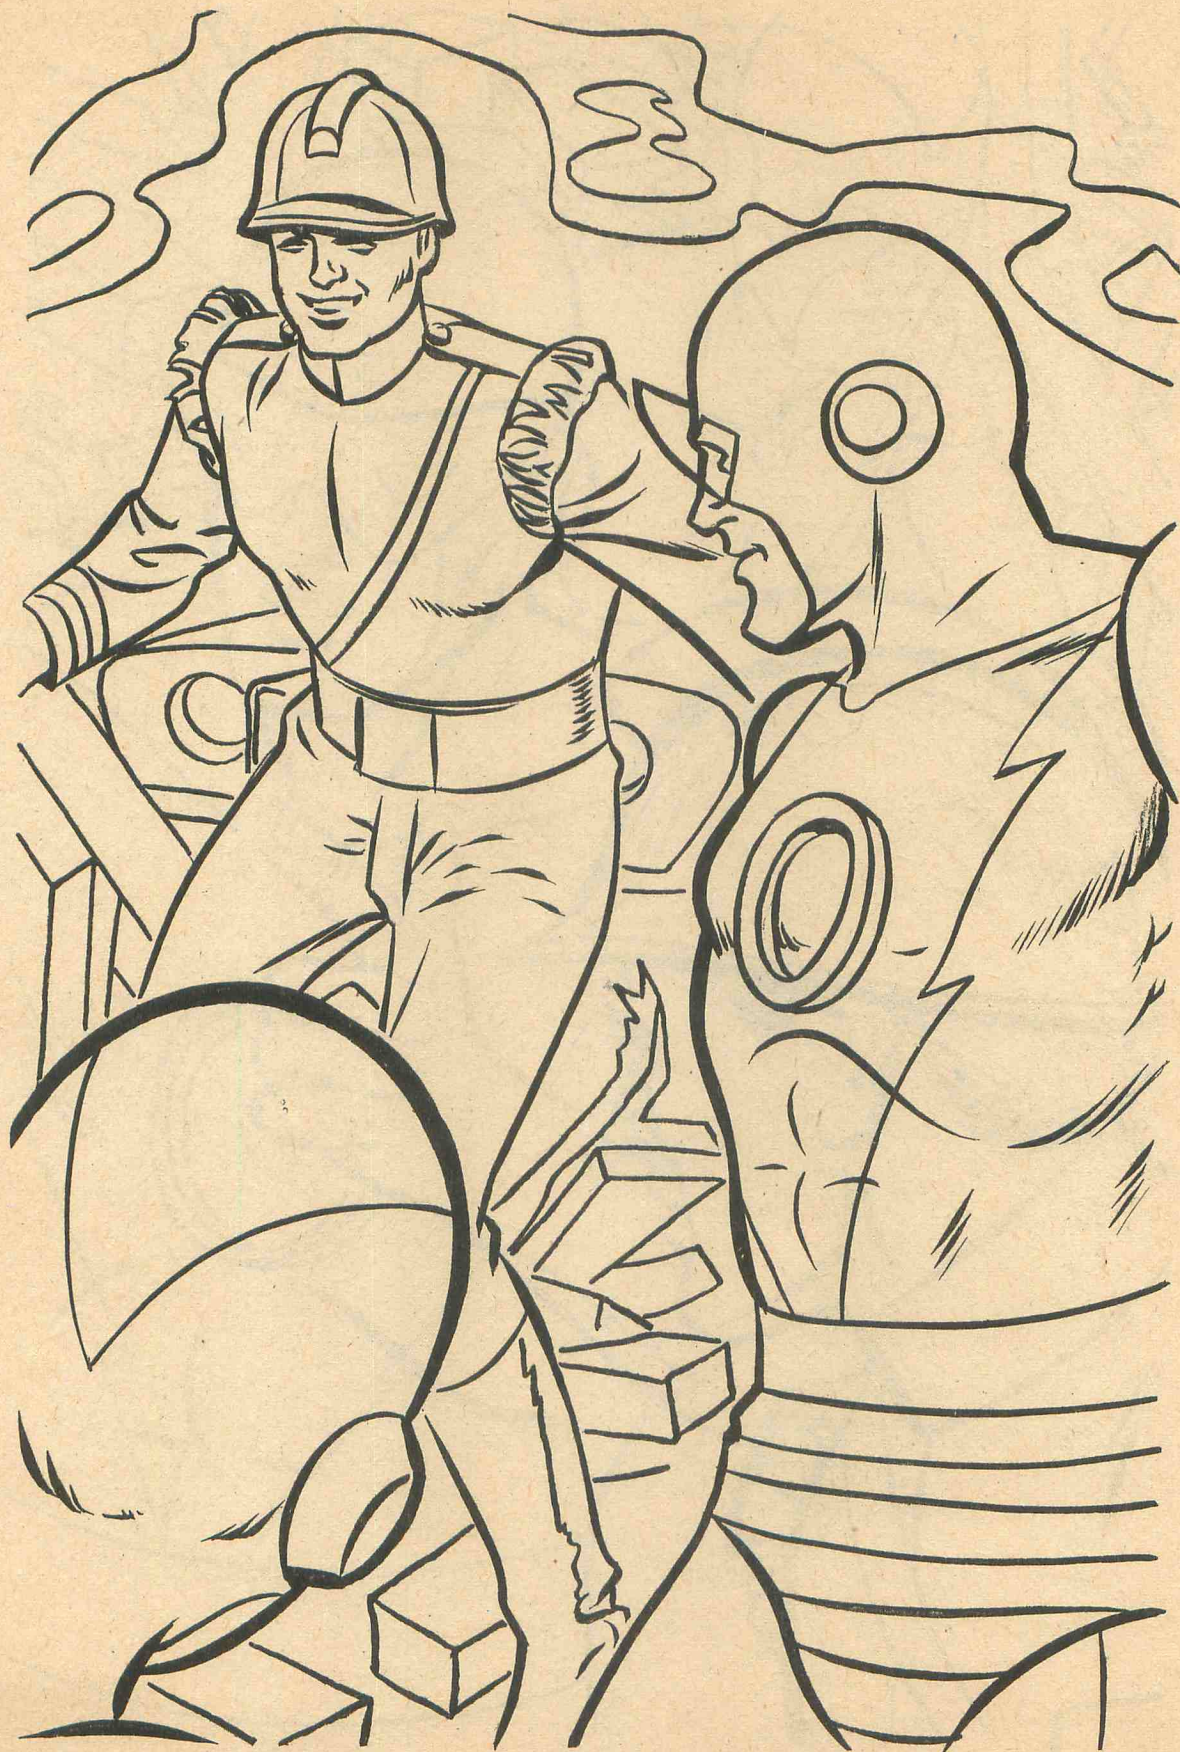

Their leader is very angry.

But Electro-Man is triumphant.

"Nice work!!"

"We're not through yet," says Electro-Man.

"We've got to destroy the source."

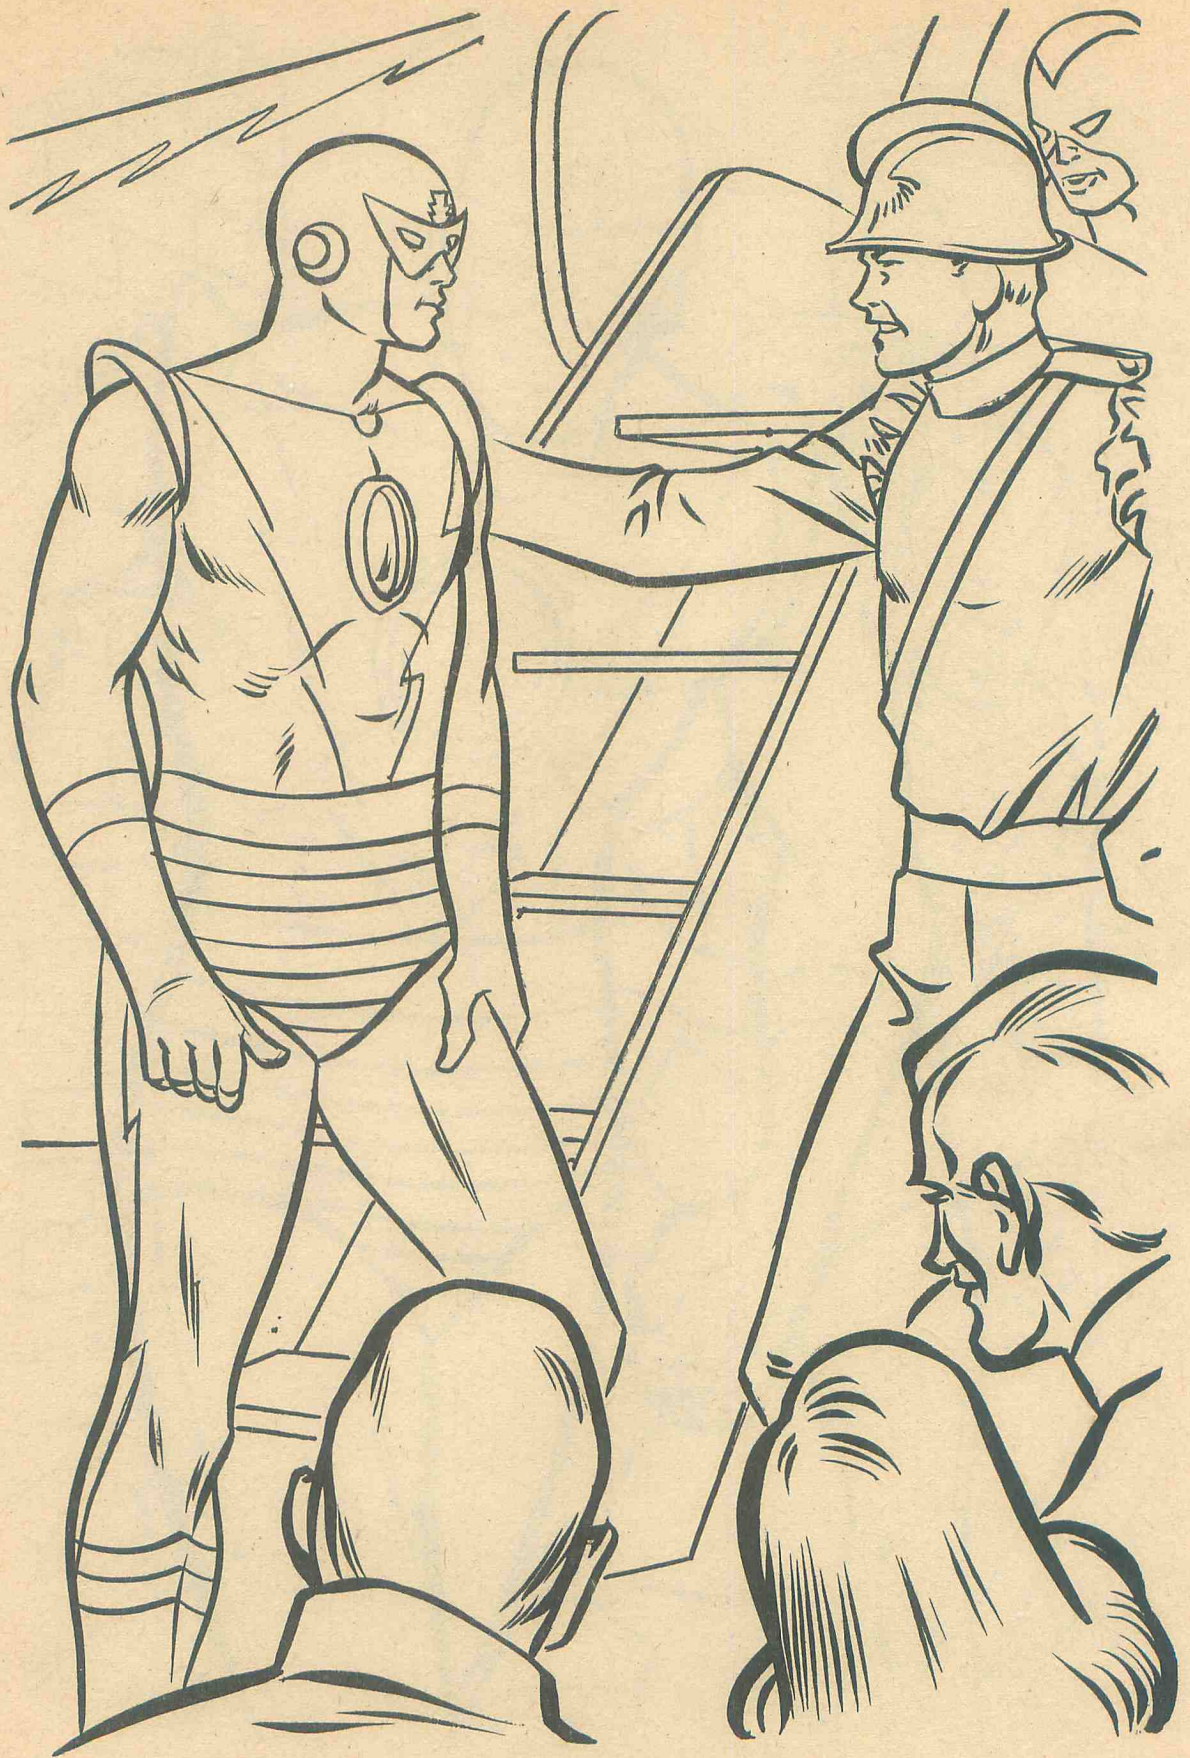

They follow the signal with their jammer device.

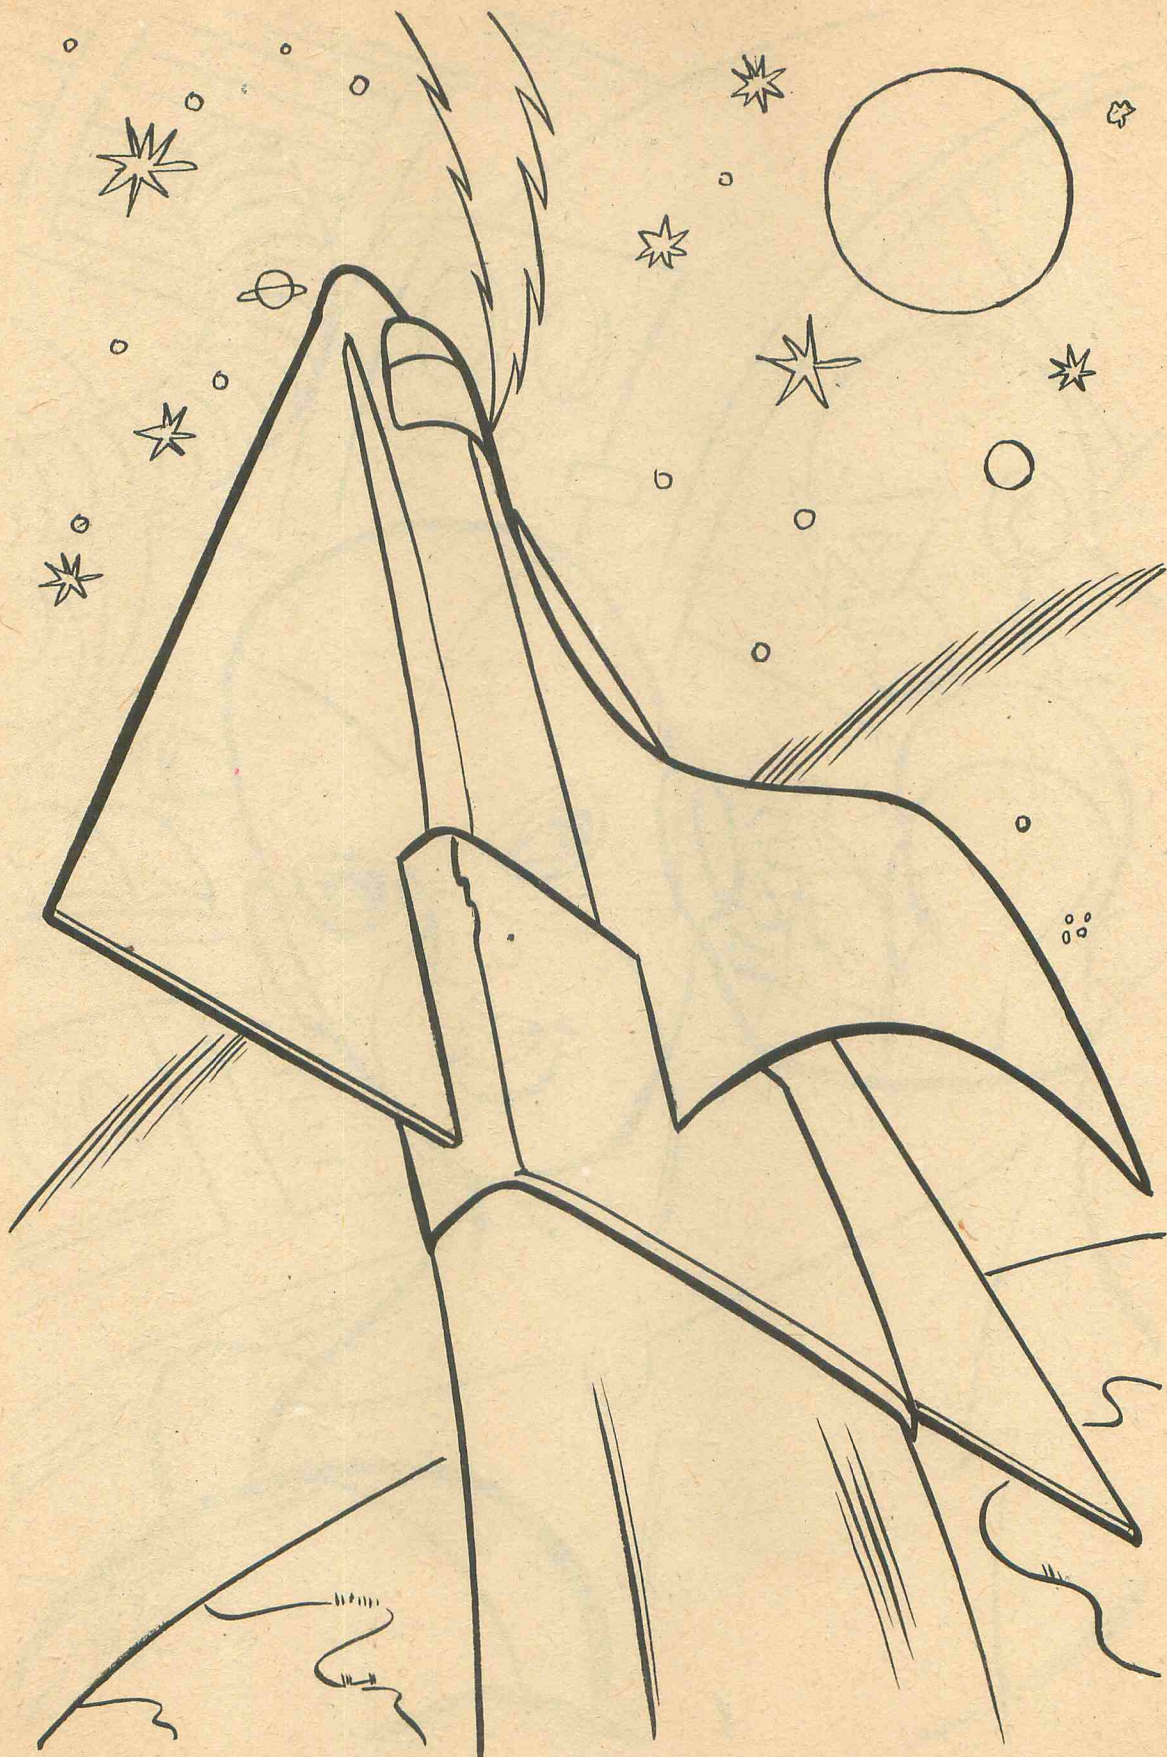

They head for their spaceship.

"Good luck!"

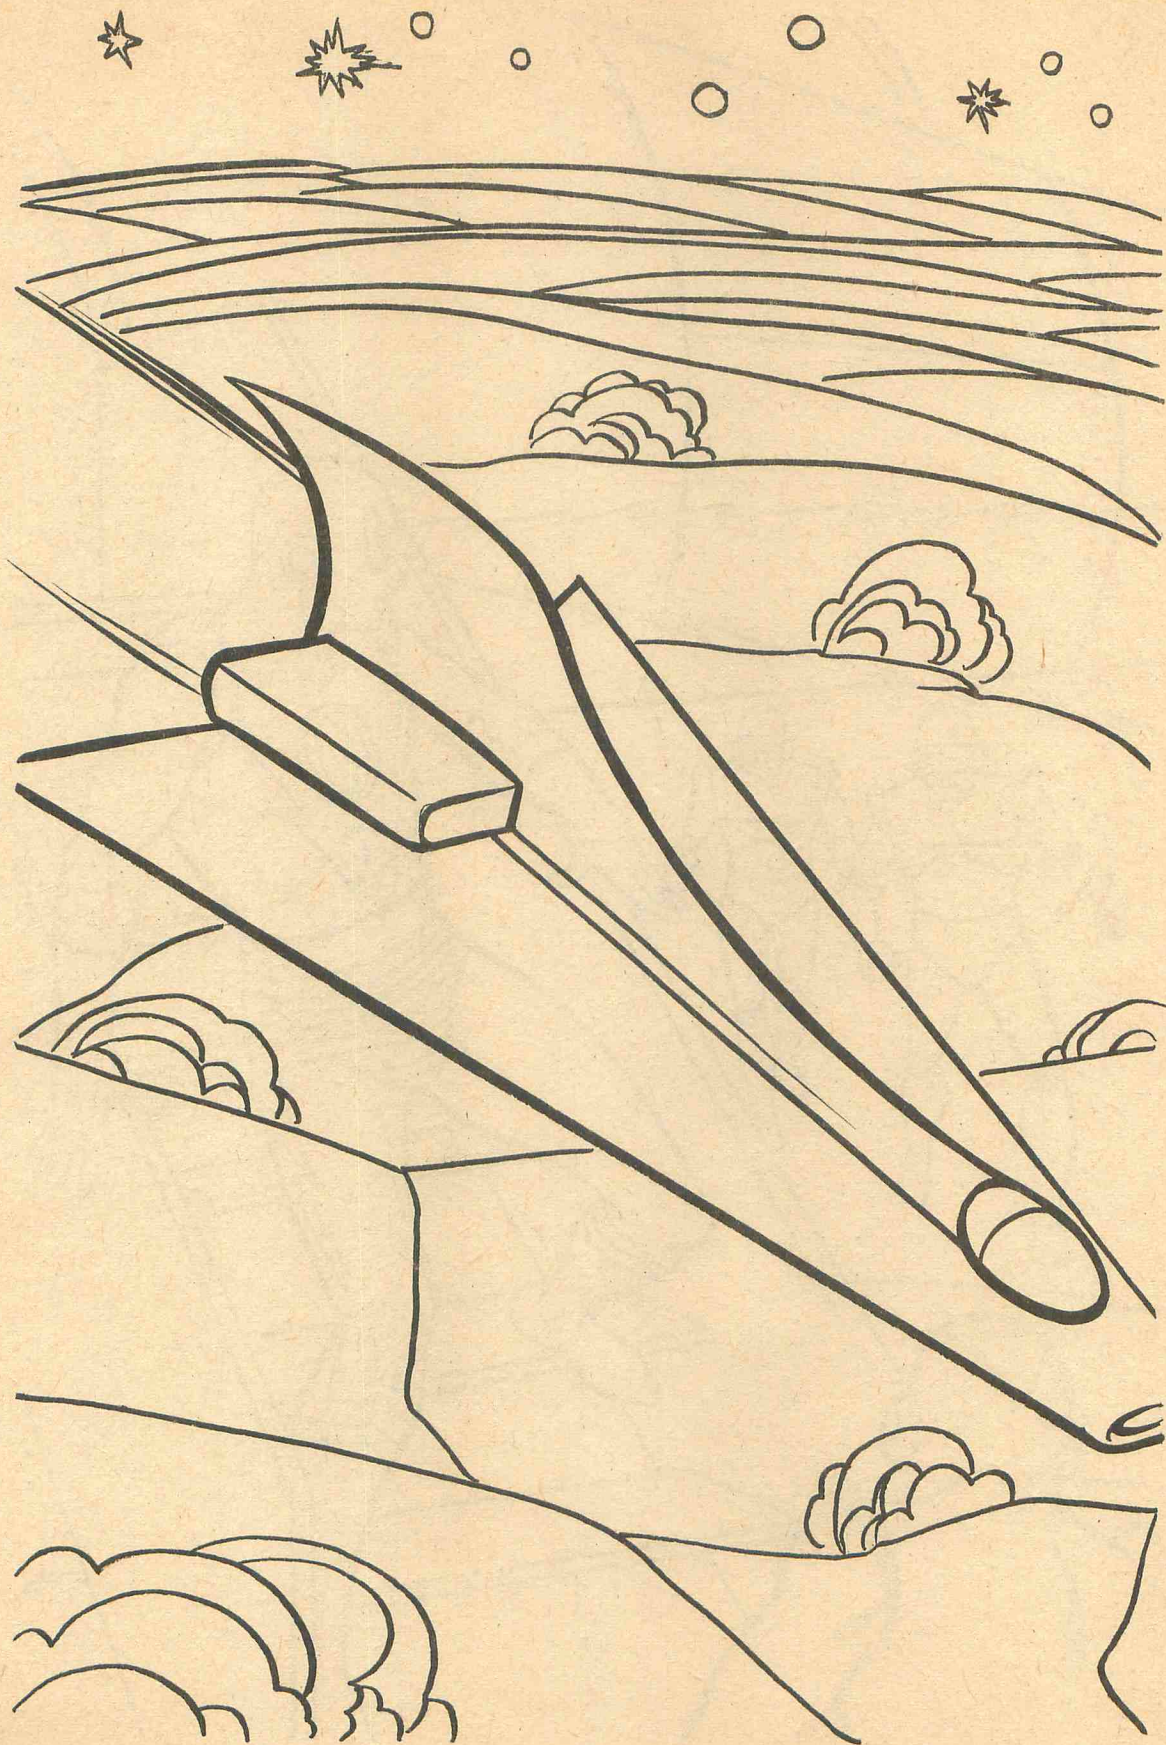

They follow the signal through space.

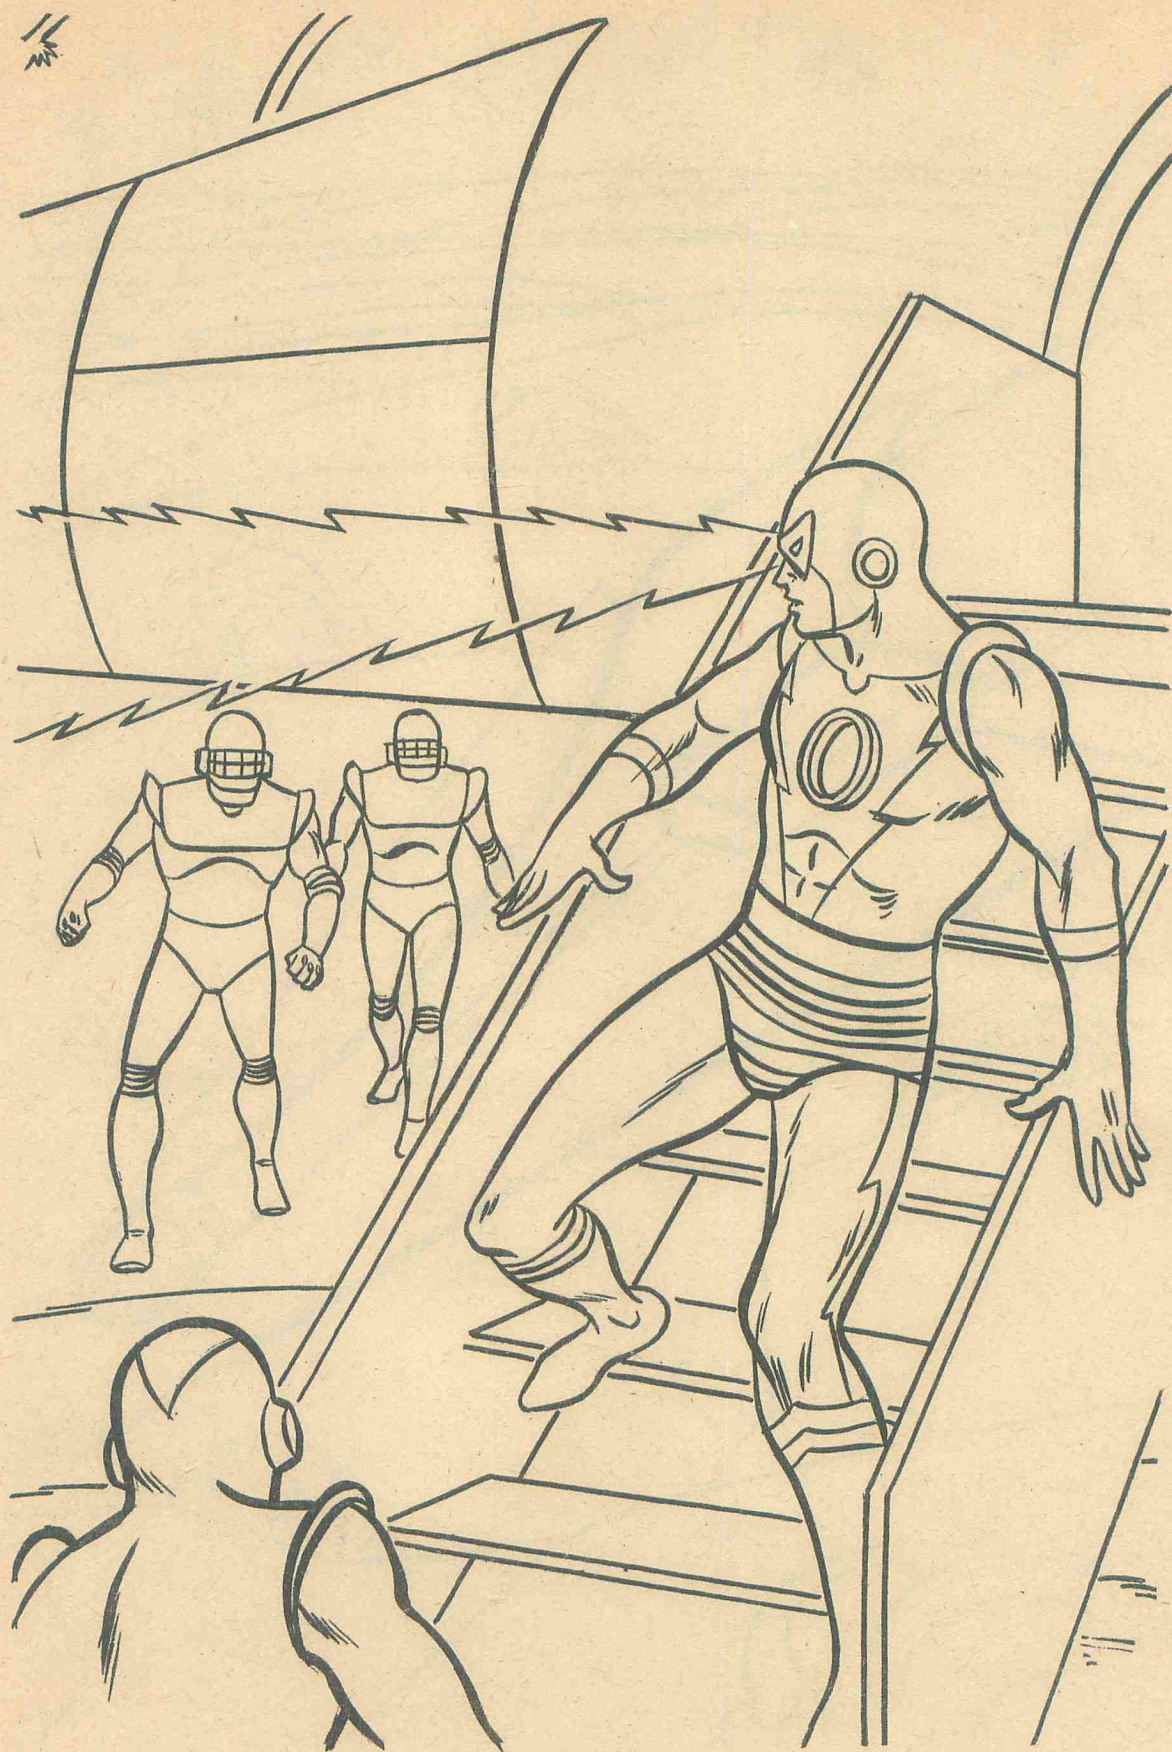

"Looks like it's Uranus."

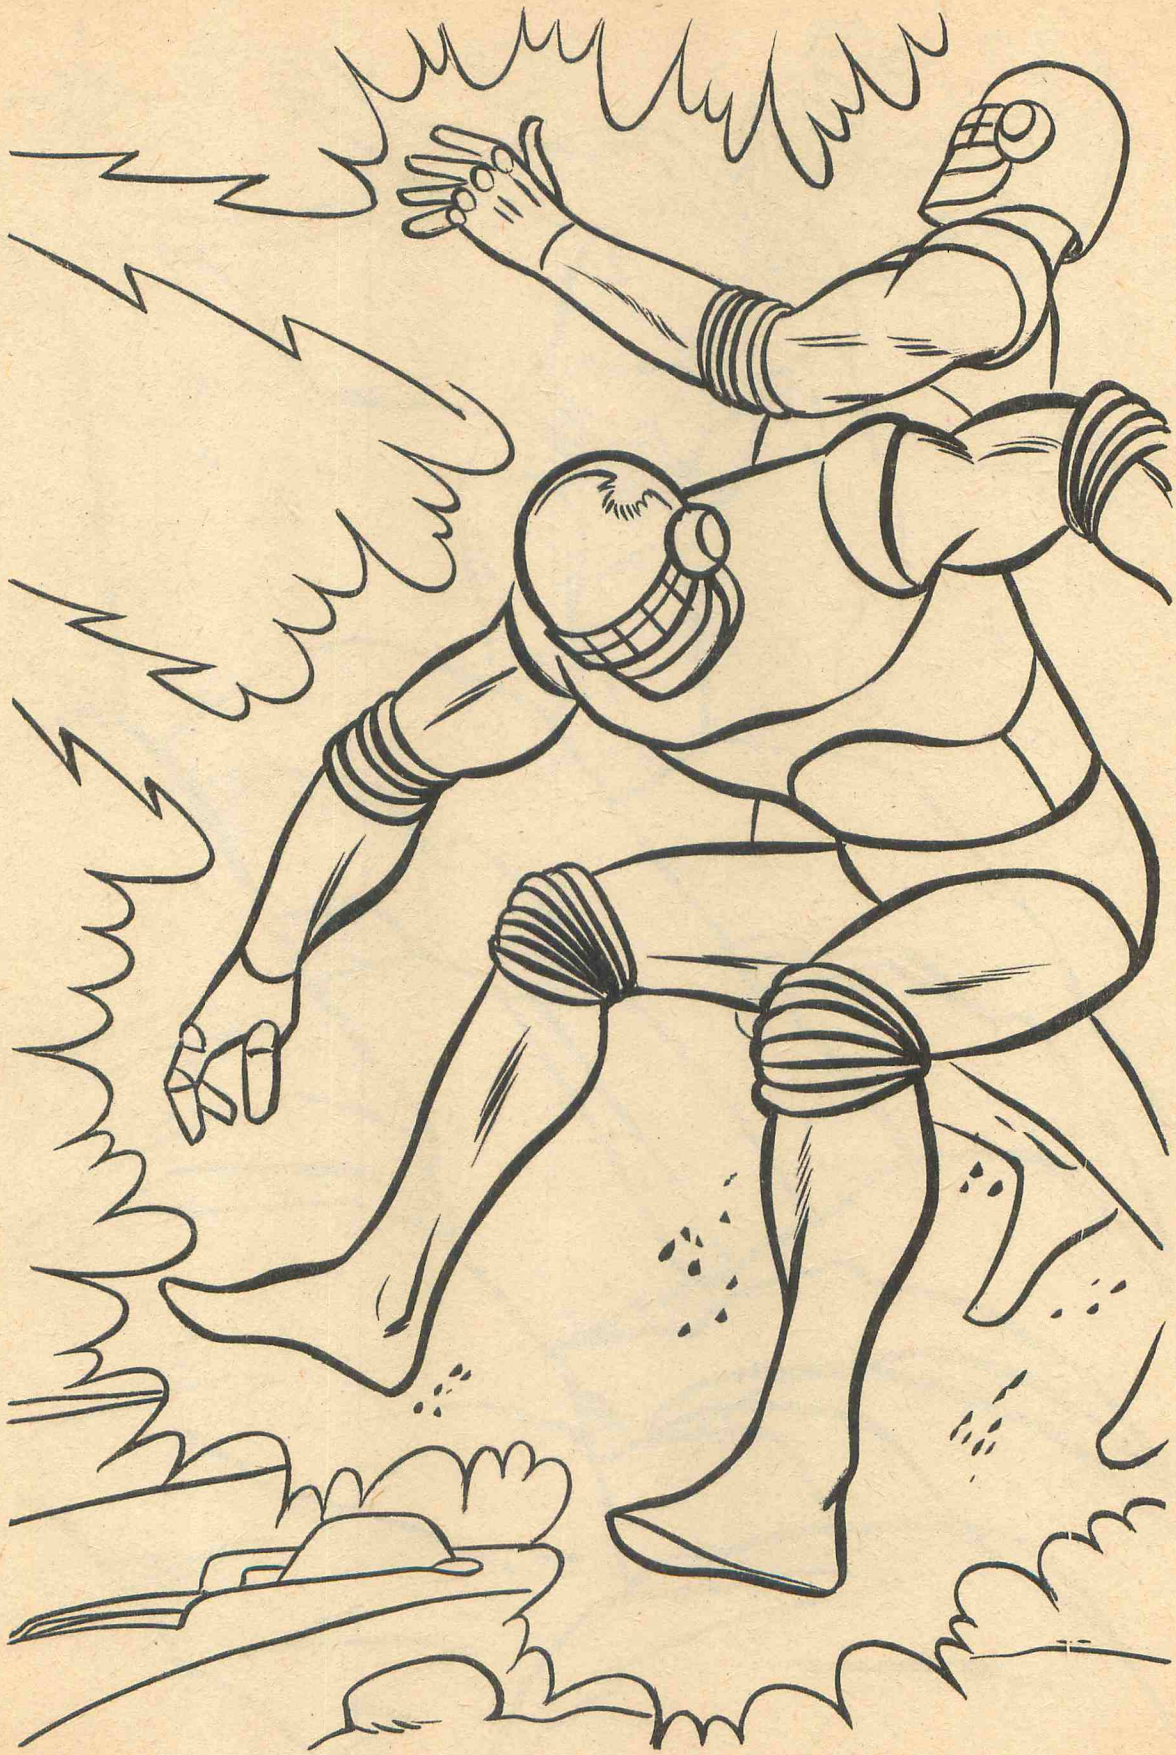

The space ship lands on Uranus.

"Here we go again."

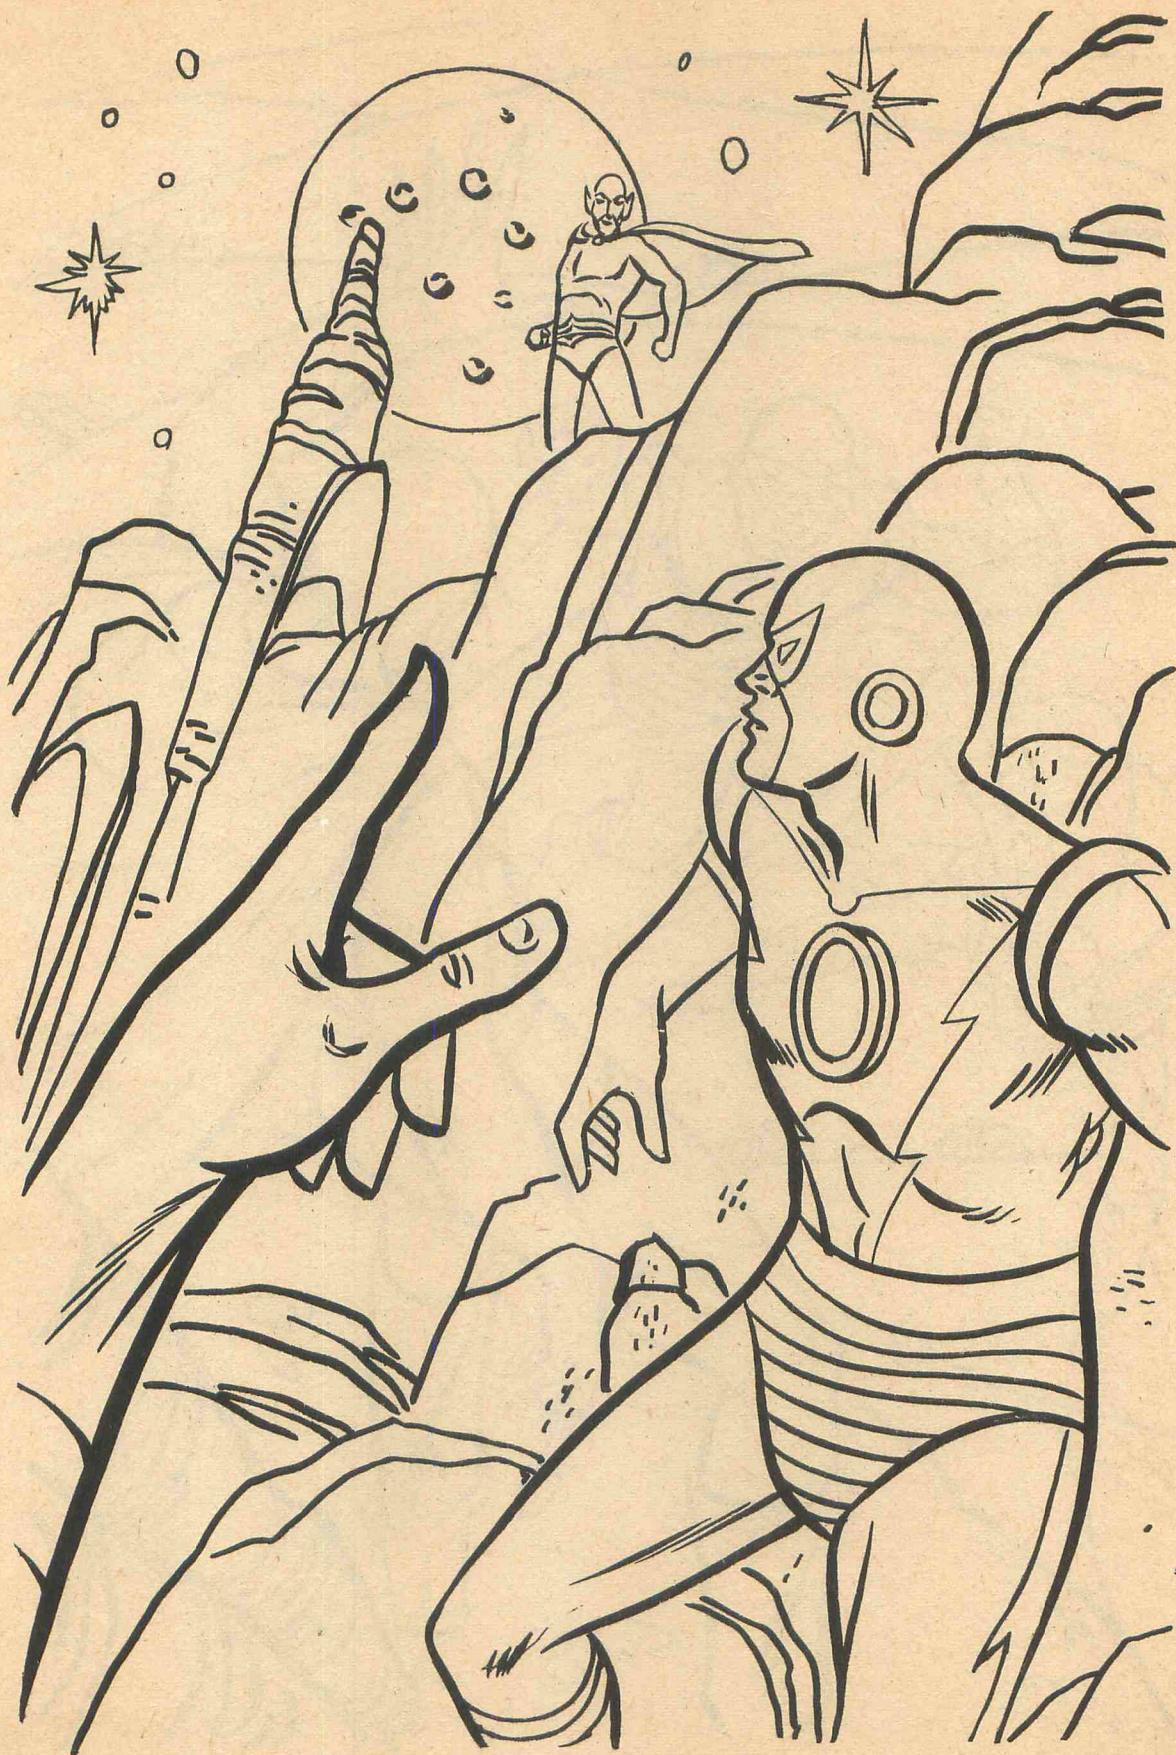

They destroy the Robots.

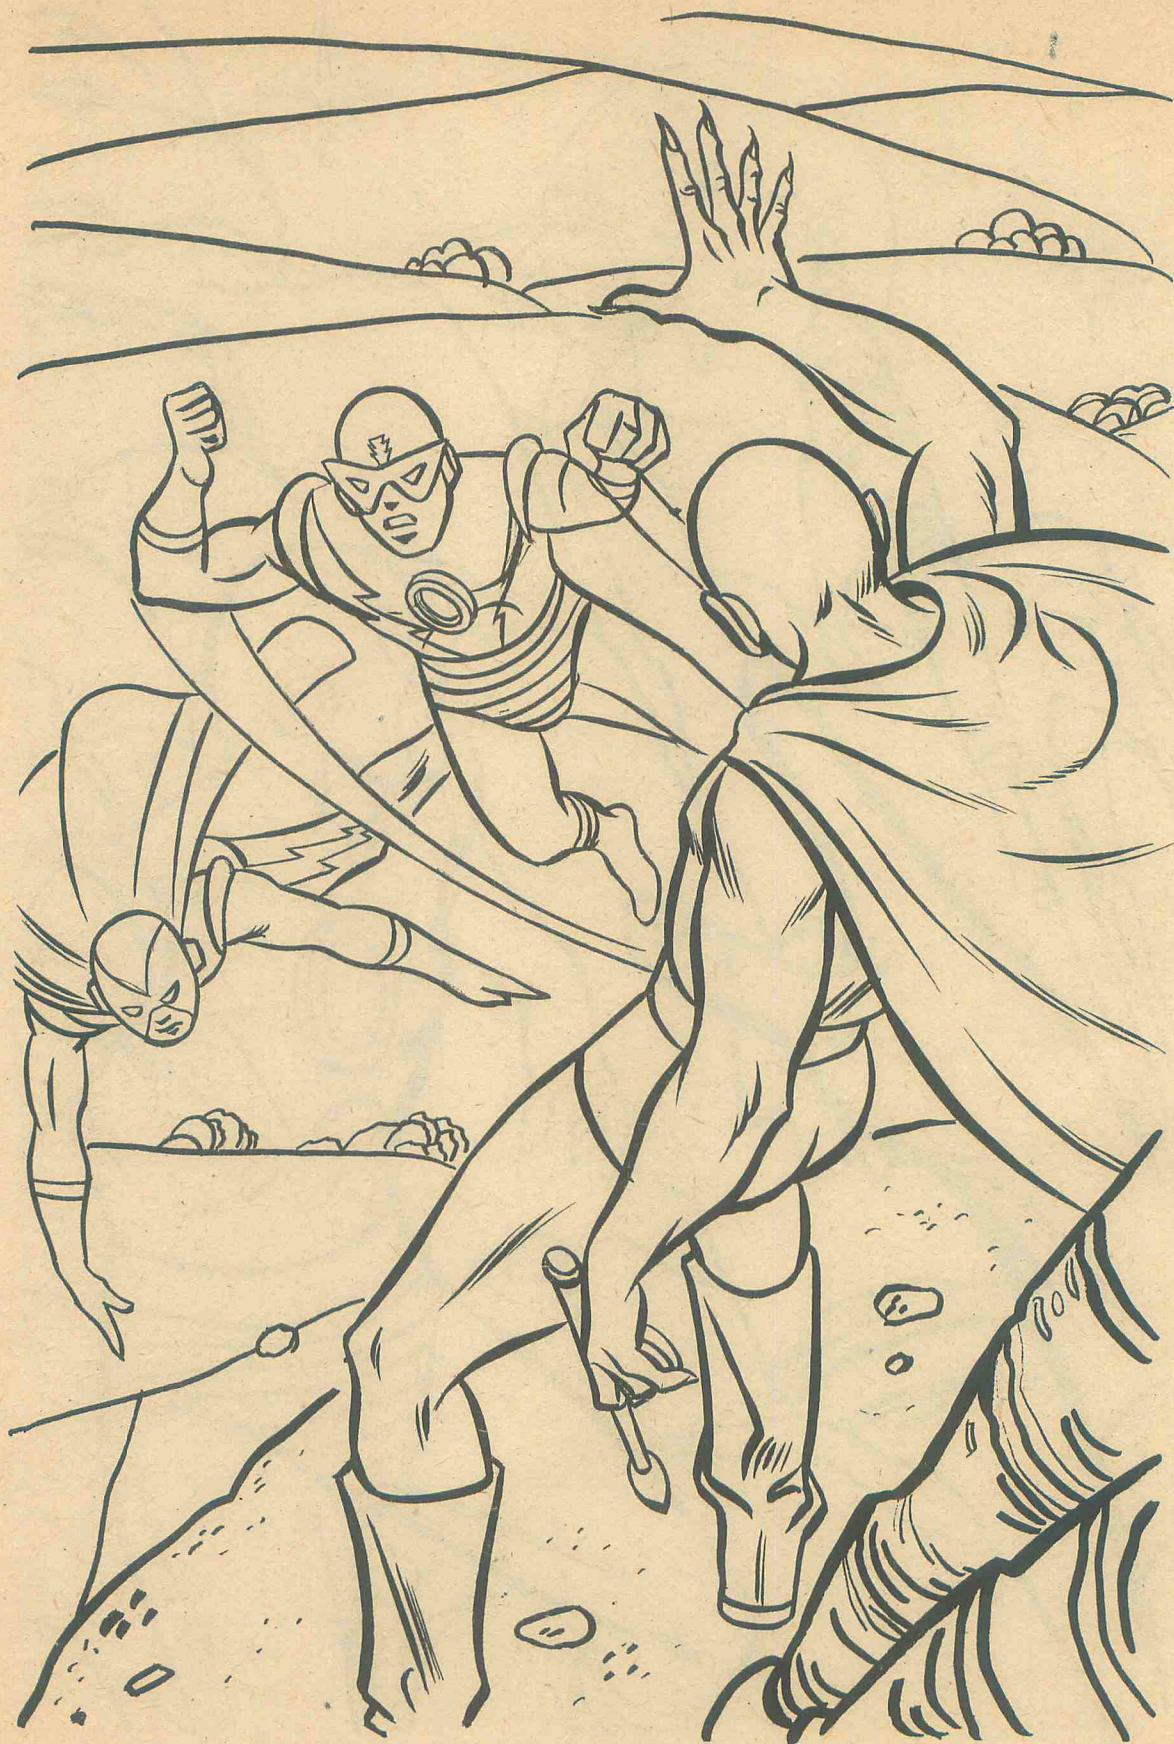

The Robot leader issues orders from a high ledge.

"There he is, Electro-Man."

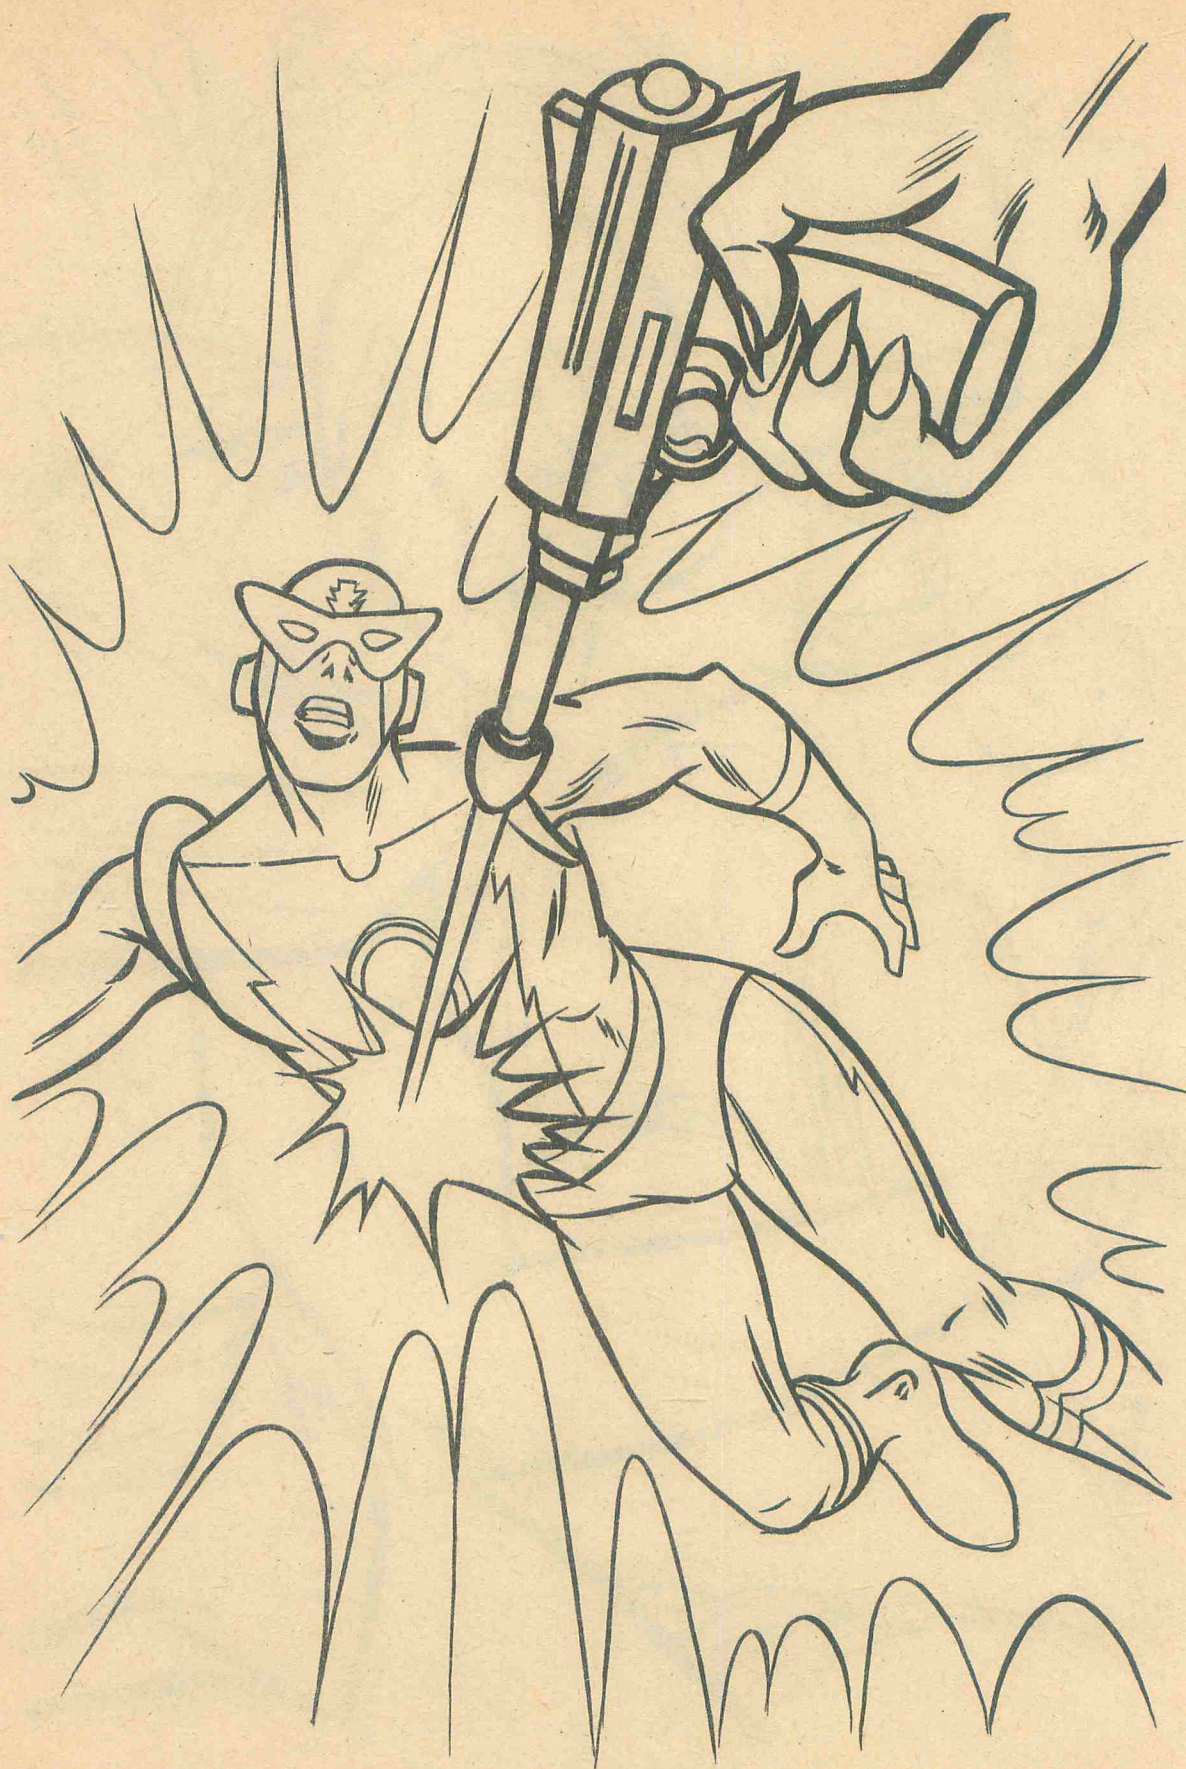

They fly up toward the leader.

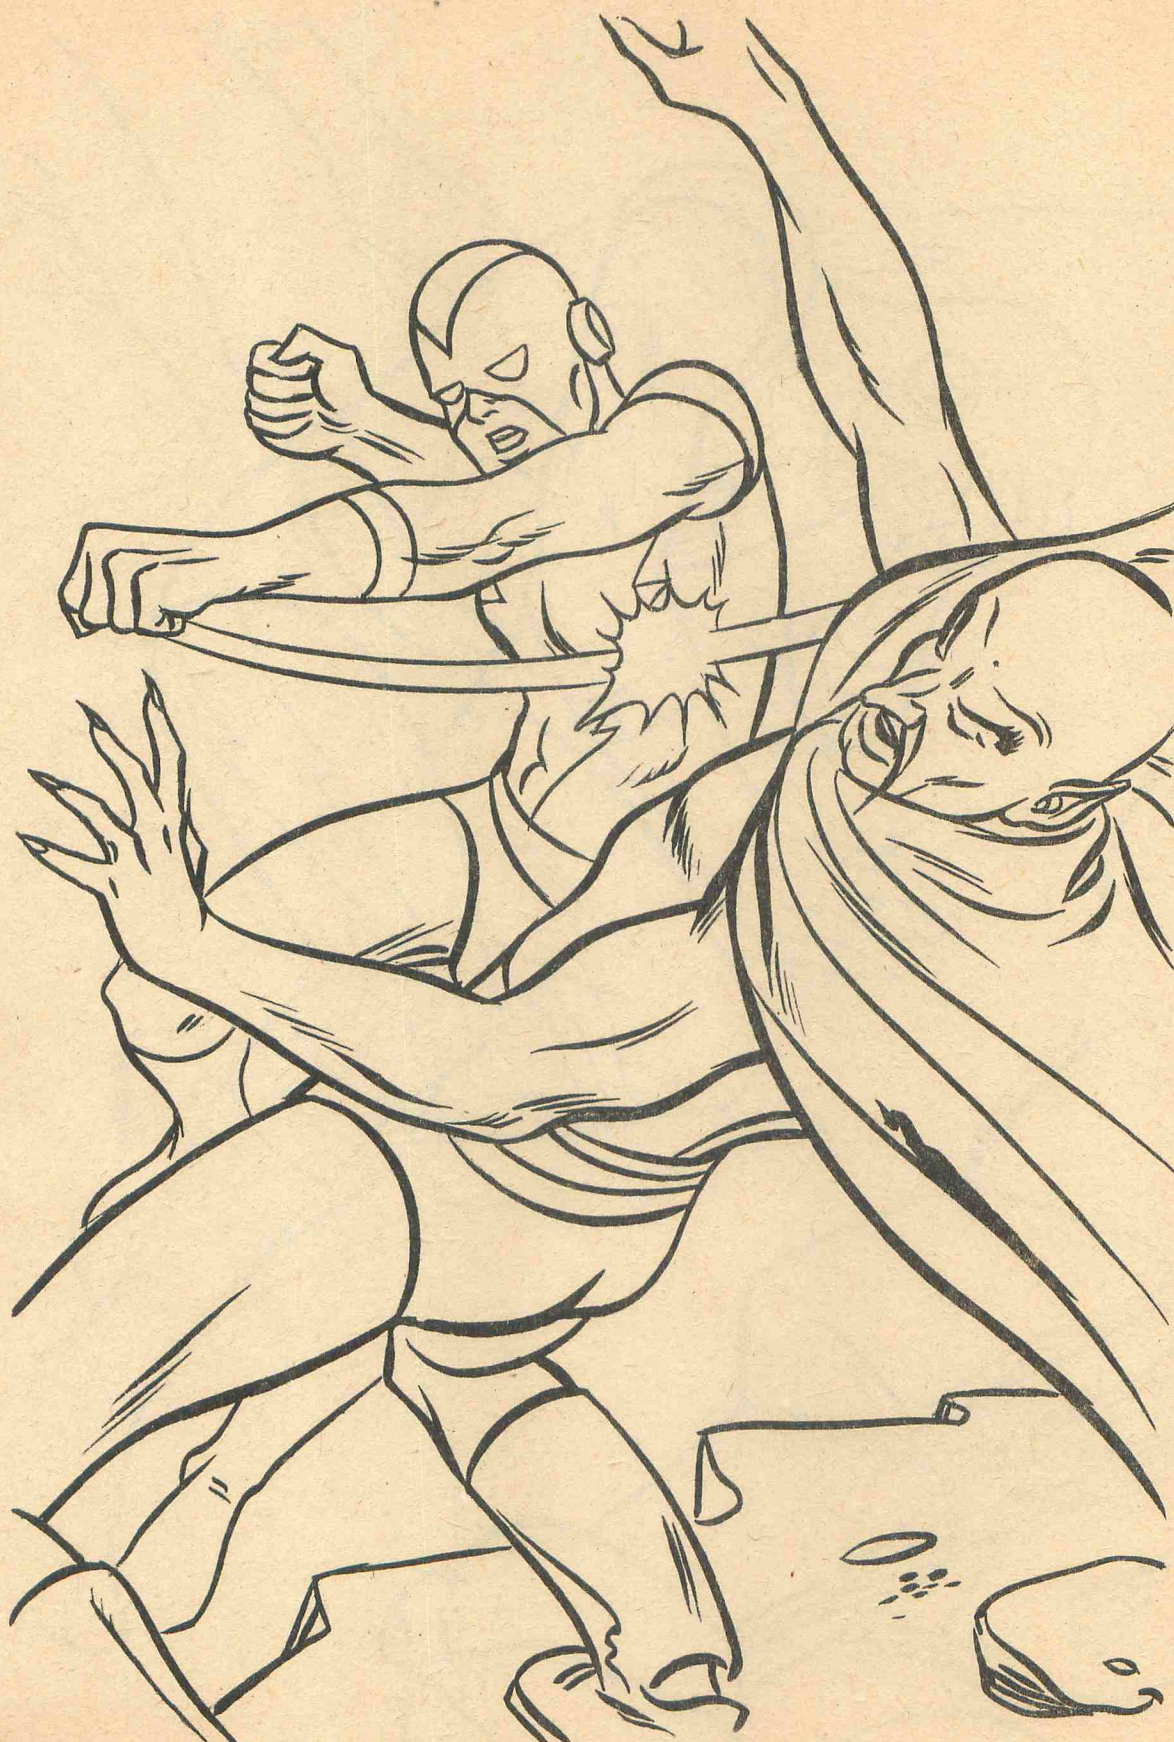

Ming fires a ray gun.

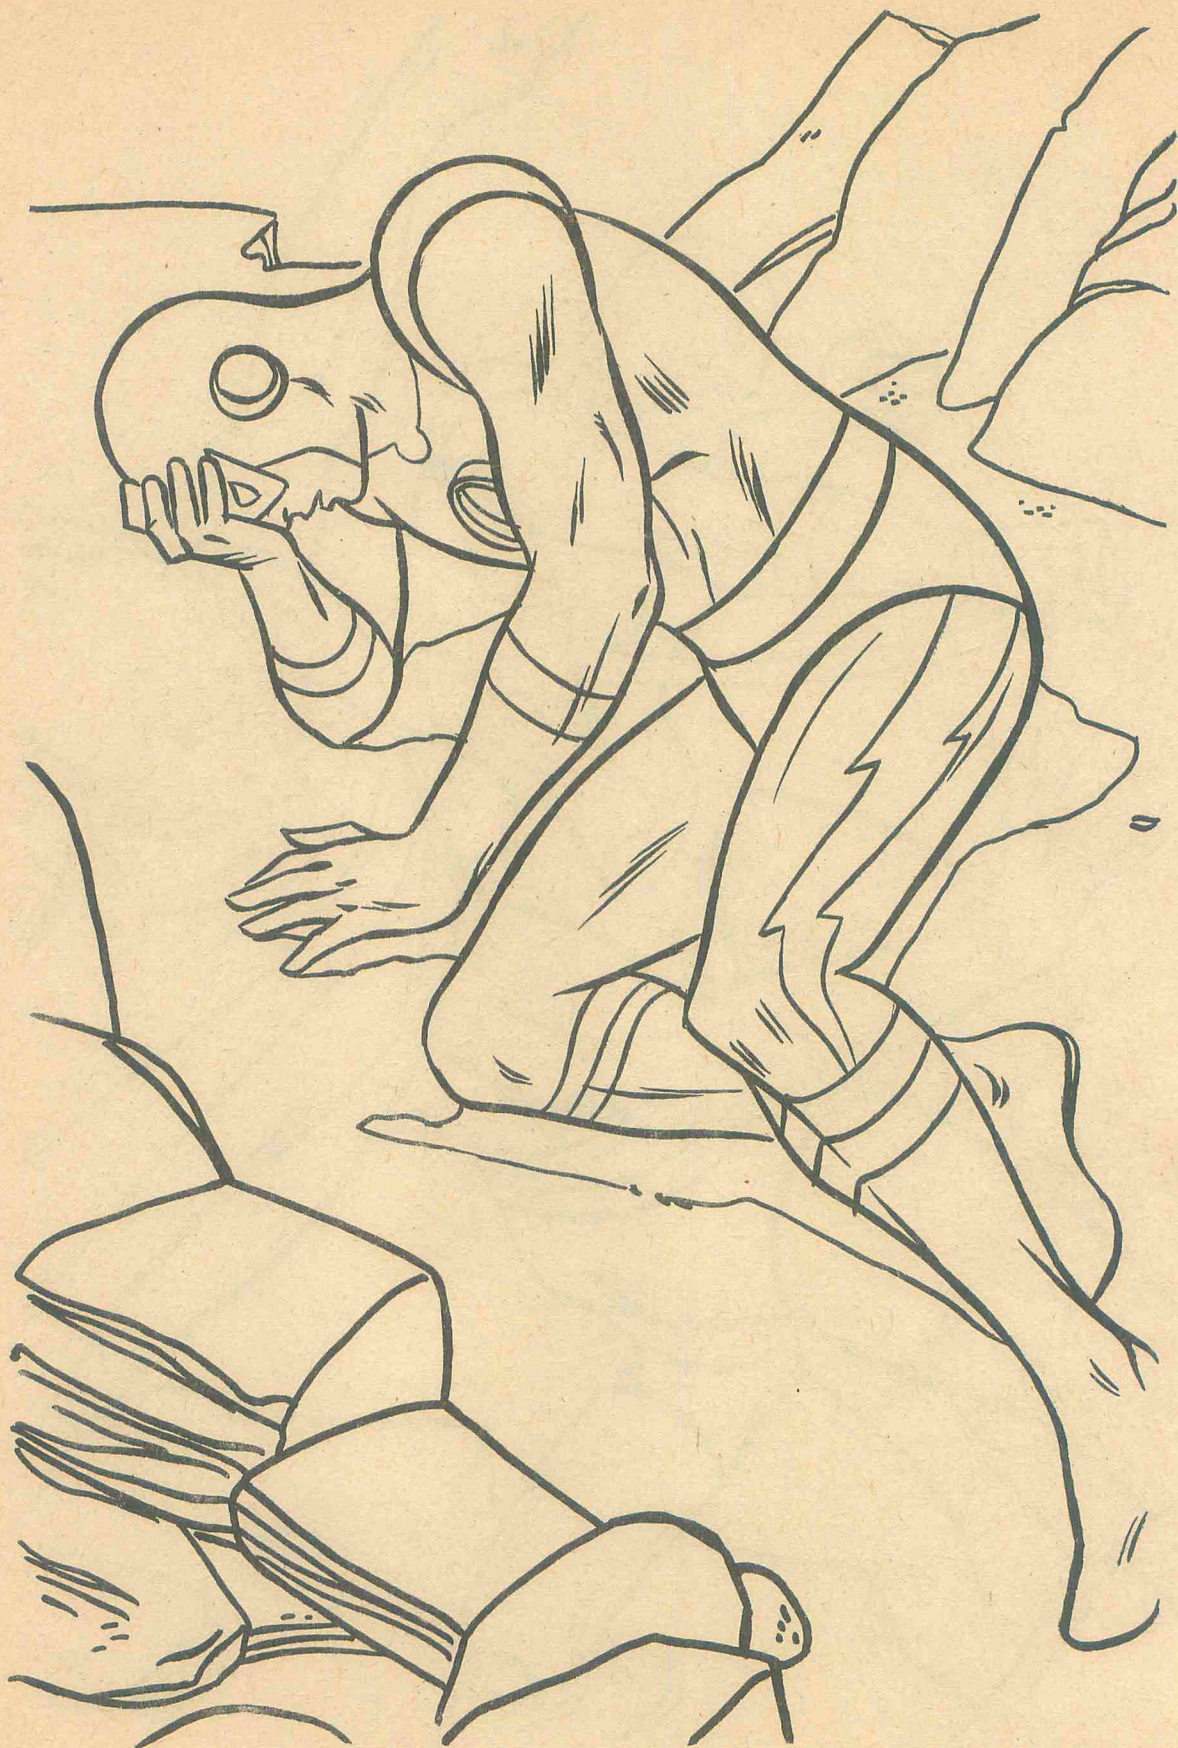

Electro-Man is stunned.

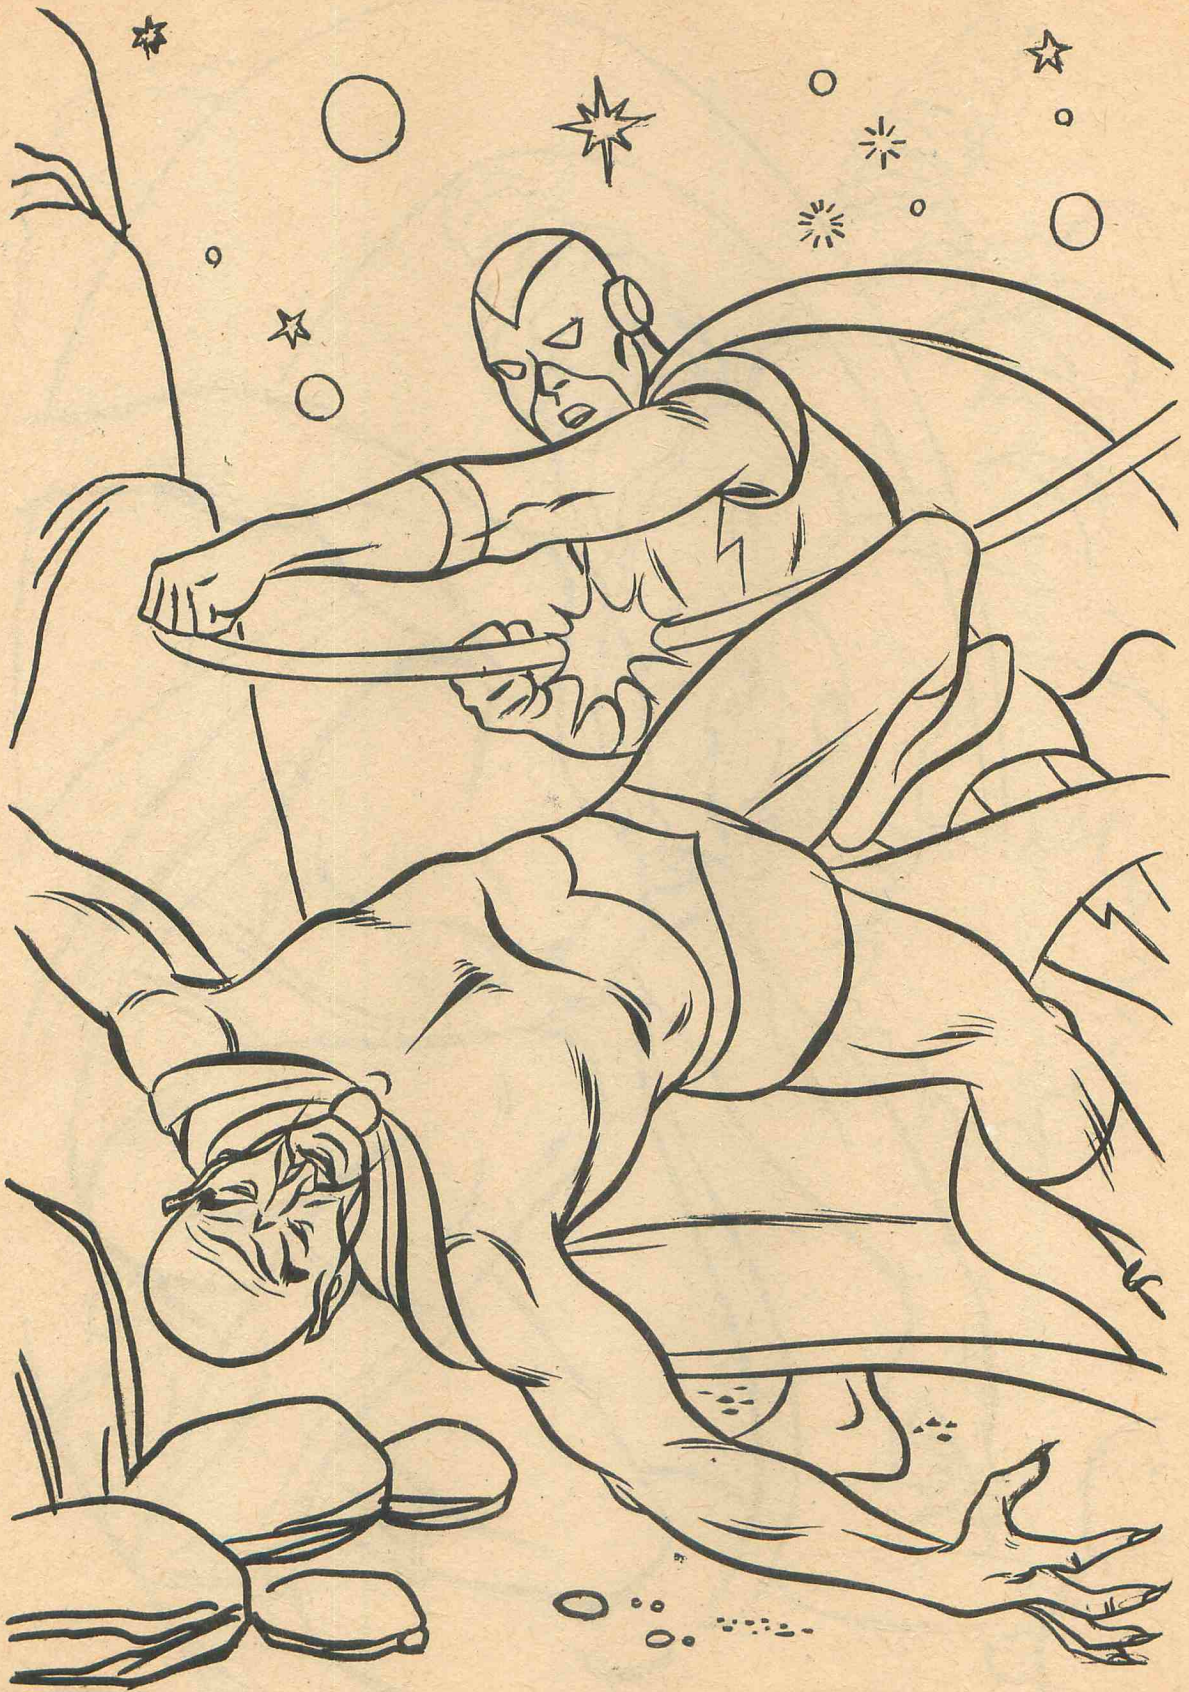

Flicker goes to the rescue.

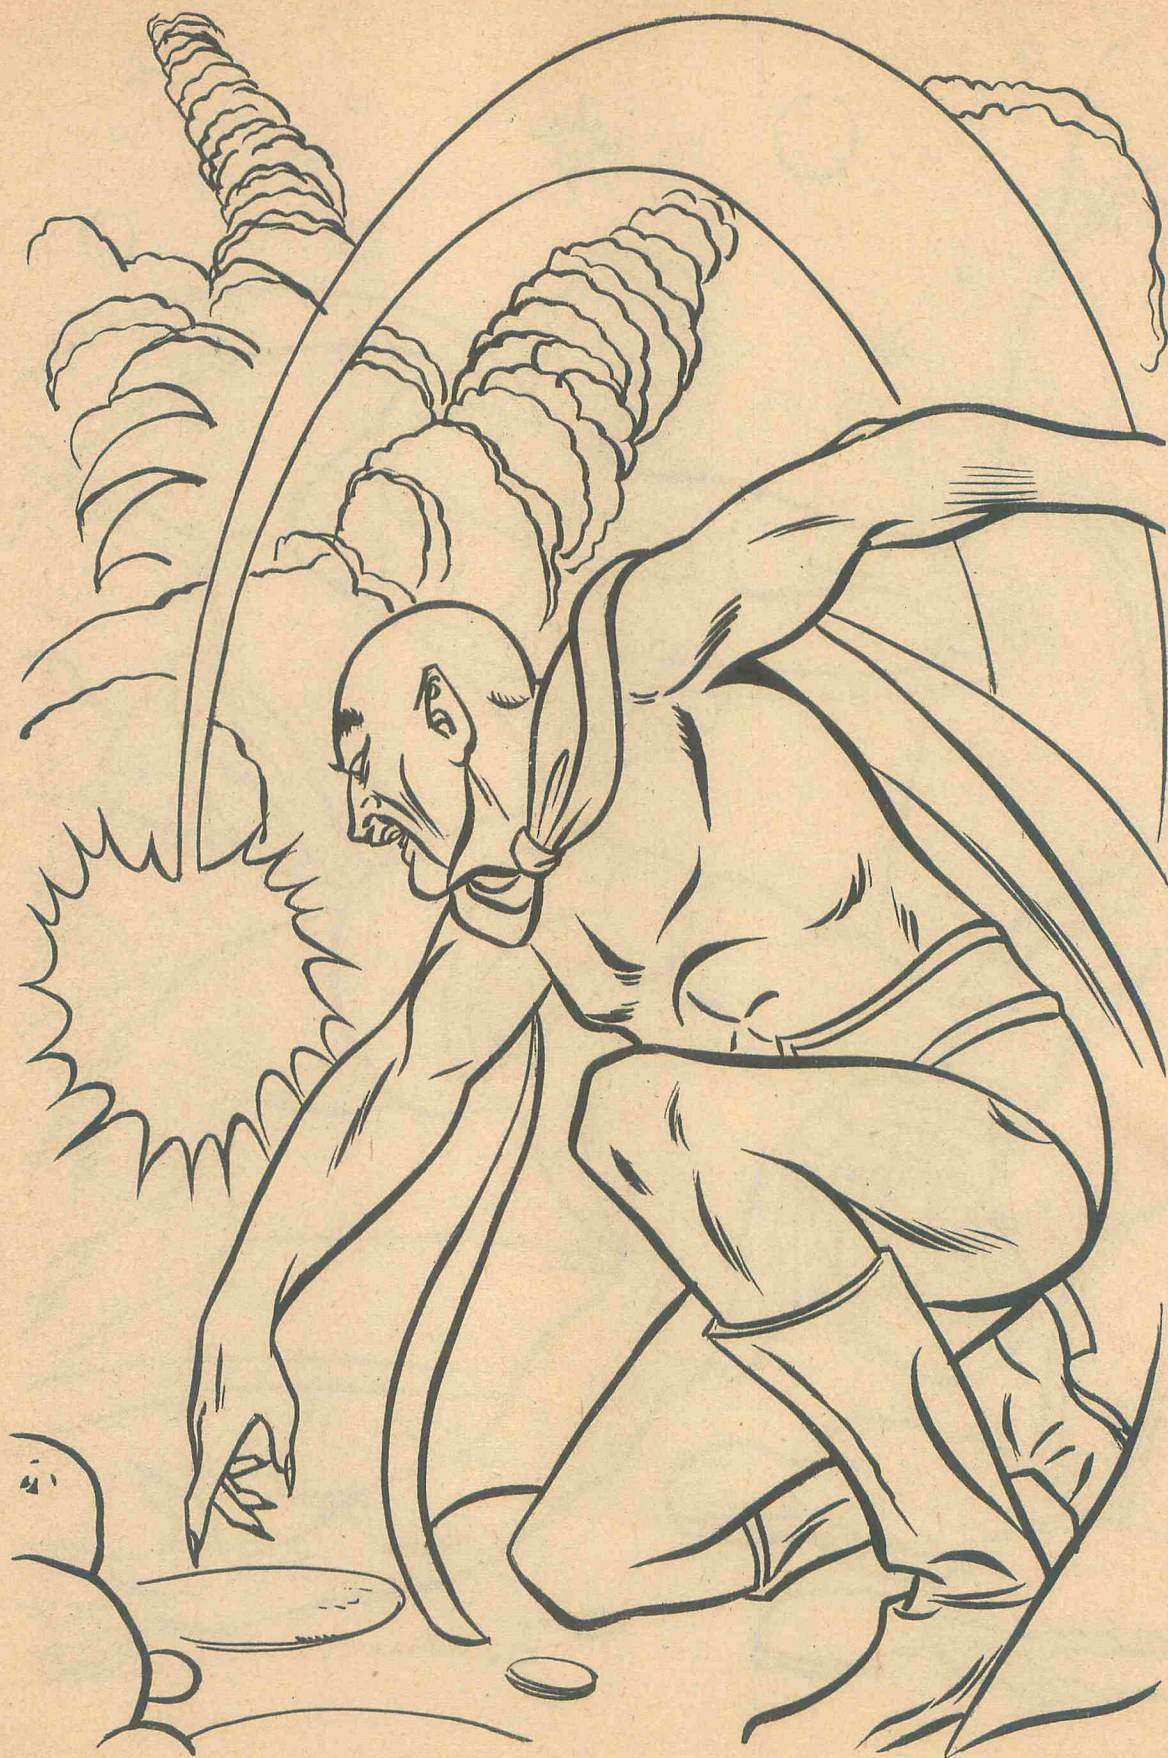

Electro-Man is badly shaken.

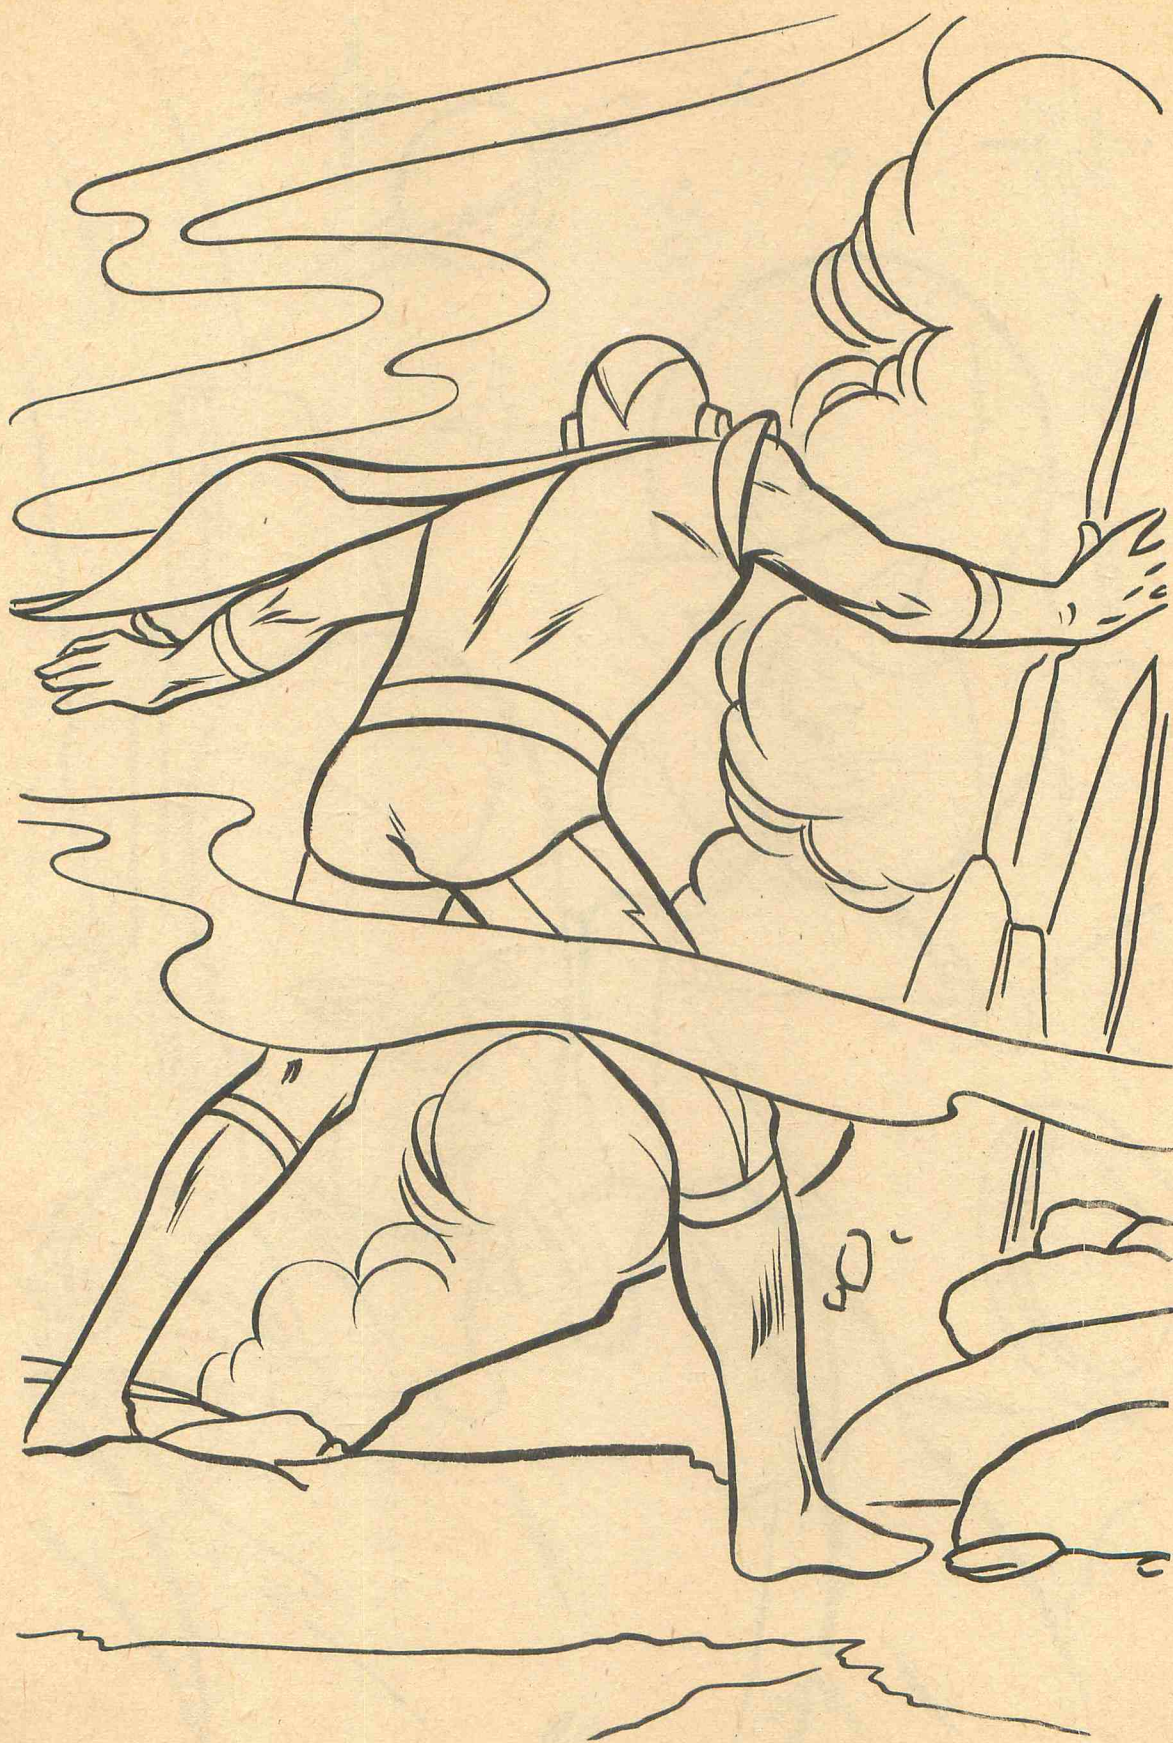

Flicker follows up.

Defeated, Ming hurls a smoke bomb.

When the smoke clears, Ming is gone.

And that is the end of the Robots!
